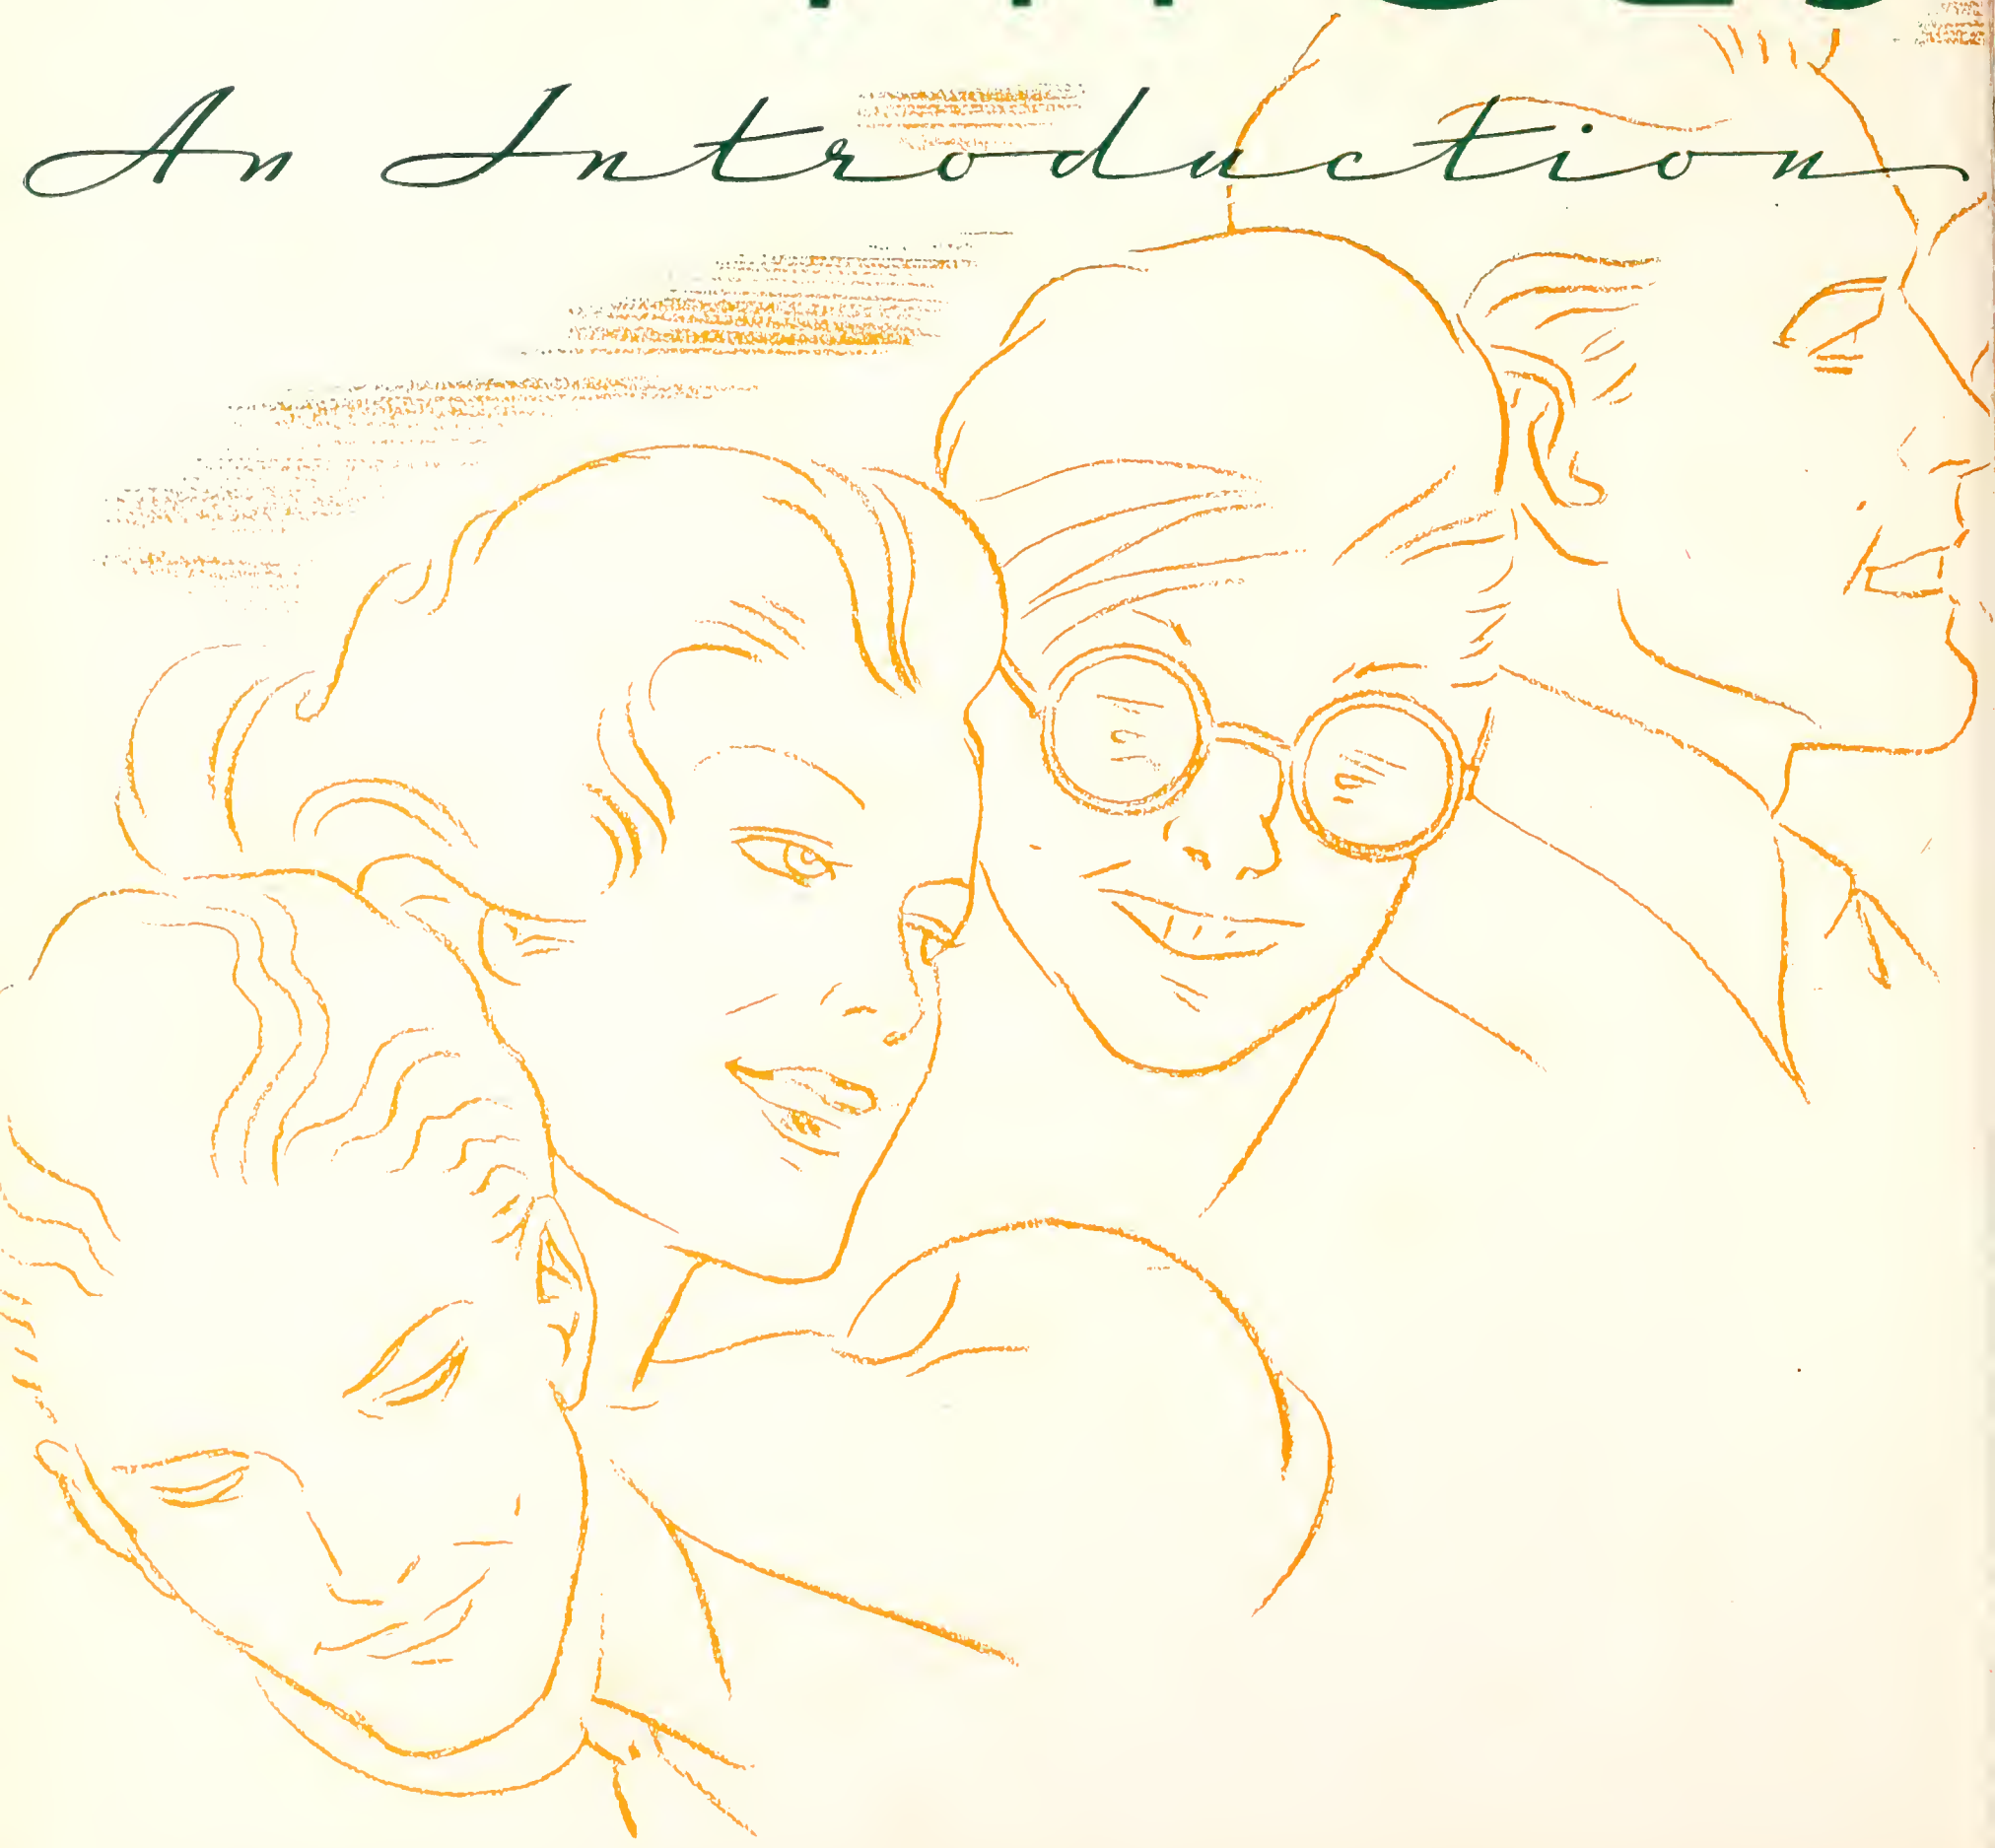
FACES

An Introduction



This book is dedicated to FACES—to the faces of youth today . . . prophetic of tomorrow . . . revealing in their varying moods—refracted through the prisms of their personalities—spectrums of high hopes and vague fears . . .

These are the FACES—the grave and gay . . . the strong and weak . . . the brash and bold . . . cynic, dreamer, plodder, genius—brave new faces . . . brave young faces of vigorous youth today . . . gazing into the misty mirrors of tomorrow . . . searching for the hazy reflections of maturity . . . the shadowy intimations of that strange interlude ahead—Life itself . . .

Set-Ups and Set-Backs of 1939

By Jean Gibbs

HOPES for the year of 1938-39 ran high, but when the achievements of the year were summed up, they seemed almost paradoxical. Opening with the science hall a realization and ending with the student union building a dead dream, the year has been a maze of successes and defeats. The progress of Kansas State might be compared with Kansas weather, sunny one minute, and gloomy the next, but always changing.

Freshman week started with a bang, although fewer frosh than last year enrolled. That was counteracted by the total enrollment, another record breaker—of 3,918, an increase of 63 students over last year.

Change in Constitution

A move to give Kansas Staters more "say" in their government was evidenced by the changes made in the Student Governing Association constitution by student vote early in the year. Divisional representation was inaugurated, increasing the membership from seven to nine and insuring each division a voice in the body.

The 1938 Royal Purple was honored as a Pacemaker, the third consecutive time the K-State annual has received this award given by the National Scholastic Press Association to only five yearbooks each year.

A feature of Homecoming activities and the climax of the seventy-fifth anniversary celebrations was the greatest parade in the history of the college. Two and one-half miles of floats, representing every civic and college organization and department, passed before thousands of visitors.

Student Union a Sore Spot

The result of the plans for a student union building is still a sore spot in the hearts of Kansas

LAYING THE CORNERSTONE of Willard Hall are Superintendent of Construction William Duncan; Dr. J. T. Willard, for whom the building was named; Jay Payne, chairman of the ceremonies; C. M. Harger, chairman of the Board of Regents; and President F. D. Farrell.

Staters. In the fall the Board of Regents recommended to the legislature a plan for such a building, emphasizing the need for it, and stating that but few state schools are without such a recreation spot. The plan provided that a grant be made by the state and that part of the debt be paid by a small amount added to each student's enrollment fee, a measure originally proposed by the students.

Proposed Plan Killed

A death blow to the idea was struck when the attorney general ruled that the proposal was unconstitutional. He also killed an alternate plan presented by President Farrell.

Refusing to give up, students then suggested that the old chemistry annex be revamped into a union building after the occupation of Willard Hall. But this plan died too when a committee investigating the situation reported that the idea was impractical. Student feeling was further evidenced when a small out-building appeared on the campus one morning in March with the title "K. S. C. Student Union Building" above the broken-down door.

LONG LINES of students woit in Kedzie for the 1938 Pacemoker Royol Purple.

The Greeks copped almost all offices in the fall class election, but the independents came back in the spring and carried away a majority of offices on both the student council and the board of publications.

Christian Mission Here

Kansas State was one of the 30 large state schools visited this year by the University Christian Mission and a group of seven internationally known leaders headed by Dr. E. Stanley Jones. These speakers spent nearly a week here.

National honors of all kinds were captured by the college this year. Several debaters had their

arguments published in a national oratory magazine, and one member placed second in the National Republican Oratorical Contest. Two members of the British debating team were on the campus for a match with the State team.

The livestock judging team came home champs from the International Livestock Exposition at Chicago for the third consecutive time, therefore winning permanent possession of the bronze bull trophy.

The women's meats judging team maintained the perfect record they have held since 1931 by winning all their matches, and the poultry judging team won first in the intercollegiate contest at Chicago for the fourth time.

Champion Two-milers

Although left lagging in basketball and football, the athletic department redeemed itself by gleaning the two-mile championship for the third straight time. Then the wrestling team proved themselves champs in the Big Six. A record was broken and the national intercollegiate shot put championship was won by Elmer "One Man Gang" Hackney.

CROWDS LINE the sidewolks neor Anderson Holl to view the floots in the Homecoming porode.

Interest in School Affairs

Much interest in the affairs of the school was aroused among the student body and among people all over the state when the Collegian took the initiative in campaigns to remove the "deadwood" from the faculty, to improve the athletic situation, and to expose certain college buildings as fire traps.

Thousands of visitors came to the campus to make this year's Farm and Home Week the biggest and best ever. Events of this nature show the increasing interest of Kansans in education in agriculture and home economics.

When plans were announced to put air schools

A NEW SECTION of the college greenhouse, built of notive limestone, wos nearly completed this year.

PROFESSORS OF CHEMISTRY inspect the modern loboratories housed in spocious new Willord Holl.

in colleges and universities all over the United States, Kansas State put in her bid. The city of Manhattan went so far as to make plans for an airport to help the college, but when the decision was made, Kansas State was left out.

Slash in Appropriation

Another blow came when the legislature made the appropriation for the coming year. The deep slash made in the amount asked for meant that many of the campus dreams and necessities will go unrealized. The slight increase in salaries was not enough to insure keeping first class teachers, and already several men have announced that they are taking better positions. No hope for building projects can be seen in the future until another legislature remembers that there is a college at Manhattan.

STUDENTS HAUL o discarded coal-shed on the campus as o symbol of their student union building hopes.

The new science building, named Willard Hall in honor of J. T. Willard, college historian, neared completion this year and will be put into use by the fall semester.

A new greenhouse was nearly finished and had been used for several months when most of the glasses were demolished by a hail storm, resulting in a damage to the college of $7,430.

What Next?

This year has been a conglomeration of successes and defeats. Honors were brought to the college by various individuals and departments, and contributions were made in the field of scientific research.... In contrast, K-State lost several outstanding men and had her figurative ears knocked down in her plans for building and expansion. The year 1939 is obviously a turning point in Kansas State progress... the outcome is left for future interpretation.

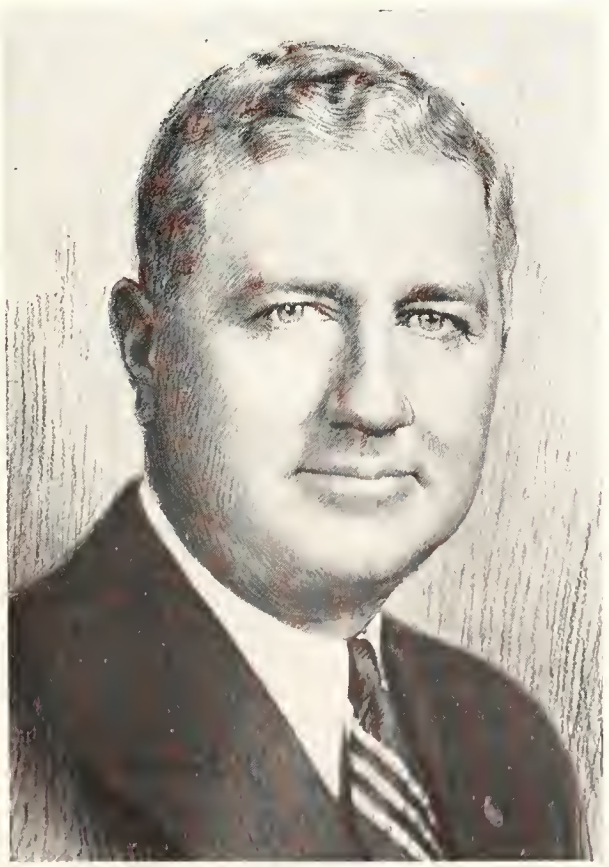
Governs Kansas

GOVERNOR Payne Ratner, the youngest State executive Kansas has ever had, has declared himself in favor of an aggressive educational program. He is the special pride of the Sigma Alpha Epsilon members on the campus, being himself a member of that organization.

First a newspaper man and then a Parsons lawyer, this is Governor Ratner's first term. Elected by a large majority, his initiation was extremely successful. A graduate of Kansas University, he is interested in the State colleges and "higher" education. Governor Ratner was invited to the Military Ball and to St. Pat's Prom, but urgent business kept him away. His chief interests are his family and his position, but he always finds time to meet any visitor who requests a conference.

DETERMINATION characterizes yaung Gavernar Payne Ratner as he faces the camera.

RALPH T. O'NEIL, chairman af the Board af Regents, maintains an attitude af calm paise.



Board of Regents

The Board of Regents is the supreme governing body for the five State schools. It is to them that the various Presidents and the Chancellor of K. U. send their recommendations for any changes in their institutions.

Ralph T. O'Neil of Topeka is chairman of the Board, other members being Lester McCoy, Garden City; Dr. H. L. Snyder, Winfield; Howard Payne, Olathe; E. F. Beckner, Colby; Clarence G. Nevins, Dodge City; Maurice L. Breidenthal, Kansas City; Leslie Wallace, Larned, and Dr. L. J. Beyer, Lyons.

A bill was passed by the 1939 session of the State Legislature authorizing a reorganization of the Board of Regents. The Governor is expected to appoint a new Board this spring.

President F. D. Farrell

Recognized as an educational force in Kansas and the Middle West, President Farrell here reveals the quiet dignity for which he is admired. As he is an extremely busy man, the President is not very well known to many of the students. However, he is interested in their activities, likes to talk with them, and welcomes them to his office.

College Chief

COMBINING in his office administration, legislation, and interpretation, the President is one of the busiest men on the campus. He is, of course, the chief executive of the College and, as chairman of the Council of Deans, formulates new policies and interprets old ones.

The President's faculty staff numbers 544, including teachers, research workers, and administrators. Besides being the presiding officer of the faculty, he represents the College in all its relations with the Board of Regents. A four-page recommendation is sent to the Board every week, concerning matters of finance, educational policy, and staff additions.

All in all, the President's duties are so multifarious as to make noting them impossible. Enough to say that no detail, however small, escapes his attention. Assisting the chief with his many administrative activities is C. O. Price, congenial "front-office-man" and official "checker-upper." "C.O." is the essence of efficiency and a veritable information bureau in himself.

CALM EFFICIENCY and good humor plus a desire to be of service are the traits that make C. O. Price, Assistant to the President, known and liked by faculty and students.

DIGNIFIED in academic attire, President Farrell leads the procession to the stadium for the conferring of degrees.

Administrators—Known

BEING the go-between for the college and the public is no easy job, thinks Vice-President S. A. Nock. However, the responsibility doesn't prevent him from greeting everyone with the beautiful dental-exposure displayed here.

"Patriarch of Kansas State" is Dr. J. T. Willard's unofficial title. With the great new science building named for him being completed this year, he can well afford to look pleased.

Dr. Willard has been head of the chemistry department, vice-president, and historian, successively. His history of the college is on the press.

Registrar Jessie Machir has seen record enrollment after record enrollment come to K-State. The college record-keeper, she can tell you almost anything about anybody on the hill.

This Is the System

By Victor Blanks

KANSAS State College is organized into divisions comparable to the colleges of a university. There are five divisions directing all resident study—Division of Engineering and Architecture, Division of Home Economics, Division of Veterinary Medicine, Division of Agriculture, and Division of General Science—plus the Summer School, which is catalogued separately and administered by Dean E. L. Holton.

Added to these is the Division of Graduate Study, which is enmeshed with all the other divisions and is responsible for assigning courses and research problems to graduate students.

Besides the divisions for resident study, there is the Division of College Extension, concerned with the entire State of Kansas. Home study and correspondence work are its principal instructive activities.

Each division is under the management of a dean who directs his particular school, acting with counsel of the President and with consideration of the college as a whole.

A division is subdivided into departments under the direction of a professor in the field of that department's work. The department head may have working with him several other professors in more specialized fields. Next in rank to the professors are the associate professors, and ranking under them are several assistant professors, instructors, and graduate assistants.

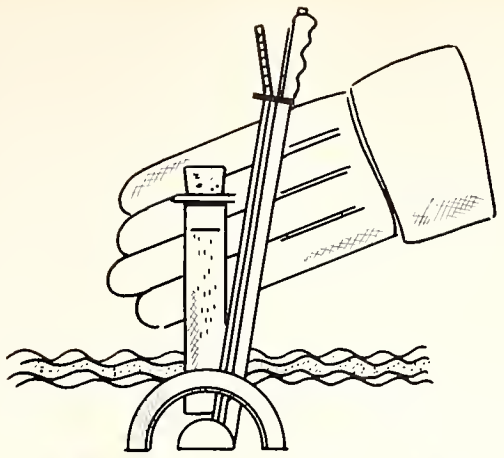
The deans of the divisions, along with the President, Vice-President, Dean of Women, and Historian, make up the Council of Deans which is the direct governing body of the college. It decides administrative matters, discusses matters of finance and class scheduling, changes that should be made, and the general policies of Kansas State College.

C. W. Mullen

Assistant to the Dean is Clyde W. Mullen. The multifold activities of his chief leave him with many of the ordinary duties of a Dean.

Dean L. E. Call

Smiling benevolently, Dean Call stops work a moment to oblige the Royal Purple cameraman. The Dean is responsible for a large number of agricultural graduates being placed in prominent positions. Many of them are with the United States Department of Agriculture.



DIVISION OF AGRICULTURE

FOR many years this school was known as "Kansas State Agricultural College," and the Agricultural Division is still one of the most important on the hill even though its enrollment is small in comparison to some of the others. As proof of its importance, two Deans of Agriculture have succeeded to the Presidency when that chair was vacated.

Nearly 45 per cent of the people of Kansas live on farms, and it is of the agricultural school that they think whenever Kansas State is mentioned. A helping hand to the farmers of the state—that has been the guide of the men working and teaching in the Division.

It's not all on the serious side, however, for every K-Stater is familiar with the overall-garbed and pitchfork-armed ag student as he promenades the campus during the week preceding the annual Ag Barnwarmer. Incidentally, the foolhardy lad who forsakes the denim apparel receives a thorough sousing in the trusty horse-tank.

Kansas State's agricultural research men have achieved wide recognition, and the Department of Milling Industry, a part of the Agricultural Division, is the only school of its kind in the country. Many students from foreign countries come to State to enroll in this course.

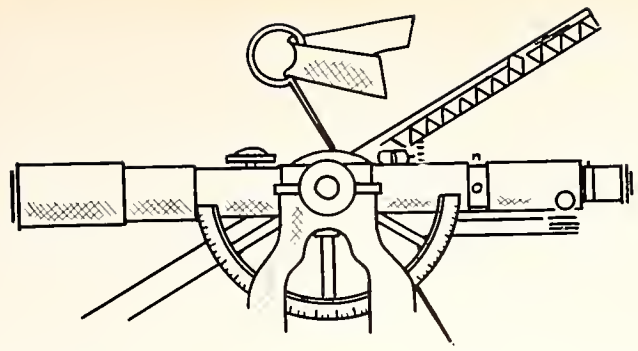
Dean R. A. Seaton

This inquiring expression is characteristic of the Dean when a student enters his office seeking advice. College NYA administrator since the bureau was instituted in '34, he has duties other than his title implies.



DIVISION OF ENGINEERING AND ARCHITECTURE

THE indistinct rumble of the power plant and the surveyor's shout of "Stake!" furnish audible evidence of the engineer at work. Civil—architectural—mechanical—from the awestruck freshman just realizing the dignity of his chosen profession, to the senior and his dreams of building the "biggest"—these are the engineers.

The Division of Engineering and Architecture has much "say" in campus affairs. The engineers contribute to college life both socially and seriously—gala St. Pat's Prom vieing with science-wonders of Open House.

As one of two outstanding technical schools in the Middle West, the Division offers training in architectural, agricultural, electrical, civil, chemical, mechanical engineering, and industrial arts.

This fall 1,057 engineering students filed past the Division's table on enrollment day in Nichols. The 288 freshmen, with their elementary mathematics, regarded enviously the upperclassmen and their courses in design and structure. Underclass and senior, they looked forward to—and were not disappointed in—a year of progress.

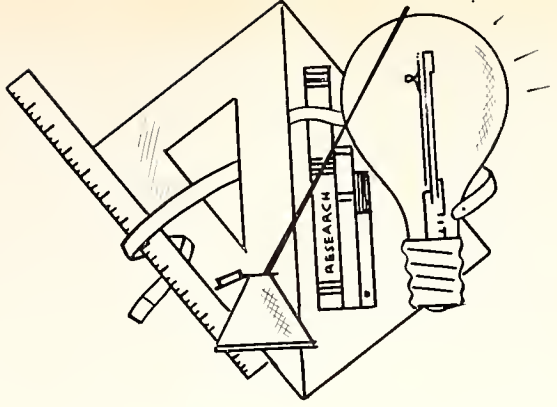
THE

L. C. Williams

Assistant Dean of Extension, Louis C. Williams is also professor of horticulture and all-'round man of affairs.

Dean H. Umberger

Dean Umberger is well known to those students who must get their education off the campus. In charge of correspondence work and home-study, he has spent 20 years educating the people of Kansas in better living.



DIVISION OF EXTENSION

MAKING Kansas State College a truly "state" institution is the job of the Division of Extension, for the work of the school is not bounded by campus walls but influences all Kansas.

Correspondence, home study, home demonstration, and publicity work for the college are a few of the duties of Extension. The 4-H Club activities and rural engineering are also included among the responsibilities of Dean Umberger and his capable staff.

Project work is carried on in the state by specialists in the various agricultural sciences such as plant pathology, horticulture, dairying, and animal husbandry.

Extension Service has been one of the college divisions since 1917, and Dean Umberger has been Director since it was organized. The Service has brought about directly the improvement of many homes and farms in Kansas and has caused others to be developed by their owners.

To the students, the symbol of College Extension is the large, square stone building off-campus on Anderson Avenue. K-State's radio station, KSAC, is also included in the Extension Division's work, and according to surveys, attracts an average of 1,500 listeners per program.

SPECTATORS admire the Extension Division's Homecoming Parade float.

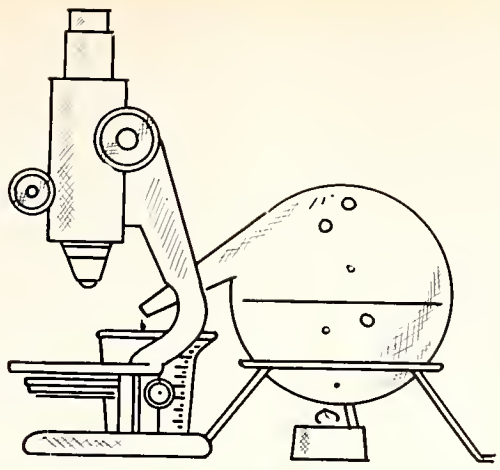
THE

C. M. Correll

Besides being Assistant Dean of General Science, Charles M. Correll is a professor of history and a good one too.

Dean R. W. Babcock

A multitude of problems, large and small, make Dean Babcock's day a full one. Being Dean of the largest division on the hill is a position requitting no end of distractions. In the above picture, he finds time to answer the almost constantly ringing telephone.



DIVISION OF GENERAL SCIENCE

"LITTLE bit of everything" is the phrase most descriptive of the Division of General Science. Curricula leading to degrees are industrial chemistry, journalism, commerce, music, and physical education.

Having bowed to the Engineering Division in enrollment numbers for last year's fall semester, General Science staged a come-back this fall and recaptured the title of having the largest enrollment of any division.

In addition to those departments named, students may enroll in a general science curriculum and major in English, biology, political science, or any of a number of other subjects.

A primary object of the Division is the providing of studies more nearly resembling "liberal arts" to mitigate and supplement the wholly technical training given by other divisions. To this end serve the departments of music, English, and social science.

The completion of Willard Hall this spring replaces the loss suffered by the Division when in 1934, old Denison went up in a glory of fireworks. The new hall will house the departments of physics and chemistry and is the largest and most modern building on the campus.

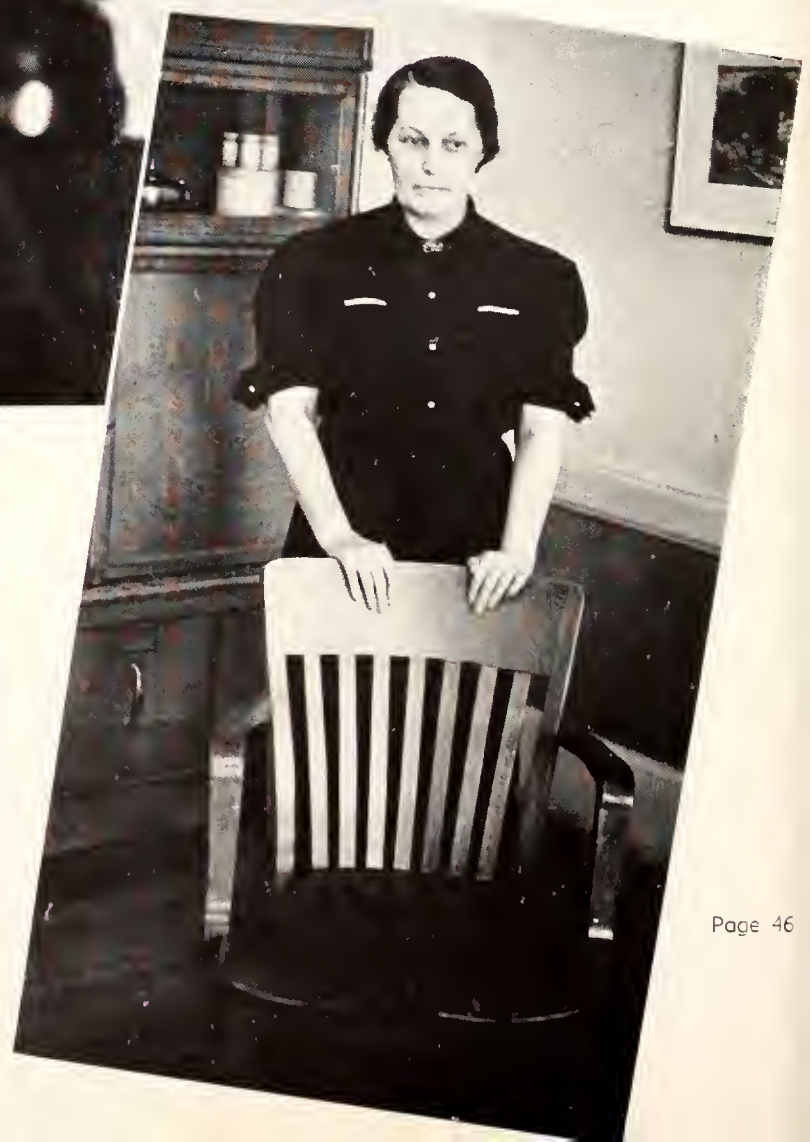
THE

Jane Barnes

"Acting Assistant Dean" is Jane W. Barnes' official title, but students know that her duties are even more than the title implies.



Dean Margaret Justin

Her silvery hair in contrast with her dark attire, Dean Justin is a familiar figure on the campus. Much in demand as a speaker, she is an authority on common household problems as well as the more technical subjects pertaining to Home Economics.

DIVISION OF HOME ECONOMICS

THE Home Economics Division is the big attraction for women students at Kansas State, enrolling approximately 70 per cent of all the coeds in school. Enrollment this year was record-breaking, 792 girls entering the Division for the fall semester and 732 for the spring term, making the largest total in the Division's history.

Changing curricula to fit the changing needs of its graduates is one of the policies followed by the Division. Students may enroll in General Home Economics, Home Economics and Art, Home Economics with special training in Dietetics and Institutional Management, and Home Economics and Nursing. Thus are satisfied varying interests and ambitions.

Home Economics is unique among the college divisions in that it places nearly 100 per cent of its graduates. This is made possible by the growth of nation-wide interest in the several fields of home economics education and by the efforts of Dean Justin and her staff.

A feature of the home economists' year is Hospitality Week. Annually, high school home economics teachers bring their classes from all over the state to KSC to enjoy a week of exhibitions, climaxed by the Hospitality Hop in Nichols Gymnasium.

HOME EC GIRLS learn "good taste" through scientific study.

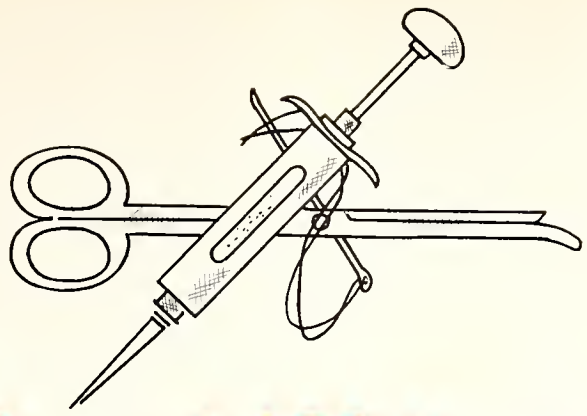
THE

Margaret Daum

Margaret Daum acts as an assistant to the Dean, taking care of most of the routine, secretarial and student work.

Dean R. R. Dykstra

Holland's loss was Kansas State's gain when Dean Dykstra's parents decided to come to the United States while he was still small. His training and natural ability have enabled him to build K-State's veterinary school into one of the best in the country.



DIVISION OF VETERINARY MEDICINE

"VETERINARY student" brings an impression of white coveralls, sterilized hands, and self-assured expressions. Known among the rest of the students for their independence and high grade-averages, a "vet" is a distinctive campus character.

The vets feel their importance because this is one of only ten veterinary schools in the United States. The Dean, R. R. Dykstra, is nationally known in his field for his individual contributions and by his position at KSC.

K-State introduced its first curriculum in veterinary medicine in 1905 and conferred the first D. V. M. degree in 1907. This year, veterinary students in their first year were classified as "pre-vets" and enrolled in the General Science Division. Next year they will enter the Veterinary Division as freshmen, thereby spending only four years of their five-year course in actual veterinary training.

A system of limited enrollment is followed, wherein only a certain number of students are allowed to enroll each year. One of the first considerations for admittance to the Division is that precedence shall be given Kansas residents or students from states with no veterinary school.

VET STUDENTS learn the ABC of animal anatomy.

J. E. Ackert

The Dean of Graduate Study characterizes the spirit of the Division in this typically studious pose.

GRADUATE STUDY

NEARLY 50 graduate students will leave the Division of Graduate Study this year. Doctors and Masters, they have satisfied the rigorous requirements of the Division and will go to their first jobs or will return to positions temporarily quitted in order to obtain a higher degree.

To the ordinary collegiate "graduate students" are somewhat of a legend, seldom seen or heard of. Few realize that Kansas State's Graduate Division is as widely known as any part of the college.

A GRADUATE student bends over his "mike" trying to establish some new scientific fact.

SUMMER school is the nearest thing to a teachers' college that Kansas State has. Most of the students in summer sessions are teachers from rural and municipal grade and high schools.

An activity fee, levied upon students for the first time last summer, supported a miniature Collegian, produced a play, paid for a number of musical programs, and financed the "rural high-school clinic."

Seniors

VICE-PRESIDENT Fred Klemp (left) gets a laugh out of President Earl Clark's (right) ideas about designs for commencement invitations. Treasurer Herman Reitz and Secretary Frances Gebhart are dubious.

At Long Last—Seniors!

DEVELOPMENT of the senior's superiority complex can be traced from enrollment time. His one compensation for the hours of struggling through assignment mazes is the satisfaction of writing "senior" on hundreds of little cards and papers.

The senior comes out of the gym in September with a realization that this is the next-to-the-last time through, and a few weeks later he will be allowed to select class officers. In the meantime he has found that being a senior means he doesn't have to go to class .... he has cut privileges.

LESS SCHOOL and more "jelly dates" are part of the joy of being a cut-privileged senior.

In late March he swings out at the junior-senior prom and sees the senior prexy succeed in handing over the class-colors and crook to the junior president. About that time the registrar sends a notice to all seniors to show up and pay up. Invitations are ordered, caps and gowns fitted and rented. Then come senior farewells and senior finals.

With a tear and a smile and a picture in his cap and gown for the folks, he sets out to seek his fortune .... to look for a job.

PAL TO THE General Science senior is star-gazing, lecturing Dean Babcack. Even Assistant Hartel (extreme left) has trouble keeping his mind an astronamy at these famous, bring-your-own-blanket evening classes. Seniars say this class is interesting, but no "pipe"—and they should know, for after four years' experience they've learned all the tricks of "apple-palishing," "tubing," and "pipe" courses.

Class Spirit

. . . . is definitely a thing of the past at State! Class rivalry, bloody battles over the class colors crook, stolen trophies, tugs-of-war, and class picnics have all gone the way of the ruffled petticoat, the derby hat, and the button shoes. Even the Junior-Senior Prom was shelved this year.

"BACKGROUND" for Mortar Board's annual tea far seniar women is furnished by Helen Hammel harpist, and Cynthia Askren, violinist, in the music raam af Van Zile Hall (abave).

"GEORGE," the porter, leads the singing for a coach-full of inspection-touring seniors in mechanical and electrical engineering. Whatever their course—engineering, hame ec, commerce—seniars ga ance a year ta laak over the prafessianal and cammercial field to see what they've been going to schaal far.

Poets to Come

Poets to come! Orators, singers, musicians to come!

Not today is to justify me and answer why I am for,

But you, a new brood, native, athletic, continental greater than before known,

Arouse! for you must justify me.

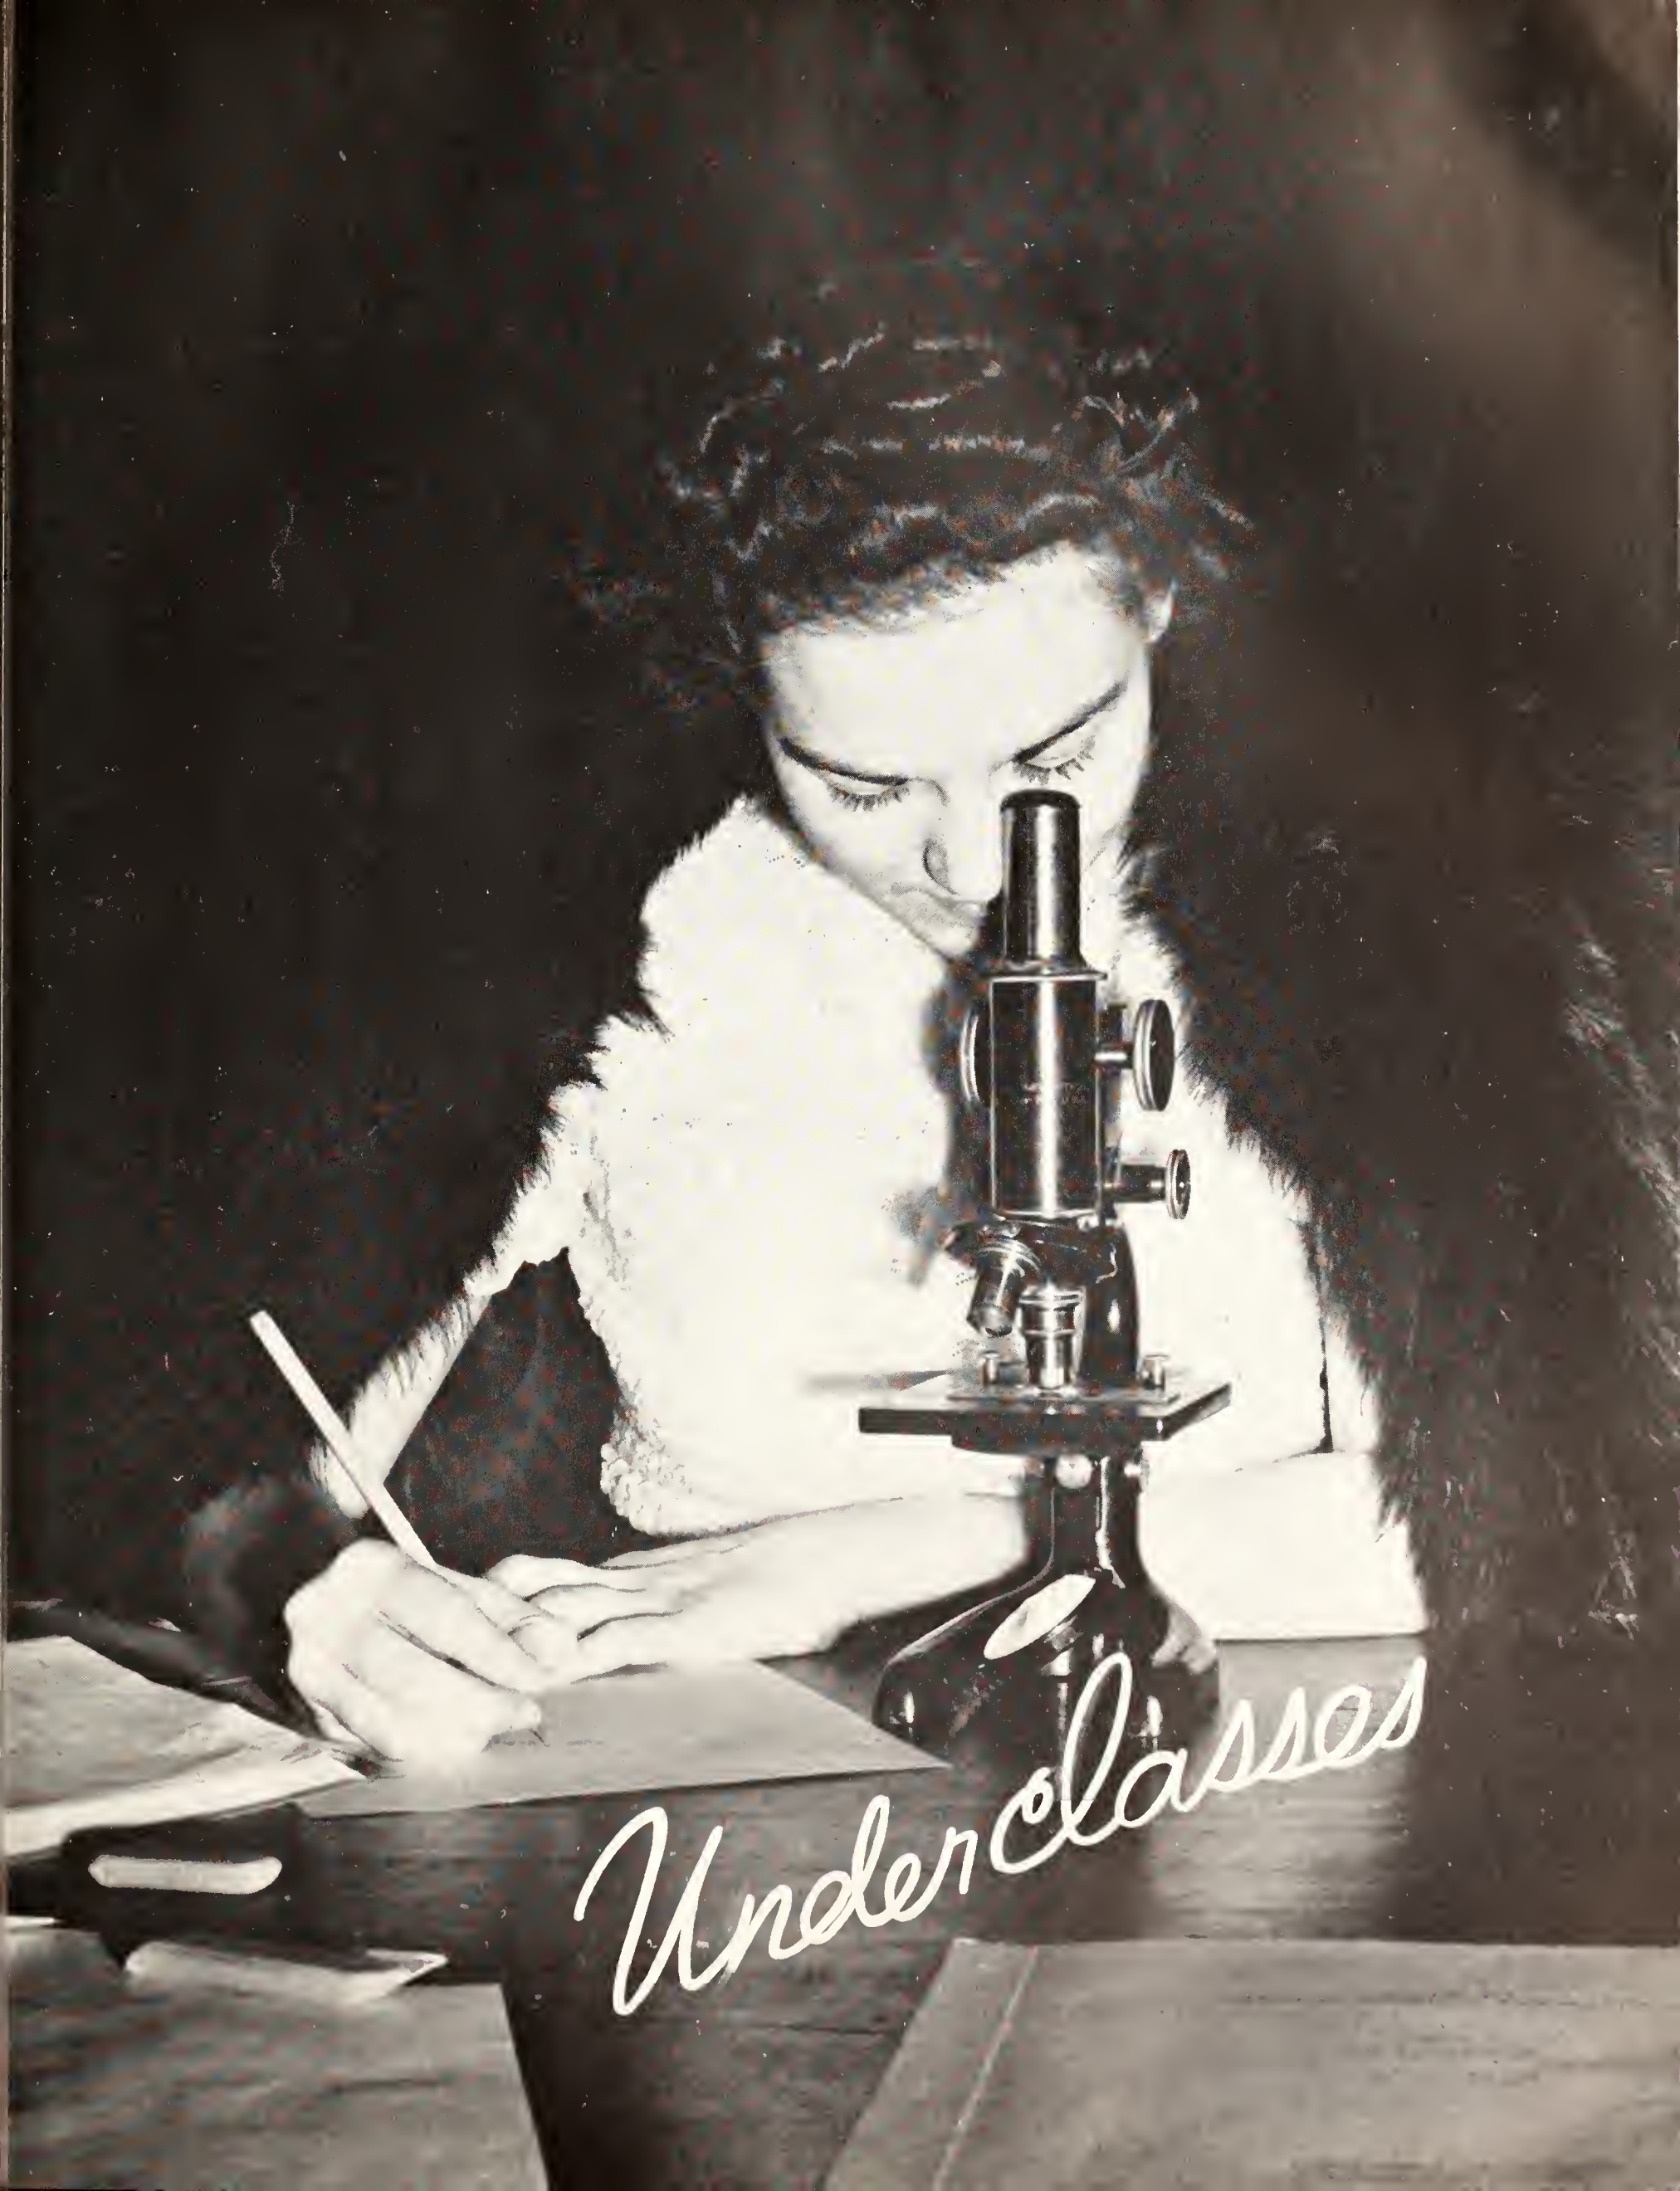
I myself but write one or two indicative words for the future,
I but advance a moment only to wheel and hurry back in the darkness.

I am a man who, sauntering along without fully stopping, turns a casual look upon you and then averts his face,

Leaving it to you to prove and define it,

Expecting the main things from you.

—Walt Whitman



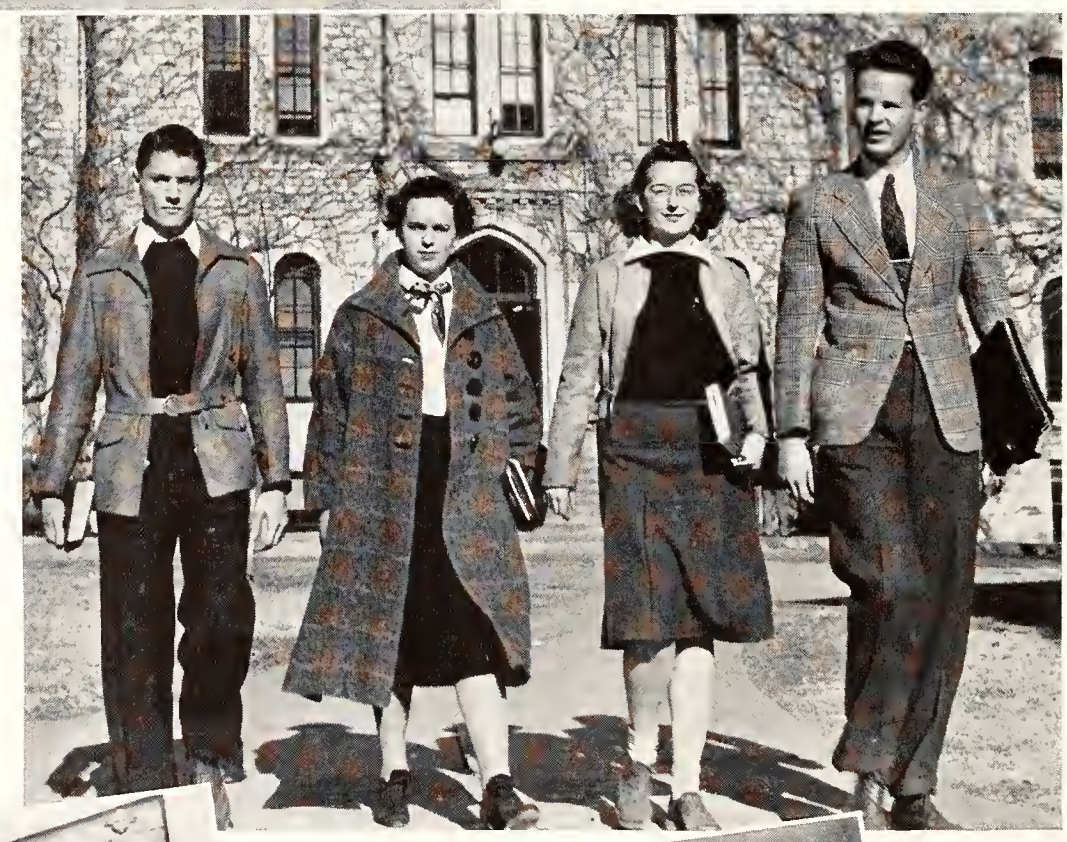
Underclasses

We're the

FIRST of all we're freshmen .... boys wearing dinky caps and girls doing pledge duties while wishing they were "at least sophomores."

"We not only are freshmen but must enroll a whole week early," one first-year student groaned, referring to freshmen orientation week when new students are ushered into the traditions of the campus.

OFFICERS of the junior closs step out (obove), but this time it is from Anderson Holl .... Heading next yeor's seniors this yeor were (left to right) Jomes Peddicord, president; Mory Anne Pofford, secretory; Victor Beot, treosurer; ond Robert Joyce, vice-president.



GUIDING THE SOPHOMORES were the strolling group ot the right. Executive Jock Hoymaker (left) occupied the president's post. Other officers were (left to right) Elizobeth Burchinol, secretary; Betty Boehm, vice-president; ond Deon Loromey, treosurer.

FIRST-YEAR students swing out (below) ot o freshmon donce eorly last foll.

AN ANNUAL ACHIEVEMENT bonquet (lower right) honors junior women with outstanding scholorship records. . . . The bonquet is sponsored by Mortor Board, senior women's honorary orgonization.

Underclassmen

Physical examinations, rush week, and aptitude tests make the first week at State a memorable one for freshmen students . . . . but soon they are a part of college.

Activities of the sophomore and junior classes are limited, but they do have officers. Class leaders are nominated and elected by the student body early in the school year.

Politics play an important role when students go to poles, and this year was no exception. After smoke from the election battle had cleared, figures showed Greeks taking all upperclass offices and independents ruling supreme over the freshman class.

MARIANNA KISTLER holds a plaque (upper right) upan which her name was inscribed far having the highest freshman schalarship far last year. . . . The event was Martar Baard recagnitian af autstanding students. Dean Van Zile (left) and Helen Beth Caats smile with Marianna.

THESE FRESHMEN (right center) take advantage af the September urge far laafing while waiting ta take frash exams.

CASTING BALLOTS in the general class clectian is the graup af students shawn abave. Others, prabably the candidates, are talking aver the situatian.

IN A POLITICAL huddle an the campus wall are seated the ringmasters af the freshman class. President Dan Kartman (right) and Vice-President Bill Bixler (left) take their jabs seriausly while Helen Perkins, secretary-treasurer, laughs at the whale deal.

This little number introduces the ACTIVITIES section. . . . Now we know it doesn't show a football game, or a play, or a varsity . . . or any of the things that this section is supposed to include . . . but after all, everything of importance either starts in Aggieville, is heard in Aggieville, or is threshed out over a short one in your favorite Aggieville jelly joint, so why not?

We—the Students

GOVERNING the discipline, social activities, and enthusiasm of some 4,000 students is no easy task . . . . and the reward for a year's work as a member of the council, according to a former head of the S.G.A., is "free tickets to varsities and a lot of heck from everybody."

Drastic changes in the constitution of the Student Governing Association were effected this year by a vote of the students after recommendations had been made by the council. In charge of pep, the council was instrumental in obtaining free picture shows after several pep rallies. Cheerleaders were selected, all-school dances staged as regular weekend social events, and a special show featuring Ted Shawn and his famous men's dance team, were other activities of the governing group.

On rare occasions, the council sat as a court to pass sentence on students who had momentarily gone astray. However, such cases were usually handled by Vice-President Duane Jehlik, "shepherd of the flock."

SLIDE RULE Politician Richard Wherry (left) headed the council this year.

SHOWN STRUGGLING through the work of being administrators for nearly 4,000 students, members of the council are (left to right) Dolores Foster, Jae Bonfield, George Aicher, Dick Wherry, Mary Frances Davis, Duane Jehlik, and Bill McKinley.

Those Who Govern

By Al Makins

A spirited campaign by the Collegian last year for reforms in the constitution of the Student Governing Association was climaxed in October when students voted unanimously "aye" on ten proposed amendments to the laws of the association.

Most drastically changed was the rule governing election to the council. Students approved recommendations for a nine-member council to replace the seven-member body, and for divisional representation. Under the new law, each S.G.A. member is entitled to nine votes, but he cannot cast ballots for more than the designated quota of members from the respective divisions.

Of the five divisions, each is represented by two members on the council with the exception of the Division of Veterinary Medicine, which is limited to one member.

Howard Liebengood, heading the constitutional committee, presented the proposals to the council, and explained suggested changes to the student body at a special assembly after approval by the council and the faculty council.

PRESIDENT Dick Wherry and Secretary Mary Frances Davis (upper left) hear Howard Liebengood outline his committee's recommendations.

STUDENTS march to the special assembly (center left) for an explanation of the new constitution and a chance to voice their opinions.

ON THE AUDITORIUM stage, Liebengood (circle) airs the ABC's of the proposed laws.

WITHOUT A dissenting vote, the student body, part of which is shown below, wrote the final chapter to the "new deal."

Did It Thus . . . .

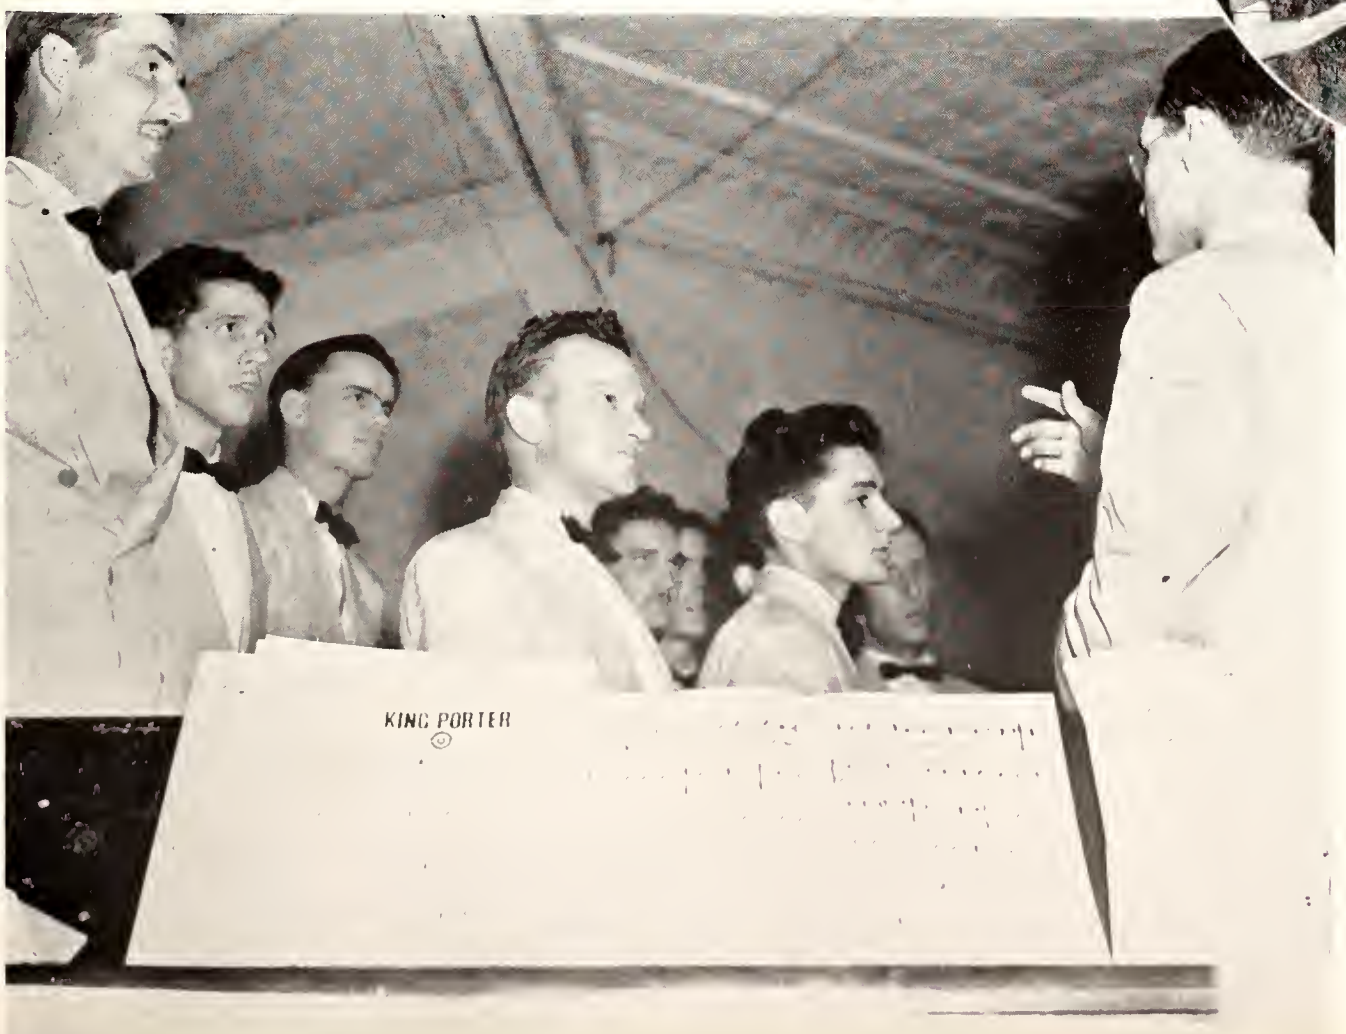
SOMETIMES there was a crowd and sometimes there was room enough to dance, but everytime there was an S.G.A. varsity, everybody had a good time. Nearly every weekend, when students struck a new low from the grind of school, Dance Manager Lee Ward and his assistant, Dick Hotchkiss, had a "fine deal" lined up for State's jitterbugs. Matt Betton and his student swingsters furnished the incentive for dancing with music "as you like it."

Ward was appointed in charge of varsities by the student council. His duties included setting dates, supervising advertising, and trying to make receipts balance expenditures . . . . a whale of a job.

Betton and his boys gained publicity for Kansas State last fall when the orchestra won first place in a "swing contest" at the Jubilesta in Kansas City. Jimmy Dorsey and his famed band played host to collegiate music makers for the contest. A large group of State jam-fans were on hand for the occasion.

VARSITY MANAGER Ward (upper right) gives the victory smile as Assistant Hotchkiss thumbs through the proceeds of a profitable dance.

WHEN IT COMES to "jitterbuggin," Margaret Bunker and her Kansos City partner aren't doing bad . . . . Catherine Siem and Dick Gorman (in the background) are trying a fancy step os others look on.



BETTON (above) holds the "swingsters' trophy" being presented by Mory McElroy of Kansas City. . . . Jimmy Dorsey pats Mott's back.

MATT RAISES his director's hand (left) to lead the popular glee club.

PARCELLING OUT the student activity fund are R. I. Throckmorton, H. W. Davis, Richard Wherry, and Thelma Haluba. Thomas Bash is not in the picture.

Apportionment Board

After appointing two other students to serve with himself and two members of the faculty, the chairman of the Student Council calls a meeting of this committee, known as the Apportionment Board, early in the fall. At this meeting the Board busies itself with finding the best ways of spending the students' seven-fifty, apportioning various amounts for the different activities.

Faculty Council

Acting as a sort of "House of Senate," the Faculty Council on Student Affairs must approve all decisions made by the Student Council. A copy of the Student Council's decision is sent to the Faculty Council and if the decision is not returned within a set period, appeal is made to the president. In case of disapproval by the faculty group, a joint session of both councils convenes.

IN CONFERENCE—Harold Howe, Grace Derby, R. I. Throckmorton, Dean Mary P. Van Zile, chairman, LaVelle Waad, L. E. Conrad, and A. A. Holtz. Frank P. Root and Helen G. Saum are not included in the picture.

H. MILES HEBERER directs from a divan on the "Petticoat Fever" set.

"The Play's the Thing"

FROM frothy farce and light comedy to tense melodrama and mad musicals—the Manhattan Theatre productions this year were varied to suit the entertainment tastes of every kind of audience. In its eleventh season under the present organization, the Theatre group played four "two-night-performance" shows and a musical comedy presented in an assembly.

Play Director H. Miles Heberer, returned after a year's leave-of-absence in California where he coached dramatics at Stanford University, brought back with him new ideas, gaudy polo shirts, and a refreshing style of directing.

RESERVING THEATRE seats for the long lines of ticket-seekers at the box office is part of Business Manager Norman Webster's job.

Brilliant Season

After selecting "Stage Door," a recognized hit of Broadway and the silver screen, as the season's first production, Heberer introduced afternoon rehearsels—an innovation which proved agreeable to both director and players.

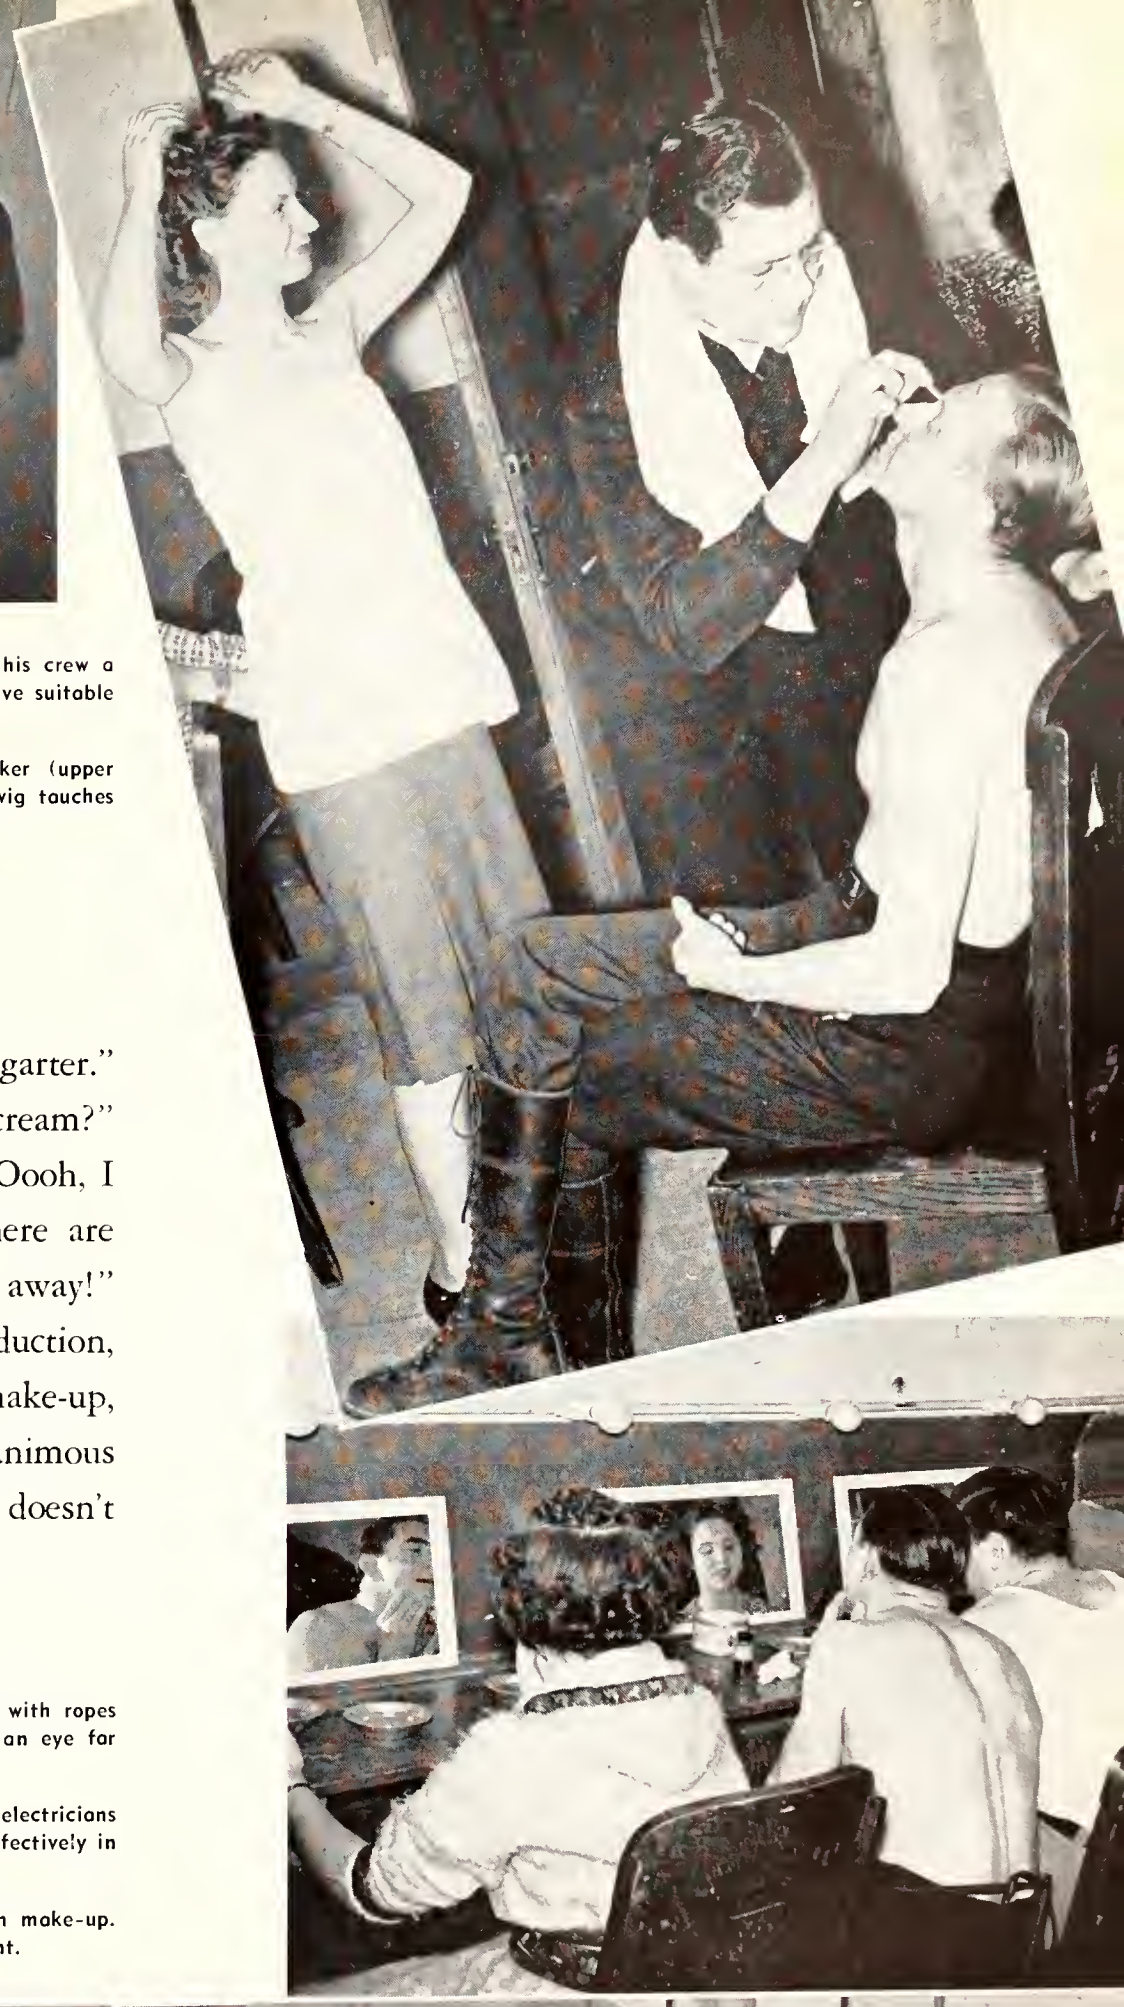
Pleased by the enthusiastic campus reception of comedy, the director went completely out on the limb and presented "Petticoat Fever," Mark Reed's howling farce.

With the cooperation of the music department, the Theatre players did Gilbert and Sullivan's operetta, "Trial by Jury," in an assembly and night performance on Valentine's Day. Bouquets to "Heb" for successfully producing this musical, the first ever attempted by the Manhattan Theatre. Mixing effects, the collegiate actors next gave Karel Capek's tense melodrama of robots, "R.U.R."

The sudden death of James Barker, head make-up man for five years, was the only shadow on a very brilliant season for Manhattan Theatre. Barker died February 14, shortly before the curtain fell on the successful "Trial by Jury."

STAGE MANAGER Jack Groady (above) points out to two of his crew a flaw in the set. Jack's job is to see that the college thespians have suitable background.

WITH THE TOUCH of a true artist, Make-up Man Jim Barker (upper right) transforms Dick Wherry into an old man while Arlene Herwig touches up a curl.



Backstage Patter

"Hold the curtain! The star can't find her garter." .... "Jeepers! What happened to the cold cream?" .... "Have you checked those mikes?" .... "Oooh, I hope that left flat holds up" .... Props, where are those cigarettes?" .... "Places! Lights! Take it away!" —And as the curtain goes up on another production, the unpublicized backstage gang—props, make-up, lights, script, and stage crews—heave a unanimous sigh of relief and "hope to heaven the show doesn't smell too bad."

"PROPS GIRL Catherine Siem and crew (lower right) struggle with ropes and wires on the "Petticoat Fever" set. A perfect memory and an eye for detail are requisites for the praps crew.

STARING DAGGERS at each ather (!awer left) are Marianna Kistler and Cliff Stane, while Richard Mall remains dis=reetly an the sidelines.

Stage Door

The season opened with George Kaufman and Edna Ferber's sophisticated screen-stage hit, "Stage Door." The play, concerning the struggles of New York actresses, was set in a second-rate theatrical boarding house.

The career of Terry Randall (Marianna Kistler) and her efforts to attain stage success rather than accept the easier path of a Hollywood star formed the nucleus of the action. Her admirers, Producer David Kingsley (Dick Mall) and Playwright Keith Burgess (Cliff Stone), were two points of an interesting triangle.

In the cast of 29, roles played by Lorene Dawson, Virginia Ray, June Darby, Kay Millard and Dick Wherry were good.

Petticoat Fever

Wildly delirious was "Petticoat Fever," the second presentation of the season. Mark Reed's mad farce received wholehearted approval from the audiences, bowled over by the splitting gags.

Dascom Dinsmore (Don Pricer), the wireless operator of a lonely station in frigid Labrador, hadn't seen a white woman in years. Then an airplane crash brought attractive Ethel Campion (Arlene Herwig) and her fiance Sir James Fenton (Charles Jones) on the scene to create a riotous "situation."

More than capable in supporting roles were Virginia Ray, Dick Wherry, Lenora Ash, Jean Nelson, Max Gould, Juan Castillo, and Neal Jenkins.

Trial by Jury

Something new in the way of entertainment was brought to the Theatre audience when Director Heberer and his players presented "Trial by Jury," February 14, in the auditorium. This Gilbert and Sullivan production is the first musical comedy to be staged by Manhattan Theatre.

Leads were Don Pricer, as judge, and Margaret Wilson, plaintiff, with a large supporting cast of student "singer-actors."

R. U.-Robots

The conquering of the human race by mechanical men was the theme of Karl Capek's fantastic melodrama, "R. U. R."—Rossom's Universal Robots—presented March 10 and 11. June Darby and David Bourassa headed the cast, playing on the largest set ever used by Manhattan Theatre.

There was no curtain—scene changes were made during "blackouts"—and the effective lighting was all done by spots under O. D. Hunt's supervision.

HEAVY THINKING at a meeting af the all-college radia cammittee.

Over the Air

KSAC, radio station operated by the college, divides its time between being a mouthpiece for the extension division and a laboratory for students enrolled in radio courses. More and more is radio work becoming prominent in the lives of students, particularly journalism majors. Late news is broadcast regularly by student newscasters with material taken from the teletype facilities of the journalism department. Courses giving practical knowledge of writing and presenting radio copy are offered by the public speaking department.

JAMES CHAPMAN, head annauncer and general handyman far KSAC.

Varied Programs

Five programs, written and given entirely by students in radio classes, are presented each week.

Every morning Announcer Ellen Warren opens the "Homemakers' Hour," which includes such features as the health class presented by Prof. L. P. Washburn, and "Sunflowers" by Columnist H. W. Davis.

Among other broadcasts given over KSAC are the farm hints announced by James Chapman, the "Y" programs, and the 4-H programs.

The activities of the station are supervised by the all-college radio committee appointed by President F. D. Farrell. The committee, which has been in existence for eight years, is composed of faculty members and extension workers outstanding in their respective fields.

Looking on are Rolfe Corbet and Eileen Bergsten (left) while Ruth Keys (right) smiles at Neill. Miss Bergsten, a representative of the Ionian Society, won second place.

State Orators Rate Honors

Distinctive oratory honors were brought to State last winter by Don Sharp, one of the most successful orators ever to attend the college. Sharp won the State and Regional Republican Oratorical contests and placed second in the national event in Washington, D. C. His prize money was $750. Largely responsible for the success of Sharp was Dr. H. T. Hill, head of the public speaking department. Doctor Hill spent long hours coaching Sharp after discovering him.

Thomas Neill, representing the Athenian Literary Society, was the winner of the inter-society oratorical contest conducted this spring. Ionian Society, represented by Eileen Bergsten, took second place. The Browning and Hamilton Societies were also represented in the annual contest.

FIRST PLACE winner of the state and regional Republican Oratorical contest and second place winner of the national event was Dan Sharp.

GOODWILL AMBASSADOR of the college and coach of the orators is "Doc" Hill, a popular member of the public speaking department.

They Argue Pro and Con

TWO debates with Christopher Paget Mayhew and Philip R. Noaks of Oxford and Cambridge Universities, headlined Kansas State's successful 1938-39 debate season.

The schedule included 97 debates, several more than last year. They were handled by 22 debaters, three less than last year. Debates were with representatives from 18 different schools and included about 14 radio debates, presented over several radio stations. Weekly discussions by Kansas State debaters and debaters from other schools were broadcast by the college radio station, KSAC.

Twelve timely and important subjects were used in Kansas State's practical debate program, which placed speakers before such audiences as civic clubs, farm groups, teachers, campus groups, and high school assemblies.

With Instrument and Voice

By Marcine Sheurer

ALMOST any time of day or night strains of Bach, Mendelssohn, Debussy, Beethoven, Wagner, with their cohorts and fellow-masters, may be heard drifting over the campus through the medium of piano, organ, violin, and voice, echoing from the music department with studios in the auditorium and the gymnasium.

Band, glee clubs, and orchestra are among the most popular choices for outside activities. Members of these groups take part in radio broadcasts, Sunday afternoon vespers, assemblies, football games, the annual oratorio, Y-Orpheum, and Aggie-Pop.

Membership in these organizations is considered a major activity for Greek pledges and for those whose eligibility is being considered for the honorary organizations on the campus. Student recitals are given Tuesday afternoons.

Glee Clubs

Two women's glee clubs and a men's glee club make up the choral unit of the music department. Competitive try-outs are given in the fall and the members of these organizations chosen. Prof. Edwin Sayre directs the first women's glee club, and Miss Hilda Grossman has charge of the second women's glee club.

The men's organization is conducted by Prof. William Lindquist. The choral divisions entertain at assemblies and other events.

College Band

The college band, conducted by Prof. Lyle Downey, is probably the best known musical organization on the campus, popular for its appearances at football games, assemblies, and for concerts given in neighboring communities. In early spring the entire unit went to Great Bend where its concert was well received by a large audience. Officers were: Marcelle Wheatley, president; Lee Peterson, vice-president; Clifton Jackson, secretary; and Ted Morrison, treasurer.

Featuring Added Attractions

Added attractions of the music department are the choral ensemble, string trio, and the Four Flats quartet.

The choral ensemble is made up of the combined glee clubs, and assisted by the orchestra, presents Handel's oratorio, The Messiah, each year during the Christmas season.

The string trio is composed of members of the music faculty: Prof. Lyle Downey, cello; Max Martin, violin; and Donald Engle, piano.

The popular Four Flats quartet lend a harmonious bit to programs. Members are Allen Edgar, Vernon Rector, Irl Yeo, George Eberhart, and Ruth Johnston, accompanist.

THE CHORAL ensemble presented Hondel's Messioh, Sundoy evening, December 18. Soloists (seoted in front) were Edwin Soyre, Morgoret Wilson, Hildo Grossmon, and Dorwin DeYoe.

Champion Judgers

By Marjorie Higgins

JUDGING teams at Kansas State are always winning contests and bringing home new cups and plaques to add to the already abundant supply. The newspapers frequently carry stories and pictures of students here who have won this or that judging contest. It looks and sounds easy.

All a judger has to do is just pick out the best cow or butter or apple. Perfectly simple. They're just lucky at picking the right one, that's all, is the opinion of the Sunday morning "quarterbacks," who don't know what judging teams are anyway.

A Different Story

But behind the scenes there's a different story. Much depends on the coaches. They must have had years of training, practical experience, and teaching ability. The students, before they are eligible to try out for the team, must have had advanced courses in judging, with many preliminary subjects in identification and classification. Most of these contestants have a background of 4-H Club vocational agriculture work. Many of them were high school champions, so competition is strong.

After months of practice, the time comes for the final tryouts for the squad. The anxious aspirants stay up nights going through their books, making that final check-up to see if they know all that's necessary. But even then, that's but a part of the story of "how to be champion blue ribbon bringer-homers."

Takes Good Judgment

Judging of livestock, dairy products, fruits, and crops takes good judgment, quick thinking, and ability to speak clearly and concisely before a large crowd of spectators and experienced judges.

The students are nervous as they go to that final test, for to them being on a judging team is the same as being on the varsity football team is to the "phys ed" major.

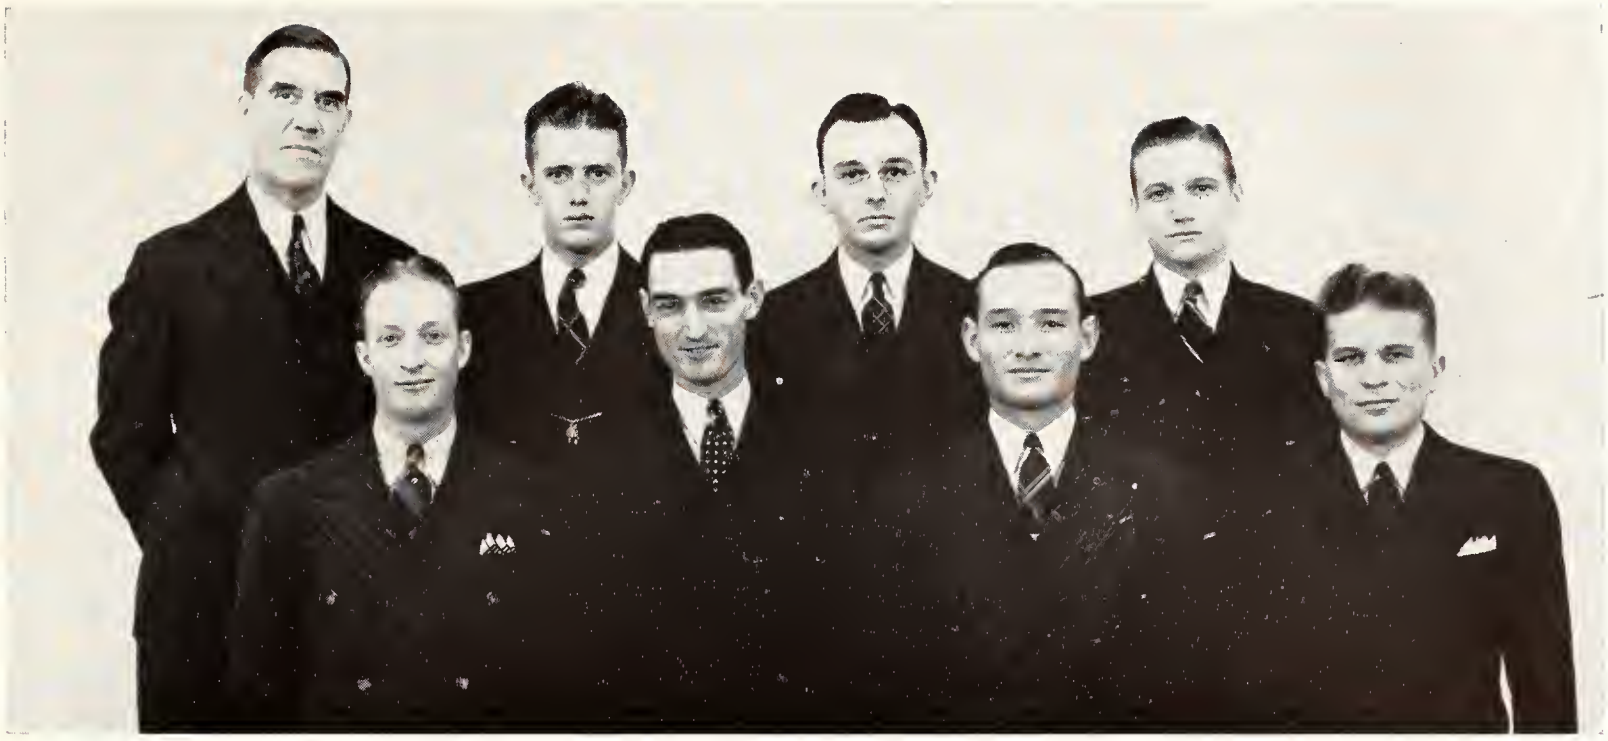
It means long trips to various parts of the United States, a chance to match wits with champion students from a large number of colleges, and sometimes it means that final unforgetable thrill as Kansas State is again proclaimed the winner!

This year the student judges were more than repaid for their diligent study and endless practice, for the national recognition that they received brought personal satisfaction to them and much honor to the school.

THE INTERNATIONAL Livestock Champs were awarded this tropy.

Hail Ferdinand!

Most famous of the awards which judgers brought home this year is the large bronze bull trophy won by the livestock judges at the International Show in Chicago. Popularly known to the students as Ferdinand, the trophy occupies a prominent place in the department of animal husbandry trophy case.



CHAMPION LIVESTOCK JUDGES are left to right: Top row—Prof. F. W. Bell, cooch; Robert B. Shepherd, Willis R. Wenrich, William G. Alsop. Bottom row—Jess R. Cooper, John P. Perrier, Goy S. Tuis, Joe W. Lewis.

Livestock Team

Back from Chicago where they tied with Iowa State for first place in the International Livestock Judging Contest, the Kansas State team has added another feather to its already well-plumed hat. With them, the huge bronze bull trophy returned to stay, as the symbol of tops in livestock judging.

Dairy Cattle Judgers

Ninth in the judging contest at the Dairy Cattle Congress at Waterloo, Iowa, and seventeenth at the National Dairy Show at Columbus, Ohio, is this year's record of the Kansas State College Dairy Cattle Judging team. They practiced judging on some of the outstanding herds in this region.

INSPECTING DAIRY COWS occupies spare time of these dairy cattle judges: left to right—J. Wallace Kirkbride, Charles W. Lobenstein, John R. Broinord, Noel N. Robb, Prof. H. W. Cove, cooch, George W. Kleier (kneeling).

ICE CREAM, MILK, AND BUTTER are some of the products these boys are judging. Members of the dairy products judging team are left to right: Farlond E. Fonsher, Prof. W. H. Martin, coach, Merle J. Parsons, Willis B. Faulkender.

Dairy Products Judgers

The annual National Student Contest in Dairy Products was held in Cleveland, Ohio, this year with 23 teams competing. State placed fifteenth in the contest. In ice cream judging the team ranked third. The boys also saw displays of creamery supplies and heard dairy industry leaders speak while they were in Cleveland.

Poultry Champions

First place at the Intercollegiate Poultry Judging Contest came to Kansas State this year when the team won 3,705 out of 4,500 points to top Oklahoma A. and M. by 105. Cecil Robinson was high individual in the contest, and Robert Shoffner was second. They brought home two trophies and several medals.

TOPS IN POULTRY JUDGING are these students who are shown demonstrating some of their technique in selecting winning fowls. The four boys are left to right: Cecil R. Robinson, Robert N. Shoffner, A. Wade Brant, Kenneth R. Jameson.

VICTORS OVER TEAMS from Texas, Missouri, and Oklohoma, these four boys and their cooch are, left to right: Top row—Dr. G. A. Filinger, coach; Herman J. Reitz. Battam raw—Dale E. Jahnsan, Melvin R. Petersan, Emile F. Kientz.

Apple Judgers

Apple judging champions of four states, these boys who participated in only one contest this fall —the Intercollegiate Judging Contest—won top place and a trophy shaped like an apple. Herman Reitz won a silver apple watch chain as high individual in the contest. It was the first annual meet of mid-western teams.

Crops Judgers

Third place at Kansas City and ninth at Chicago is the record set for this year by the three members of the Kansas State Crops Judging team. At Kansas City the team received a $50 scholarship as the third prize. North Carolina won first at Kansas City and Nebraska took first place at Chicago. Prof. J. W. Zahnley coached State's team.

"Man by Nature Is a Social Being"

By Betty June Doan

Socialitis

. . . . takes every normal campus by storm at the start of each school year. . . . First dates, first impressions, first fraternity parties, and the backbone of social life, the college MIXERS and VARSITIES . . . . with Matt "Jubilesta" Betton giving his "all" in the way of ultra, ultra swing to almost all the college affairs.

The crop of frosh "Lulus" were in full swing at the first all-college mixer with a "How dee-do" and "How r'you?" plus "Where ya' from?" and "Ain't it fun?"

Some 2,500 students turned out enmasse for the first all-college MIXER, September 30. Hilarious enthusiasm accompanied the sports of the evening. Games were played on the quadrangle lawn north of Nichols Gym, a program was given in the auditorium, and the evening was climaxed with a "rhythm race" in Nichols and Recreation Center from 9 to 12 o'clock.

The whole evening was such a success that Prexy Farrell says it will continue to be an annual affair.

THE HUNGRY MOB at the first oll-college MIXER . . . . the stag line wos overwhelming.

DEAN. L. E. CALL crowns Ethlyn Marks queen of the Ag Barnwarmer.

Ag Queen

.... Ethlyn Marks reigned at the annual Ag Barnwarmer fling November 5. Mae Rogg, Burneta Young, Maribelle Teichgraeber and Mary Louise Arbuthnot were the princesses in attendance.

Queen Ethlyn was crowned amid Kansas blossoms (sunflowers to you) and corn shocks by Dean L. E. Call, head of the Agricultural Division.

Displays by the various groups of ag students formed booths all around Nichols Gym where the dance was given. Trophies, plaques and emblems were used for decorations.

Aprons and overalls were the favorite attires for the ag boys and their gals who all had that "I was born on a farm out in Kansas" spirit for the occasion.

The Solomon Swing Band gave out barnyard rhythm, appropriate for the occasion.

Javmarack

.... is the unique name for the veterinary party held two weeks later on November 19. Derived from an ancient island ceremony of horsewhipping, Javmarack is the name now attached to the annual vet affair. Dick McMillen's orchestra from Lawrence swung out for the vets at the Wareham Ballroom in this, their second Javmarack.

JOE BONFIELD presents the four beoming queens at the Royal Purple Ball. They ore (left to right) Betty Adams; Morjorie Jocobs, first ploce; Moxine Donielson ond Morionno Kistler.

Outstanding

....among all balls, the Royal Purple Ball, of course! Most coveted of all queenships, the beauty queens, naturally! This year's Royal Purple Beauty Ball was December 9, at the Wareham Ballroom.

An hour broadcast added novelty to the affair. Campus personalities were interviewed, the queens were announced and presented, and popular tunes were played by Kay Mills and his Kentucky Serenaders.

Dode Foster, editor of the Royal Purple, and Joe Bonfield, business manager, carried on with the broadcast and presentation of the four queens despite the fact that their publicity leaked out ahead of schedule, almost spoiling the party. Anyhow, it was something new and different in the way of Beauty Balls.

HAPPY DANCERS crawd the gaily decarated Nichols Gym.

Regal

. . . . in every respect, the Military Ball on January 14, was magnificent. Decorations, as usual outdid those of any other formal affair. Militaristic insignia, silver drums, and military uniforms worn by the cadets all added to the splendor of the occasion. Arlie Simmonds officiated with the baton to give some of his finest swing music.

A portion of this annual ball—including the presentation of the military queen candidates, a description of the ceremony, and music by the orchestra—was broadcast over station KSAC.

The second "name" band to play for the Engineers' Ball, Anson Weeks' orchestra provided soft, sweet rhythms for the dancing of more than 400 couples. Fletcher Henderson's band lead the K-Staters for a dancing session last year.

Margaret Bunker, popular freshman member of Delta Delta Delta social sorority, reigned over the event as St. Patricia. Dick Wherry, student council prexy and Sigma Nu flash, was St. Pat.

Ultra snappy green and white decorations transformed Nichols Gym with false walls and ceiling. Indirect lighting around the hall revealed cartoons of old St. Pat seeing the sights of Open House of the two preceding days.

DICK WHERRY and Margaret Bunker smilingly approve of being the engineers' choice for St. Pat and St. Patricia.

Publications

Policies of the Press

C. E. ROGERS, chairman of the Board of Publications is the advisor of all students in the department as well as instigator of new ideos to improve teaching facilities and practical ospects of journolism.

THREE of the 12 elected student officers on the campus are members of the Board of Publications. The other three members of the Board are faculty members E. T. Keith, C. E. Rogers, and H. W. Davis.

Duties of the committee are to determine the policies of the various student publications and to select editors and business managers.

Best Journalists Honored

Gold keys are presented annually to the students who have done outstanding work on the Collegian and Royal Purple. Those honored this year are: Royal Purple—Dolores Foster, Joe Bonfield, Victor Blanks, Betsy Phelan, Lawrence Grauerholz, James Cooper, Betty June Doan, Marjorie Higgins, Al Makins, Marie Forceman, Thelma Holuba, Gilbert Carl, Earl Atkins, Joe Robertson, Al Duckwall, Carl Peterson, Margene Holmes, Jean Gibbs. Collegian—Lawrence Grauerholz, Fred Klemp, Ed Bogan, Earl Atkins, James Cooper, William Story, Virginia Johnson, Roy Fisher, Carl Rochat, Betty June Doan, Martha Ann Black, Harley Thompson.

IT'S PROBABLY ane af "H.W.'s" jokes that is amusing the Baard af Publications' members. Left ta right, they are: E. T. Keith, Bill Story, C. E. Rogers, Bill Theis, H. W. Davis, and Betty Higdon.

TOASTMASTER at the annual get-together of journalism students and faculty is C. E. Rogers, (extreme right, back row). Approximately 35 attended the banquet, at which publication keys were awarded to 21 students.

Height of the social season for all loyal journalists is the annual publications banquet at the Country Club honoring outstanding students in the department. Last year's feature of the program was a skit by the "Kedzie twins"—blond Gennie Freed, Collegian editor, and red-haired Dode Foster, this year's editor of the Royal Purple.

Graduate Manager's Office

C. J. Medlin, himself a graduate of the K-State journalism department and a former editor of the Royal Purple, is graduate manager of the all-school publications on the campus. Assisted by Margene Holmes, he keeps files of all pictures and correspondence, keeps the books, and sees that the "budget's balanced." "Mex," as he is familiarly dubbed, also takes care of the national advertising in the Collegian and Royal Purple, as well as many other duties, including distribution of the newspaper and yearbook.

GRADUATE MANAGER C. J. Medlin and his assistant, Margene Holmes, check over the files to make sure every student gets his copy of the K-State yearbook.

"IT'S FUNNY NOW, but being editor of the Collegian is no snap," say Fred Klemp, (left) second semester editor, and Lawrence Grauerholz, editor first semester.

ASSISTANT EDITORS this year were these three advanced students: (left to right) Earl Clark, Bill Story and Ray Fisher.

Kansas State
Collegian

THE Kansas State Collegian has been getting publicity this year as well as giving it. The attack against the athletics department, the "deadwood faculty" campaign, the suggestion of using the old chemistry annex for a student union building, and other changes, have caused the student paper to be quoted in newspapers all over the region.

Staff Positions are Goals

Nearly every journalism student aspires to be either editor or business manager of the Collegian, for these positions are the chief means of giving students experience in practical newspaper work.

Some 130 prospective journalists help on the paper each semester.

POUNDING OUT copy are: reporters (Front row)—Ivan Griswold, Ray Swaffard, Janet Nutter. Back raw—Betty June Daan, Jennie Marie Madsen, James Kendall, Carl Rachat, Lauis Horn, Bette Benjamin, Barbara Faster.

Riot in Kedzie

There's practically a riot in the Collegian office each Monday and Thursday afternoon when reporters come to get their assignments, write their stories, and do final editing. What with typewriters clattering, telephones ringing, editors shouting, reporters inquiring, and a general stampede in and out, the practice room resembles a Union Station with 13 specials leaving at the same time.

A new system of dividing journalism students has been devised this year to separate the students who plan to enter professional journalism after graduation, from those who do not. The professionals must pass certain requirements including above-the-average grades, fair grades in aptitude tests, and minimum typing requirements. Only the "journalism professionals" will be recommended for journalistic positions.

COLLEGIAN BUSINESS Manager Eddie Bagan calls a prospective customer. The advertising staff pravides at least 70 per cent af the Collegian's support.

FIRST SEMESTER Society Editor Virginia Johnson, (center) talks things over with Bette Benjamin, (left) reporter, and Martha Ann Black, society editor, second semester, as they edit Collegian copy.

NIGHT WORKERS are: (left to right)—Ed Bogan, Earl Atkins, Roy Swafford, James Cooper, Bill Story, Carl Rochat, Lawrence Grauerholz, Roy Fisher and James Kendall.

Collegian to Press

After reporters have brought in the stories, the advertising staff, editors, and their assistants migrate to the downtown office where the paper is published. From early evening to the "wee, sma' hours," students plug wearily on, doing final editing, copy reading, and proof reading.

The advertising manager and his assistants complete their layouts, call last minute prospects, and help with making up and putting the paper to bed.

Special Editors

Special assistant editors, such as feature editor, society editor, sports editor, and others, take much of the load off the shoulders of the editor.

The society editor and her assistants cover all social events, dances, parties, pledgings, initiations, engagements, and dinners.

Special angles of various events, human interest stories on results of research, personal achievement stories of students and faculty members, and other interesting items are gathered by the feature editor and his helpers.

The sports editor is hardest pressed in the fall when he and his assistants must cover football games, basketball practices, intramurals, and two-mile races. He is responsible for one page of the Collegian.

Annual Jobs—No Snap!

Plenty of work is in store for any one who undertakes the editing of the Royal Purple as Dolores Foster and Joe Bonfield, editor and business manager respectively, will testify. It's no snap.

Capably assisted by her staff, Dode has prepared this year's edition to feature "faces" and not only to have pictures of various campus events, but to interpret them in the light of the students participating.

Staff Kept Busy

Balancing the budget, the books, and the pictures was part of the job of the staff of 37 persons. With a total cost of approximately $18,000, most of the costs ran to four figures.

Approximately 1,500 candid snapshots of activities are included, besides 2,600 studio pictures. All these had to be kept indexed. Five hundred flash bulbs were used. And the largest number of Royal Purples ever published was printed this year—3,700.

STAFF MEMBERS clutter the affice of the Rayal Purple as anather deadline draws near. Left ta right: Victar Blanks, Betsy Phelan, Al Makins, Betty June Daan, Lawrence Grauerholz, and Thelma Haluba.

"DO YOU THINK it's good enough?" moy be the question thot E. T. Keith is osking of Gilbert Corl os they inspect some of the pictures they've token for the yeorbook.

Behind the Shots

Photographs play a prominent part in this year's Royal Purple, and behind the pictures are Gilbert Carl, E. T. Keith, F. J. Hanna, and the Studio Royal. Professor Keith snapped pictures of all athletics events; Mr. Hanna took pictures of all organizations; the Studio Royal took the individual shots; and it was "Gib's" duty to scurry around and cover all campus events.

After snapping the pictures, Mr. Keith and Gilbert would trot back to the darkroom in the basement of Kedzie Hall to develop them.

The photographs this year are particularly clear-cut and cover every phase of campus activity. Two colors of ink used in this edition also add interest to the pictures.

Begin Early

With this year's book off the press, there's no rest for the photographers. Already they are taking pictures for next year's Royal Purple, getting shots of spring athletic events, parties, dances, and meetings. Their black boxes and "flashes" are familiar to every student.

Honors to Annual

Judged one of the top five yearbooks in the more than 200 books entered for three years in succession is the record for K-State's annual. With several points more than was necessary for All-American rating last year, the Royal Purple, edited by Luman Miller, was adjudged one of the five "Pacemakers" for the third successive year.

"An excellent book," was the comment of the chairman of the National Scholastic Press Association. Special emphasis was placed on the high quality of the photographic section.

WITH SMILES OF sotisfoction os they hong lost yeor's Pocemoker oword, C. J. Medlin, "Dode" Foster, ond Joe Bonfield speculote on the possibility of o fourth Pocemoker.

Kansas State Engineer

BIG-WIGS of the Kansas State Engineer this year are Bill Theis (left) and James Stout, who direct writing, editing, and publishing of the magazine.

FROM professionals to students come many suggestions, new ideas, and practical opinions by means of the Kansas State Engineer, a slick paper magazine published eight times a year by students of the Division of Engineering. One thousand copies are distributed to students, and 500 copies to high school and junior colleges.

One of Oldest

The magazine, in its twentieth year, is one of the oldest in the country and is a charter member of Engineering Magazines Associated.

Known chiefly among non-engineering students for its humor page, the magazine contains many articles of particular interest to engineers.

This year's editor and business manager, Bill Theis and James Stout, respectively, were elected by the staff with the approval of the engineering student council.

STAFF MEMBERS—Top row: George Sklar, Ray W. Hopkins, James Stout, Carl R. Harris, C. Wilson Blackburn, Alfred White, Robert Lake, Manuel Morris. **Third row:** Benjamin R. Petrie, Jr., Robert D. Sieg, Harold E. Summers, Edgar Crowley, Ross Booth, Fred Jones, George O'Brien, Joseph Redmond. **Second row:** Wyeth Green, Robert I. Teeter, Robert G. McKay, Dudley P. Shaffer, Jack Ransom, Francis Woestemeyer, Leslie Doane, Joe Sachen, Richard Cech.

Agricultural Student

PUBLISHED four times each year by students in the Division of Agriculture, the Kansas State Agricultural Student contains articles and pictures of interest to agriculturalists. News from "back on the farm" and from professional agriculture, as well as suggestions and encouragement for students of agriculture, is included in the quarterly publication.

Numerous pictures of agricultural activities and activities of ag students are included in each edition of the quarterly publication.

Approximately 1,700 magazines are run off each quarter, with some 600 of these going to high schools teaching agriculture and to vocational agricultural schools in the state.

Revenue for financing the publication comes from the student seminar fee and from advertising. Assistant Dean C. W. Mullen is faculty advisor, and the editor is elected by the "ag" students.

WILLIAM ALSOP, left, ond Powell Heide were editor ond business monager respectively of this yeor's Ag Student. They made assignments and were generol overseers of the publicotion of the mogozine.

STAFF MEMBERS of the Ag Student this year were—**Top row:** Robert Shoffner, George Aicher, Prof. C. W. Mullen (odvisory editor), Willis Wenrich, Williom Aisop. **Middle row:** Farland E. Publicity Bureau

GETTING the college in the news is the work of staff members of the College News Bureau, who are responsible for thousands of inches of publicity on activities, students, and accomplishments of K-State. Directed by R. R. Lashbrook, this news dispensary has grown enormously in the past two and one-half years since it was inaugurated. The State Sports Service, edited by Dan Partner, goes at least once a week to some 250 newspapers, commentators, and sports writers.

The Student Directory

Edited and printed by the office of publications for the first time this year, 4,500 copies of the student directory went to all students who paid activity fees, faculty, and townspeople. Margene Holmes edited the publication.

THREE THOUSAND Kansas Magazines were printed and distributed this year. The magazine is designed to promote Kansas art and literature. The staff is (seated)—C. E. Ragers, editor, and (standing, left ta right) C. J. Medlin, Helen Hastetter, Jahn Helm, Jr., E. T. Keith, Ruth Maxine Dvarak, R. W. Conaver.

Presenting the Most Beautiful

. . . . women at Kansas State College as selected for the 1939 Royal Purple by Don Ameche, star of radio and screen. Full length and head photographs of the 27 candidates—two from each sorority, Van Zile Hall, I. S. U., and one by petition —were sent to Ameche, and from these he chose the four he considered most beautiful.

The judge returned his decisions to W. C. Troutman, professor of public speaking, who first discovered Ameche at the University of Wisconsin.

The results were kept secret except for the customary advance publicity which was sent, with release dates, to certain newspapers. The script for an hour's broadcast of the Beauty Ball had been written entirely from the "suspense angle," building up the presentation of the queens, and the cast had been rehearsing for more than two weeks.

Zero Hour Dilemma

But the Kansas City Star—a "jumped" release date—four amazed coeds—a more-amazed Royal Purple staff—a hastily-rewritten broadcast— last minute explanations—and, finally, the announcement of the Queens, which was no surprise to anyone who had read his evening Star—all did their part to "upset the system" and make the 1939 Royal Purple Beauty Ball most unique, if most disconcerting!

MORE THAN 400 persons crowded the Worehom ballroom to witness the presentotion of Stote's Queens.

We Thank You

. . . . Mr. Ameche for selecting the 1939 Royal Purple beauty queens. Your association with lovely women of screen, stage, and radio qualifies you as a judge of feminine charm. We are flattered by the personal interest you have shown in Kansas State and in this contest.

Athletics

The Sporting Thing

by Lawrence Grauerholz

M. F. "MIKE" Ahearn (left) and Frank Myers are mainly responsible for the smooth functioning of the athletic department. Here Ahearn demonstrates a military stance while Myers plays with a tax token.

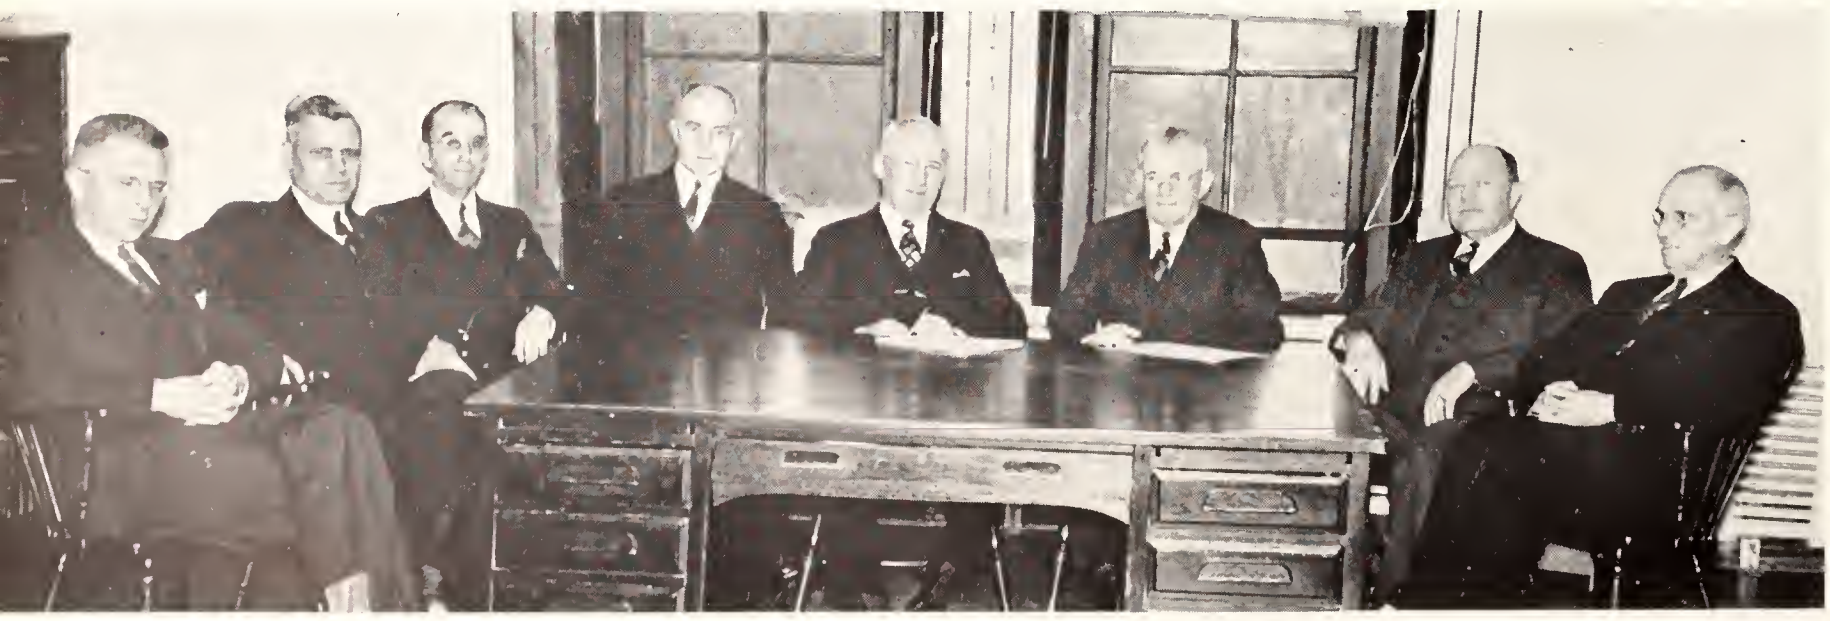
KANSAS State boasts one of the most complete and varied athletic programs in the nation.

Besides football, basketball, track, baseball, wrestling, two-mile, swimming, tennis, and golf, a dozen intramural sports with more than a thousand different students participating annually afford K-State a well-rounded, well-balanced athletic agenda.

Kansas State has produced few championship teams in major sports, but the healthy "athletics for athletics' sake" attitude has made the set-up here envied by many other schools.

One long trip a year has become a custom for Wildcat football teams. Last fall three medium-length jaunts, to Northwestern, Marquette, and Indiana, replaced the one long trip, but K-State will go to Boston College for a November game in 1939. The Wildcat wrestling team also makes an annual Eastern trip.

MEMBERS of the athletic council, which determines athletic policies at Kansas State, are (left to right) R. W. Babcock, R. I. Throckmorton, George Dean, President F. D. Farrell, H. H. King, chairman; M. F. Ahearn, R. A. Seaton, and E. L. Holton.



Directly controlling athletics is M. F. Ahearn, jovial Irishman whose long and faithful service has made him the patron saint of Kansas State athletics. He has seen Wildcat athletes rise and shine for 35 years, as coach and as director of athletics.

Assistant to the director is Frank Myers, business manager and general departmental handy man.

Council Outlines Athletics

Arranging schedules, employing coaches, awarding letters, and outlining the athletic program in general is the function of the athletic council, composed of "Mike" and seven other faculty members.

A regular sports publicity man was added to the staff of the athletic department this year. He is Dan Partner, member of the Wildcat Big Six championship football team in 1934 and former sports editor of a Manhattan daily.

After the moleskins are packed away at the end of the grid season, the Manhattan Chamber of Commerce annually fetes the K-State football and two-mile teams at a banquet.

Ernest Mehl of the Kansas City Star sports staff was the main speaker at this year's dinner. Staley Pitts was named honorary 1938 football captain at the banquet, and Paul Clingman was announced as leader of the Wildcat two-mile team for 1939.

Generating student enthusiasm at home games and pep rallies were six student cheerleaders who worked like Trojans to awaken latent interest.

DAN PARTNER (below) is Kansas State's handsome sports publicity director.

THE ANNUAL banquet, sponsored by the Manhattan Chamber of Commerce for the Wildcat football and two-mile teams, comes in December after the season is only a memory. The college band, on the stage in the background of the picture below, furnishes music.

Wampus Cats

Obtaining full support of the student body for State teams is the objective of the Wampus Cats, local chapter of Pi Epsilon Pi, national pep organization for men. A drill team which performs with the band was introduced this year. The officers were: Joe Robertson, president; Lyle Kimsey, vice-president; Bob Page, secretary; Don Reames, treasurer.

PURPLE PEPSTERS and Wampus Cats join the band in stunts between halves.

Purple Pepsters

Dressed in purple coats, white sweaters and skirts, the Purple Pepsters, local chapter of Phi Sigma Chi, promote pep at athletic games, sponsor the Gold Diggers' Ball, and enter a non-competitive act in Aggie Pop. The officers were: Ann McComb, president; Gwendolyn Romine, vice-president; Jean Montgomery, secretary; Vera Mowery, treasurer.

PURPLE PEPSTERS—Top row: Katherine Geyer, Edna A. Heotan, Rama M. Wenger, Betty J. Janes, Kathleen M. Parter, Mildred King, Cotherine Siem, Vera Mawery, Leora A. Fencl, Ann McCamb. **Third row:** F. K-Fraternity

All State lettermen are eligible to K club membership. The principal activities of the club are selling "dinky" caps to freshmen in the fall and giving a formal dance in the spring. Kenneth Nordstrom was president of the K Fraternity, Staley Pitts, vice-president, and Ed Keller, secretary-treasurer.

K-FRATERNITY—Top row: Kenneth Nardstrom, Glenn Case, Dan E. Crumbaker, Leanord Milier, Edward Kelier. **Second row:** James C. Brack, William H. Dieterich, Bill Beezley, Gilbert Carl. **Bottom row:** Meade C. Harris, Gerhard C. Pappenhouse, Lester L. Mehaffey, Shirley L. Davis, Willis Myers.

Peanuts, candy bars, and "down for a coke between halves"—Uniforms, gold braid, and highstepping drum majors—Wildcat Scream, "Yea, Team," and stunts by the pep clubs—

All this—and more—makes the pigskin sport State's most spectacular and popular activity.

Homecoming Hilarity

Homecoming is a gala day any year, but Homecoming in 1938 was an "occasion." Grads—from homes in Maine to California, from classes '98 to '38—came back to pay "due respect" to the Old Alma Mater and join in the football fun.

Fraternity houses, preparing for alums, guests, and the annual decorations contest, were decked in the "give-the-Jayhawker-the-bird" motif. Delta Tau Delta, Beta Theta Pi, and Phi Kappa Tau displays were judged the most clever.

Pause to Present

No Homecoming is complete without a pause between halves of the game for presentation of the queen and her two attendants.

Blue Key sponsors the contest, each sorority enters one of its most likely members, and a notable here for the day presents the winner.

This year the election took place at the Homecoming Ball a week before the game. Dorothy Hacker—popular Tri Delt—received the most votes, and Ralph T. O'Neil, Board of Regents' chairman, presented her to the record crowd of 17,000. Joan Nethaway, Chi Omega, and Jane Kininmonth, Kappa Kappa Gamma, were attendants.

On the Gridiron

CONFRONTING Coach Wes Fry and squad last fall was the most ambitious K-State grid schedule in history. The Wildcats bowed to Northwestern and then flattened Missouri, Marquette, and Indiana on successive weekends. A "breather" Homecoming game backfired and Oklahoma also cleaned the K-State eleven.

Iowa State got by with a tie. Washburn was easy and Nebraska earned a victory to close the season.

Four games won, four lost, and one tied was the season's record. In the Big Six, the Wildcats won one, lost three, and tied one.

They Did Pass

KANSAS State stopped the Northwestern Wildcats on the ground, but the Big Ten team scored three times via the air and the K-Staters lost, 21 to 0. It was the first game of the season, played at Evanston before 35,000 spectators.

Lynn Waldorf, who piloted K-State to its only Big Six title here in 1934 before moving to Northwestern, showed his hospitality everywhere except on the gridiron.

K-State shoved back the mighty Northwesterners twice, but could not score. One drive was halted on the 12-yard line, the other on the ten.

Backfield stars for State were Elmer "One Man Gang" Hackney with his line plunging, Bob Briggs with his kicking, Jack Blanke with his passing and ball carrying, Melvin Seelye with his ball lugging, and Merle Whitlock with his running.

The Wildcat line also drew praise. Although greatly outweighed, the forward wall kept the victors from scoring on the ground.

By Land and Air

MEMORIAL Stadium was infested with flying pigskins the day of the Wildcats' first home, first Big Six game. Missouri's Tigers provided most of the display and made two touchdowns, but the K-Staters supplemented their aerial works with a ground attack that netted three scores.

A 69-yard drive with Seelye breaking over from the two-yard line, and another push with Hackney hitting the pay-off stripe gave K-State two touchdowns in the second quarter.

In the third period, Blanke punted to the Missouri four-yard line. After running back a Tiger kick, he skirted end for the third score. The final count was 21 to 13.

Blanke, Seelye, Hackney, and Don Crumbaker were the Wildcat offensive stars, while Staley Pitts and Bill Beezley stood out on defense.

THIS TIME a Marquette player seems bewildered as how to avoid a Wildcat tackler. Kansas State won the night game at Milwaukee, 6 to 0.

Win Two on Road

KANSAS State vs. Marquette at Milwaukee was just one of those drab, scoreless tie games for 55 minutes. Then the Hilltoppers made the fatal mistake of getting Elmer Hackney's temper aroused—and when that happens, he goes! This time he went 32 yards in four shots to provide the K-State touchdown that meant a 6 to 0 victory over the Golden Avalanche under the arc lights.

The game, which had see-sawed for more than three periods, suddenly burst in the faces of 13,000 Milwaukee fans when Seelye returned a Hilltopper punt to the Marquette 32-yard line. That set the stage for the Big Push. The "One Man Gang" proceeded to blast his way to the Marquette goal line in four easy plays.

Ends Kientz and Crumbaker turned in bang-up games, while Guards Pitts and Weiner and Tackle Shirley Davis made big holes for Wildcat ballcarriers.

Husky Hoosiers Humbled

It was Homecoming Day for Indiana University fans when the K-Staters came to town, and victory-starved Hoosiers were hungry for Wildcat meat. But the Wildcats "went" to town as well and earned a satisfying 13 to 6 victory.

The Men from Manhattan got under way early in the second period. Seelye whipped a strike to Crumbaker, who galloped 65 yards to the Indiana eight-yard line where he was finally hauled down.

The immediate threat was stymied when Hackney fumbled on the third play, but the K-Staters had sensed blood. When Indiana kicked out to

the 48, Seelye interspersed a nine-yard run between two forward passes to End Don Munzer who went over for the score.

Bob Briggs' kicking set up the second Wildcat score. The red-headed fullback punted out of bounds on the Indiana five-yard line. The Hoosier return kick boomeranged back to the five and Blanke skirted end to make the score 13 to 0.

A Breather—For K.U.

KANSAS University 27, Kansas State 7.

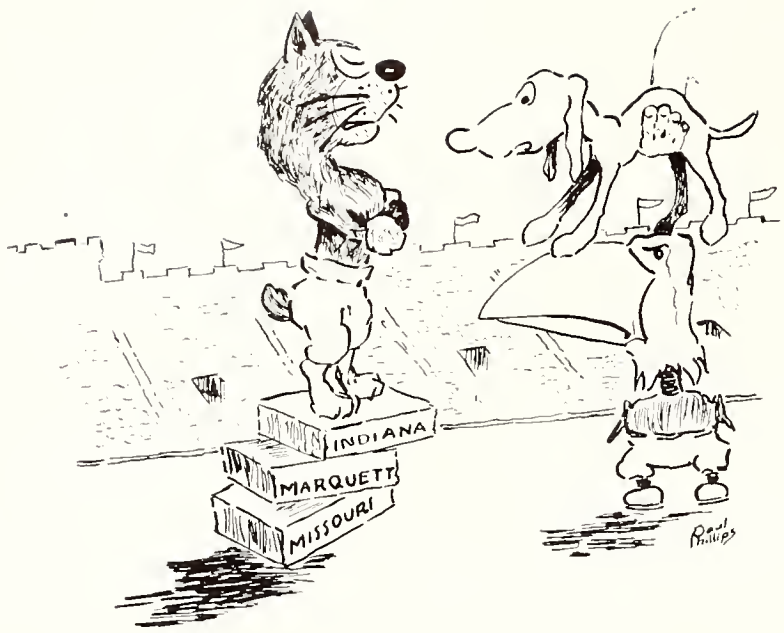
The Wildcats, riding the crest of a three-game victory wave, were expected to swamp the ship-wrecked Jayhawker crew. But anything can happen when these two state rivals clash.

A Homecoming crowd of 17,000 sat stunned in Memorial Stadium as the Jayhawks completely out-played the hapless Wildcats to earn one of the season's most startling upsets.

Both teams scored once in the first half. The count was 7 to 7 at queen-crowning time, and the crowd was confident that the Wildcats would still polish off the visitors.

But Kansas scored on the second play after the kickoff and twice more during the nightmarish half to finish the rout.

Adding insult to injury, victory-crazed K. U. fans pulled down the north goal posts as spoils of the game.



THE CHESTY WILDCAT didn't hold this pose very long, for he was soon crushed to earth by the determined feothered fiend lurking beneath the conine.

This ploy wos one of the few thot clicked for the Wildcots os the K-Stoters were humiliated by the fighting Joyhowkers, 27 to 7.

O. U., Sooners!

A GOOD big team will beat a good little team. Oklahoma beat the Wildcats, 26 to 0, at Norman.

The powerful Sooners, who finished their regular season undefeated and in possession of their first Big Six title, simply had too much heavy artillery for the K-Staters, outweighed 20 pounds per man.

The Wildcats held the Sooners fairly even the first half and the period ended with the score 7 to 0. Then the Oklahoma power began to tell and the Stidham team rolled over three touchdowns in the second half.

Injuries to key K-State players Bob Briggs, Melvin Seelye, and Paul Fagler, were important factors in the defeat.

Jack Blanke and Bill Beezley played good games for Kansas State.

Hit By a Cyclone

NEWSPAPER correspondents were already writing the story of the upset, "Kansas State over Iowa State," when the Cyclones struck twice in the last five minutes to rob the Wildcats of a victory and end the game a 13 to 13 tie.

With 55 minutes gone, K-State had out-played the undefeated and untied Cyclones and held a 13 to 0 lead.

Then Iowa State gambled on a final desperate passing attack—and hit the jack-pot.

Even after a passing attack had netted the first Iowa State score, the 10,000 Band Day fans in Memorial Stadium were not especially alarmed. The Frymen were still one touchdown ahead, were re-

ceiving the kickoff, and the clock was batting off the dying minutes of the game.

But the Cyclones forced Briggs to punt and the second bombardment began. Pass after pass clicked as Iowa State bore down the field. On the last play of the game, Heileman took a lob from Kischer in the end zone to tie the score.

Big Bernie Weiner blasted through and blocked the attempted placement to prevent defeat for Kansas State.

Hackney Plows Over

The Wildcats started on their way to a near upset in the second quarter. K-State took the ball on the Iowa State 29-yard line after a short punt. Hackney and Seelye went into action and the "One Man Gang" powerhoused over for the touchdown on the fifth play.

In the third period, Seelye took a long pass from Southpaw Elmer Nieman on the ten-yard stripe and slithered over for the second K-State score.

Jim Brock kicked the point and it looked like it was all over but the shouting.

And except for Kischer's Frank Merriwell stunt, it might have been.

Wallop Washburn

WASHBURN College was no match for the Wildcats in the final home game. The score was 41 to 14 as Kansas State rang the bell twice in each of the first three periods.

The barrage of touchdowns ceased only when Coach Fry ran in his third and fourth teams.

A small Scout Day crowd of 5,500 saw Hackney score twice and Seelye and Art Kirk once apiece on line plunges. The other Wildcat touchdowns came on a 36-yard pass from Seelye to End Chris Langvardt, and on a long heave from Nieman to Don Munzer.

NEBRASKA scored twice, Kansas State fans said the Wildcats did the same, but the officials said "no," and the Cornhuskers won at Lincoln on Thanksgiving Day, 14 to 7.

K-State played a sluggish first half while the Cornhuskers were capitalizing on a long run and a long pass for two touchdowns.

The Wildcats leaped back after the intermission. After the ball had been worked down to the Husker 16-yard line, Hackney came in for Briggs, who left the game with a twisted knee. The most spectacular K-State play of the season saw Hackney take the ball, hit the line, shake potential tacklers, and go backward over the goal line, leaving 16 yards of wreckage.

In the fourth period, Kansas State again got into the shadow of the Husker goal posts. Hackney smashed the line for what K-State claimed was a touchdown, but officials placed the ball on the one-foot mark.

Pre-Conference Play

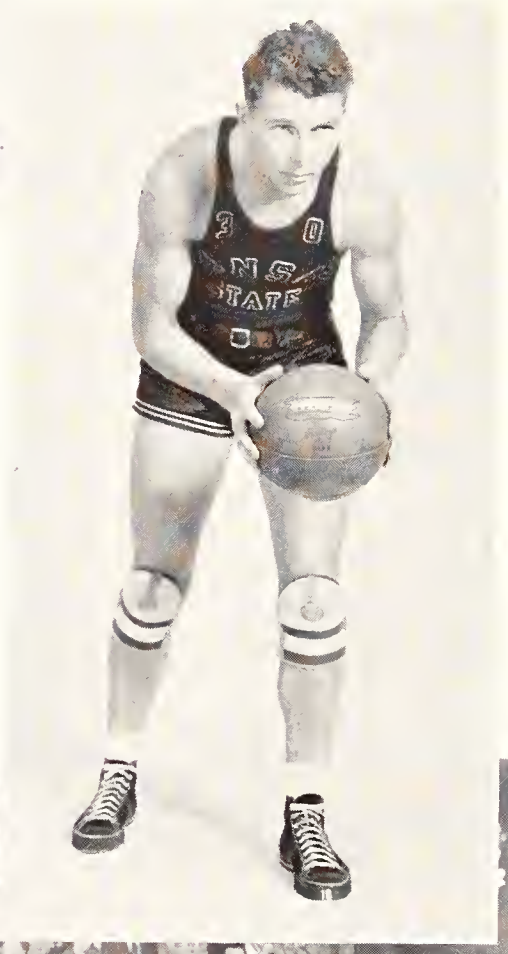
Echoes of the football season had hardly faded away when the K-State basketball team leaped into the sportlight. After dropping a loosely played game to Southwestern at Winfield, the Wildcats stepped on Doane College in the home debut a week later. Fort Hays won, 32 to 30, at Hays, before Colorado State came to town for two games. Homer Wesche and Ervin Reid were "hot" on alternate nights and K-State rang up two victories. Emporia State won two close games during the Christmas holidays.

In the Big Six Whirlpool

Ten Wildcats saw action as the Rootmen opened the conference schedule against Iowa State at Ames, but the K-Staters lost the first Big Six game, 47 to 36, to the blistering Cyclones. Wesche shucked 15 points to get an early start in the race for scoring honors, but his mates could do little to aid him.

After throwing a scare into the Kansas Jayhawkers by leading 20 to 12 at the half, the Wildcats finally went down swinging by a 33 to 29 count. The Jays pulled out in front after Wesche and George Kramer were ejected on fouls. Wesche and Reid monopolized scoring honors to bag 24 of the 29 Wildcat tallies in the game played at Lawrence.

CLARENCE DREIER (above) was a regular guard on the starting team until an injury forced him to the sidelines late in the season. This senior was a reliable defensive man and came thraugh with some spurts of brilliant backboard play.



TALL, CURLY-HEADED Ervin Reid (right) was the Wildcats' second high scarer and high point man in several games. His feinting ability baffled opposing guards many times. A good passer and flaor man, he has another year of competition.

Trip Nebraska Five

The home floor "jinx," which gave the home team an advantage during the Big Six season, turned to aid the Wildcats in a weird 43 to 38 victory over Nebraska. The K-Staters started furiously and were ahead at the half, 21 to 14. Nichols Gym was a bedlam of cheering as the Rootmen fought their way through the second period to hang up their first conference victory.

Three nights later, the Kansas Jayhawkers came to Nichols and went home with a 40 to 38 game. The Wildcats led until the last five minutes, when the "Iron Five" could not maintain the torrid pace set by the freely-substituting Jayhawks.

After a two-week furlough in polishing off semester exams, the Wildcats lost a heart-breaker to Oklahoma, 37 to 35 in an overtime period, at Norman.

STEADY GEORGE Kramer (left) earned his third letter at guard. Hard-working and capable, his dependable play made him one of the team's mainstays—a good ball handler and a hustler.

Bowl Over Iowa State

The Rootmen played giant-killer as they knocked off the league-leading Iowa State five here in a smashing Wildcat triumph, 44 to 40. Missouri's championship-bound team piled up a 25 to 9 lead at the half and then coasted to a 39 to 29 victory over the Wildcats.

The Wildcats lost a poorly-played non-conference game to DePaul of Chicago before moving to Columbia for another game with Missouri. The Bengals won, 46 to 37.

Wesche needed 20 points to break Frank Groves' scoring record as the final game of the season came up. But Oklahoma had two men on Wesche and they held him to a mere 16 points, three points short. Incidentally, the Sooners won, in a high scoring melee, 50 to 38.

Along the Cinder Paths

SEVERAL placings in the Texas, Kansas, and Drake Relays, a dual victory over Fort Hays, a second in a triangular meet with Nebraska and Kansas, and fourth in a well-balanced Big Six meet were the main accomplishments of the 1938 outdoor track team.

The Wildcats' ace individual performer was Elmer "One Man Gang" Hackney, sophomore shot-putter. Hackney won his event in every meet he entered and broke the Big Six record set by Sam Francis of Nebraska and the K-State varsity mark. The burly three-sport man climaxed his sophomore year by winning the National Intercollegiate shot-put at Minneapolis, Minn., in June.

Away to Texas

Coach Ward Haylett took 16 men to Austin, Tex., the first weekend in April for the annual Texas Relays, the initial outdoor meet of the season. Wildcat placings included a tie for first, two seconds, and a pair of fourths. Lester Mehaffey tied for top honors with six other contestants in the high jump. Both the Wildcat two-mile relay

In the only home track show of the year, the Wildcats overwhelmed Fort Hays State on the Memorial Stadium track, 95 to 36, the identical score by which the K-Staters were victorious a year previous.

At the K.U. Relays

Hackney came through at the Kansas Relays ten days later with a 50 foot, 4 inch toss in the shot-put for K-State's only first place in the Valley's greatest track and field carnival. The Wildcat distance medley relay team of James Jesson, Team Captain Leonard Miller, George Hofsess, and Charles Mitchell was second in the university class. Hackney Repeats

Eleven Wildcat tracksters and Coach Haylett moved to the Drake Relays at Des Moines the following week, where Hackney repeated as the only K-State first. He made his best throw in competition, 50 feet, 5½ inches, to win his event by more than two feet. K-State also placed fourth in the four-mile relay and fifth in the distance medley relay.

The four-mile relay quartet, composed of Mitchell, Ed Leland, Hofsess, and Miller, although finishing behind three other teams, ran the distance faster than any K-State team before it.

Press Nebraska

In a triangular meet with Kansas and Nebraska, the Wildcats ended two points behind the Cornhuskers. Both were far ahead of the Jayhawkers. The Wildcats made a clean sweep of the two-mile. In a dual meet figured on the same results, K-State defeated Kansas, 79 to 48.

Six meet records were shattered and another tied as the Wildcats bowed to the Oklahoma Sooners in a dual meet at Norman, 72 to 59. Nine firsts went to the Oklahoma team, as the K-Staters took six.

Hackney turned in the most brilliant performance of the day as he threw the shot 51 feet, 5 inches to boost his own varsity record. It was the second best throw in the nation so far that season.

Topple Two Records

Kansas State trackmen broke the only records to fall in the Big Six conference meet, but the Wildcats finished fourth in the final team placing, two points behind the third-place Oklahoma team, and less than five points behind the second-place Nebraska crew. Missouri won the championship with 51 points. Other team scores were Nebraska 45, Oklahoma 42½, Kansas State 40½, Kansas 36½, and Iowa State 9½.

Hackney continued his record-destroying performances in the conference meet as he pushed the iron sphere 51 feet, 10 inches to eclipse the mark set by Francis in 1936 and his own varsity record.

Mitchell, star Wildcat distance man, furnished the other record-breaking job by clipping one-tenth of a second off the two-mile mark set by Putman of Iowa State in 1930. Mitchell's time was 9:29.9. A team-mate, Hofsess, was only inches behind.

Ed Ebright tied with Bird of Kansas for first in the pole vault at 12 feet, 11 inches. Paul Fagler was ruled second to Foy of Kansas in the 100-yard dash in a photo-finish.

Three Fifths

Fifth places were garnered by Darold Dodge in the low hurdles, while Vernon Harness in the pole vault and Mehaffey in the high jump tied for fifths.

Twelve lettermen were available as Haylett began to plan for the Wildcat 1939 season, which included several relays and the conference meet.

We Own the Big Six

Three consecutive Big Six championships. . . . Not a home conference dual meet lost since 1930. . . . Only two dropped on foreign tracks. . . .

That's the record of Coach Haylett's Kansas State two-mile teams. The 1938 edition ran away from each Big Six team in duals and away from them collectively at the conference meet for another championship.

ACROSS THE FINISH LINE (above) Hofsess and Mitchell again show the way. This time Kansas University was the victim, 33 to 22.

On the Boards

Beginning the season with a 59 to 45 dual victory over Drake University and climaxing it with two firsts and a second in the Armour Tech Relays at Chicago, this year's indoor track team competed in two duals, three national relays, and the Big Six meet. Elmer Hackney, shot putter de luxe, took first place in every meet he entered.

Hackney won the shot and Charles Mitchell was third in the 1500-meter run at the Illinois Relays.

Nebraska won the mile relay in the K.S.-Cornhusker dual to win, 56 to 48. Hackney and Mitchell won firsts in the Big Six meet. Missouri took the title with 35½ points, as the Wildcats tallied 22 to finish third behind Kansas, second with 24.

Capt. Dick Hotchkiss, hurdler, was second in the National Collegiate Meet at South Bend, Ind.

Hackney threw 51 feet, 9¼ inches at the Armour Relays and Dick Toole captured the 440-yard dash, while Hotchkiss was second in the high hurdles.

With Bat and Glove

FROM a snowed-out opener to a final double-header under ideal conditions, baseball at K-State in 1938 stretched from late February to late May. During the interim, the Wildcat nine broke little better than even, winning eight games and losing seven.

A Big Six record of four victories and seven losses does not paint a true picture of the Wildcat strength, as the "hard-luck" nine lost three games by one-run margins.

Take Opener From K.U.

PROSPECTS for a first division team were fairly good with seven lettermen reporting for the first early indoor practice, but a persistent batting slump plagued the nine.

The Wildcats were ready to open the season early in April against Bethany College here, but a heavy snowstorm forced postponement.

Steady pitching by Veteran Ed Klimek and timely hitting enabled the Wildcats to win the delayed opening game from Kansas by a 13 to 6 score. The Jayhawkers came back the next day to even things with an 8 to 5 victory.

A chance to upset the conference favorites spurred the Wildcats as they embarked for two games with Oklahoma. The results were two heart-breaking one-run defeats.

A ninth-inning rally gave the Sooners a 2 to 1 victory in the first

JIM BROCK (upper left) was one of the team's regular starting pitchers. This blacky sophomore, also a star in football, had plenty on the ball.

THE WILDCATS' leading slugger was Wilbert Duitsman (center left), sophomore outfielder. His hitting and excellent throwing arm made him valuable.

A HUSTLING CATCHER and perpetual chatter box was Max Kurman (lower left).

LA VERNE BECHTOLD (circle) was another sophomore in the regular line-up. He played first base.

game. The second contest, a 9 to 8 Oklahoma win, was loosely played. Again a last-minute play provided the winning margin as K-State out-hit the Sooners, 10 to 6.

Drop Two to Missouri

State jumped back to an even rating in the Big Six with a pair of victories over Nebraska, but the jubilation was short-lived as Missouri took two games the next week. Klimek allowed the Tigers ten hits in the first game, but kept them scattered and the eventual conference champions could score in only one inning. The next day the Wildcats lost another thriller, 4 to 3 in ten innings. Besides hurling four-hit ball, Jim Brock drove in all three K-State runs.

Chances for revenge against the Tigers were washed out by rain at Manhattan the following weekend.

Two lop-sided victories over Baker University served as warm-ups

TOBACCO-CHEWING Ed Klimek (upper right) was the Wildcat hurling ace. This senior veteran compiled a long list of strike-outs and his general effectiveness and cool-headedness made him one of the conference's leading pitchers.

WILLIS MYERS (center right) was half the team's catching department. Brother Haword Myers (circle) played the infield where a strang throwing arm made him an osset.

ALLEN BURNS (lawer right) was a basketball star who transferred his talents to baseball in the spring. His hitting gained him a regular spot in the outfield. He pulls up at third base (below) during a K.U. game.

before the Wildcats went to Lawrence, where K-State bats were silent and the score was 3 to 1, Kansas.

Iowa State and the Wildcats split a double-header to close the 1938 season—K-State winning the first, 7 to 1, and bowing in the night-cap, 4 to 1.

M. F. "Mike" Ahearn and his assistant, Frank Myers, coached the squad until after spring football practice, when Wes Fry took charge of the nine.

Champs on the Mat

WRESTLING, a booming sport at Kansas State for several seasons, hit a climax this year when Coach B. R. Patterson's men won the Big Six championship and record-breaking crowds of 1,200 to 1,500 attended home dual meets in Nichols Gym.

With Leon Reynard and Walter Johnson winning individual titles, the Wildcat grapplers amassed 30 points to win the crown in the conference meet.

On an opening Northern trip, the K-Staters lost to Minnesota, tied Iowa, and edged out Iowa State.

Then the team came home to humble Illinois, and then was tripped by Nebraska. Central Teachers and Oklahoma were victims in Nichols Gym.

Patterson's crew flattened Waynesburg to start the annual Eastern trip, but hit snags against Franklin and Marshall and the Navy, losing both duals.

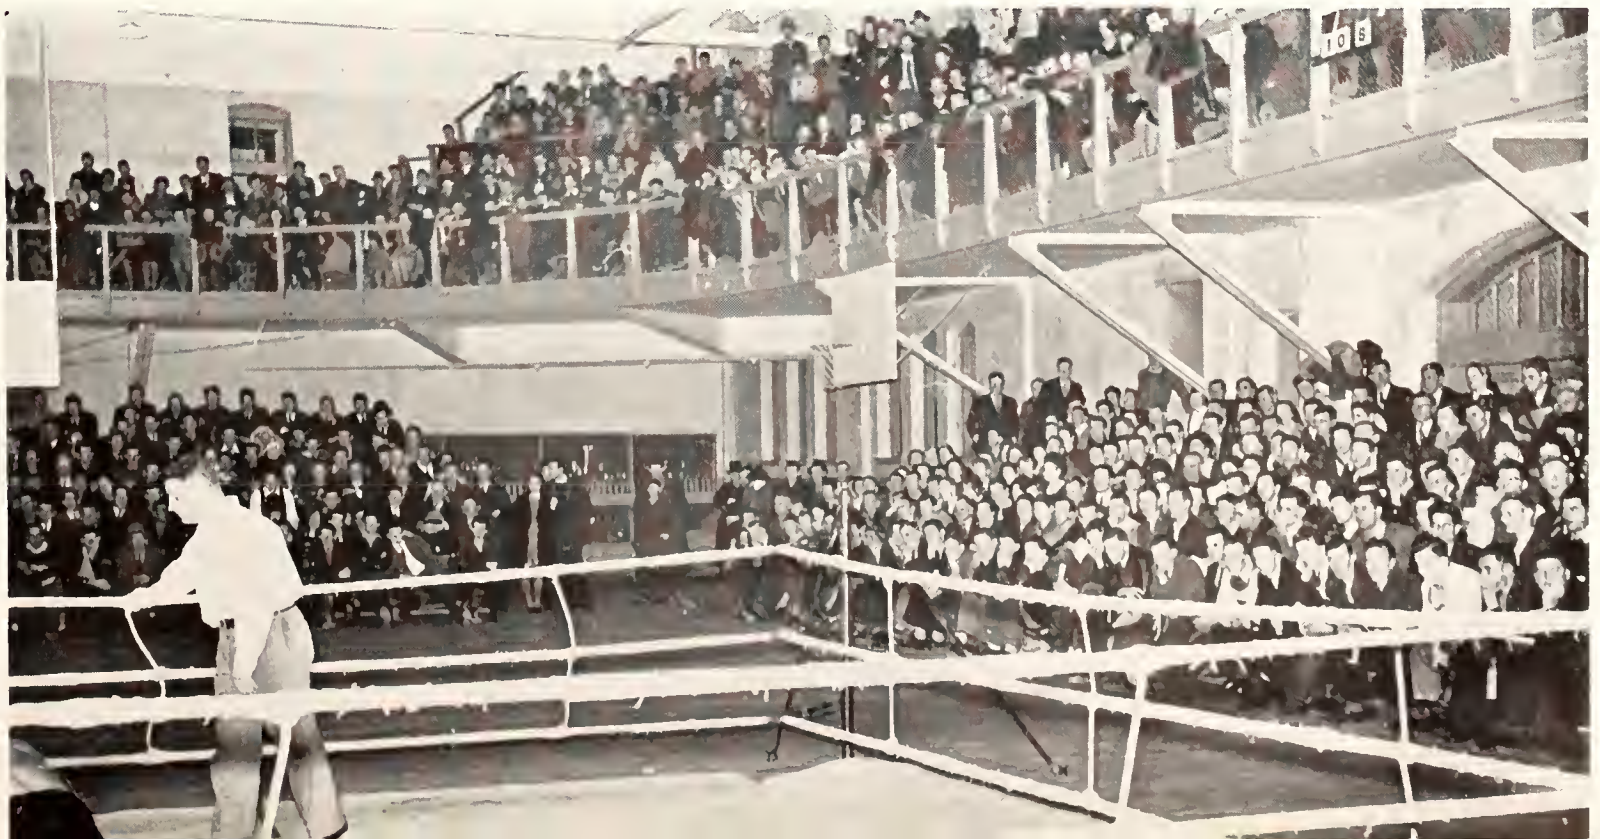
THERE WAS STANDING room only at many home wrestling meets.



K-State students got a taste of Olympic wrestling in December when a squad of Japanese grapplers staged an exhibition against a Wildcat squad here. International Olympic rules prevailed as the wiry visitors took three of the five matches.

In the first match of the Northern jaunt in January, the Wildcats went down before Minnesota at Minneapolis, 17 to 11. Two nights later, the vagabonding grapplers tied Iowa University at Iowa City, 14 to 14, as each team took three decisions and a fall.

Bump Iowa State

Feeling discouraged with but a tie in two meets, the Wildcats sprang back against Iowa State and upset the Cyclones, 15½ to 14½. The victory gave Coach Patterson "one of the biggest thrills of my career." Glenn Duncan, 145-pounder, won his third straight fall of the trip.

With two returning conference champions, Elmer Hackney and Gerald Van Vleet, back in the lineup, the Wildcats threw Illinois University, second in the 1938 intercollegiate meet, 17 to 11 in Nichols Gym.

THE GRAPPLER (upper left) is Kenny Yoos, 136-pounder. An injury kept this sophomore out of the Big Six meet.

GERALD "JIGGS" Van Vleet (upper right) 155-pounder, was second in this year's meet.

THREE-SPORT ELMER Hackney (center left) divided his time between indoor track and heavyweight wrestling. He was second in the conference.

LEON "RED" Reynard (center right) retained his conference title in the 175-pound class, again won the high-point trophy, and was elected captain of next season's team.

SOPHOMORE WALTER Johnson (lower left) got out of the hospital to win the Big Six championship in the 145-pound weight.

Feeling a bit cocky about the victory over the Illini, the Wildcats met Nebraska. The result was a 15½ to 10½ Cornhusker triumph.

The K-Staters went to work on the Central Oklahoma Teachers, the next opponent, with a vengeance and mauled the visitors, 24 to 8.

Elmer Hackney returned from a track meet at Lincoln in time to wrestle Waddy Young to a draw and gave K-State a 13½ to 12½ victory over Oklahoma, 1938 conference champions.

Smother Waynesburg

Waynesburg College was squelched, 21 to 3, in little more than a warm-up on the first meet of the Eastern trip, but Franklin and Marshall bumped the Wildcats, 17½ to 12½.

In the highlight match of the trip, the K-Staters met the U. S. Navy at Annapolis. The midshipmen won the dual, 16 to 12.

Home from their 3,000-mile journey, the mat men turned to the Big Six meet at Ames, where Reynard successfully defended his 175-pound championship and Johnson took the title in the 145-pound class. Horace Watson, Cliff Duncan, Van Vleet, Keller, and Hackney won seconds to pile up the winning score for K-State's first wrestling title since 1931.

SECOND IN THE canference meet was Harace Watsan (upper left), a 128-paunder.

CLIFF DUNCAN (upper right) was Big Six runner-up in the 145-paund weight.

A Tennis Revival

K-STATE tennis had a good year in 1938. Coach C. S. Moll looked over his three lettermen and enthusiastic squadmen and promised the best-balanced team in years.

The netmen banged steadily through their extensive dual-meet schedule, winning seven, losing four, and tying one.

Spring basketball practice at Kansas University was proved more important than intercollegiate tennis. A dual K.S.-K.U. meet was halted when the Jayhawker basketball squad took the gymnasium from the two tennis teams. Rain had sent the netters inside.

The Wildcats finished third in the Big Six Conference meet as Wayne Thornburrow and Loyd Selders smashed their way to the championship of conference number 2 doubles teams. Varsity letters were awarded to Thornburrow, Selders, Dick Gray, and Joe Eckart.

In The Rough

THE 1938 golf team had "it" during the dual season, but they lost "it" in the conference show-down in May.

After completing a most successful dual-match schedule, winning seven meets, losing four and tying two, M. F. Ahrean's proteges were able to place no higher than sixth in the Big Six meet.

A feature of the dual-match slate was a triangular meet with Creighton and Iowa State at Omaha. The Wildcats drubbed the Bluejays 12½ to 5½, but bowed to the Cyclones by the same score.

Only four golfers made up the team at any one time, but five men were awarded varsity letters. Any squadman could replace a team member by challenging and defeating him in try-outs. Letters went to Charles Weeks, Thaine Williams, Bob Kellogg, D. C. Wesche, and Roger Crow.

In the Swim

A 45 to 38 victory over Washington University of St. Louis, perennial champions of the Missouri Valley Conference, was the highlight of the 1939 Kansas State swimming season.

The Wildcat splashers also defeated Kansas University in a dual here and finished the season with two meets won and four lost. The team was fifth in the Big Six Conference meet at Lincoln where Iowa State's Cyclones repeated as conference champions.

Varsity letters were awarded at the close of the season to nine Wildcat tankmen, Capt. Harold Brown, Gilbert Carl, John Erickson, Gerald Ingraham, Phil Novak, Harry Sipe, Allen Smoll, Joseph Uhrin, and Jack Warner.

Novak, sophomore diver, was the team's most consistent scorer as he frequently placed first in dual meets.

They Direct Women's Sports

"He who plays the game straight and hard wins even when he loses" is the theory upon which women's intramural sports are conducted. Promoted by the Women's Athletic Association, these activities are carried on through an intramural council composed of one representative from each of the 13 competing organizations and three executive officers of the W.A.A. These officers were Maxene Richardson, president; Edna Mae Arnold, vice-president; Jean Boyle, secretary. This year the association also sponsored a hayride, picnic, skating party, and costume party.

The intramural program includes volley-ball, tennikoit, swimming, dancing, tennis, posture, basketball, baseball, and table tennis. Ten sororities, Van Zile Hall, the Neophytes, and the X Team take advantage of this recreation.

Intramural Plaque Awarded

The organization which has won the most points during the school year is presented in the spring with an Intramural Game Plaque. The plaque becomes the permanent property of the organization and was won in the 1937-38 season by Delta Delta Delta.

Military

COLONEL R. W. KINGMAN, R.O.T.C. commandant for two years, is popular with students. His pleasing personality and familiar smile pave the way for more complete understanding between cadets and their commandant.

"I Do Solemnly"

By James F. Cooper

. . . swear that I will support and defend the Constitution of the United States against all enemies, foreign and domestic . . . ." is, in part, the oath administered to cadet officers upon completing the four-year R.O.T.C. course at Kansas State. At that time they are commissioned as second lieutenants in the organized reserve corps, subject to active duty on the call of the war department.

Since Kansas State is a land grant school, all men students are required to enroll in a two-year basic military course—artillery or infantry. An advanced two-year course is available to men interested in furthering their military work and becoming reserve officers.

Colonel R. W. Kingman, in command of the military department, has a staff of eight commissioned and four non-commissioned officers as instructors.

Cadet Officers

Year after year advanced military training becomes more popular with men students. This year over 150 students, selected according to their grades, leadership, and possibilities of becoming worthy officers, are enrolled in the two-year advanced course.

The second year advanced students, who are commissioned as cadet officers responsible to the cadet lieutenant colonel, head platoons, companies, and battalions of the regimental organization. In this capacity they are being trained as possible future army officers.

Military Band

With trumpets, brassy blares and drums' pounding rhythms, the military band, under the direction of Prof. Max Martin sets the pace for the military units' parades, reviews, and drill periods.

Members of the band are enrolled in the required two-year basic course, and membership is gained competitively.

Students consider it a high honor to "play" the martial music for the cadets.

Upon completion of the basic course, many members of the band transfer to the infantry and artillery units and enter the advanced course.

Scabbard and Blade

Infantry-minded advanced students further their mutual interests in the bonds of the military brotherhood, Scabbard and Blade.

Since its establishment as the first chapter in Kansas, the local group—Company L, First Regiment—has grown in membership, prestige, and activities.

Kenyon Payne is president of the local chapter, and Major E. E. Brown is faculty advisor.

Mortar and Ball

A fraternity, similar in function and purpose to Scabbard and Blade, is Mortar and Ball. Its members, however, are selected from advanced students enrolled in the artillery department.

Founded in 1926, the local chapter is best known externally for its "strenuous" informal initiation services on the campus and elsewhere.

William McKinley is the chapter president, and Captain Karl Frank is the faculty advisor.

Infantry—Backbone

The infantry is the backbone of any army, and at Kansas State, contrary to the popular expression, they travel on their feet.

Saturday morning, Monday morning, and Monday afternoon, find the school's several parade grounds littered with double-timing squads, marching platoons, and seemingly

"FRONT!" shouts the Lieutenant, and long lines of cadets snap heads to the fore.

stationary officers. The basic students are taught the fundamentals of close-order drill, attack problems, and are given instructions in rifle, automatic rifle, and machine-gun manipulation.

Each spring an annual inspection is presented for the seventh corps area's officers, who severely criticize and rate the department in comparison with other schools.

Last year, Kansas State was rated "excellent."

Artillery—Big "Shots"

Permitting a pun, the artillery units are the "big shots" of the army.

learning the principles of coastal defense, big-gun offense, and anti-aircraft defense.

There is no actual firing of guns on the campus, but frequent trips are made to army post Ft. Riley, 18 miles distance, for practical demonstrations.

The artillery unit is inspected by the corps area at the same time as is the infantry, and likewise received top honors last year.

The summer training camp for advanced course students is at Ft. Sheridan, Ill.

Men's Rifle Team

Closely connected with the military department are Kansas State's rifle teams. In shoulder-to-shoulder and telegraphic matches with other schools this year, the men's team won 10 out of 17, ranking seventh place nationally.

Under the coaching of Major J. K. Campbell, the team captured fourth place in the National Rifle Association matches this year. William Moore is the team captain.

Women's Rifle Team

Kansas State's female riflers are nationally known for their ability. For the third consecutive year, the team took first place this spring at the Kemper Indoor Camp Perry matches at Boonville, Mo. They were awarded a large trophy, which will be kept permanently.

The girls are under the direction of Major Campbell and are coached by Sgt. E. J. Larson. Ruth Baldwin is the team captain.

At meetings, twice a month, the members have regular communications drills, contacting training vessels and other naval stations, thus preparing themselves to serve as naval communications officers in a possible future emergency.

Rex Parcells is the second class petty officer in command of the local group. Prof. M. W. Horrell is the faculty advisor.

Crack Drill Patrol

The crack drill patrol is an extra voluntary unit for basic students. Trick and fancy drills are their specialty. Their talents are displayed in exhibitions in the gymnasium during basketball games, student assemblies, and at other functions.

The group, which is under the direction of Cadet Captain Burt English, attended the annual R.O.T.C. circus in Kansas City late in the spring.

Major T. R. Holmes, who is serving his first year on the faculty of the military department, is the sponsor.

Mortar Board

Founded in 1918 by representatives of Cornell, Swathmore, Ohio State, and the University of Michigan, Mortar Board is a senior women's honorary organization recognizing scholarship, leadership, and service. Kansas State's local senior honorary, Zix, was granted a charter in 1928.

Mortar Board activities this year included the selling of mums at the Homecoming game, entertaining all senior women at a tea, assisting with freshman orientation week, being hostesses at a Hallowe'en dinner for the recognition of Prix members and the freshman woman with the highest scholastic average, and sponsoring a leadership conference in the spring.

In addition to these activities, Mortar Board gives a Spinsters' Skip every year. In the form of a Valentine dance, it is an affair at which the girls ask for dates, do the honors for the evening, and pay all costs.

A "King of Hearts" is elected by the women on the campus and crowded at the Skip. Staley Pitts, Kappa Sig, was the choice for King this year, with Beta Bill Miller and TKE Kenny Graham as Knaves.

Outstanding women of this year's junior class were elected and presented to the student body after an impressive "tapping" ceremony at Recognition Assembly, May 2.

Officers of Mortar Board were: Frances Gebhart, president; Arlene Waterson, secretary; Helen Beth Coats, treasurer.

Dynamis

Each year Dynamis, the only all-school honorary society on the campus based on initiative, leadership, and high scholastic standing, takes the lead in the advancement of some campus project. This year Dynamis made a survey of student health needs, campaigning for a new student hospital in 1940 as part of the project.

Prof. E. R. Lyon is the faculty sponsor of this organization which was founded March 4, 1930. This year's officers were: Delbert McCune, president; Raymond Adams, vice-president; Louise Boyle, secretary; Robert Lake, treasurer; Jane Dunham, publicity director.

Pi Mu Epsilon

To encourage mathematical development and scholarship among students who are mathematically inclined is the purpose of Pi Mu Epsilon. It is composed of undergraduate students, graduates, and faculty members with high scholastic achievement in the Kansas State mathematics club.

This society is one of the newer honoraries on the campus, having been installed May 24, 1935. Prof. C. F. Lewis is faculty director of the local chapter. Officers were: A. E. White, president; Woodrow Sigley, vice-president; Howard Stover, secretary; Aldro Bryan, treasurer.

PRIX—Top row: Maxene Richardson, Elizabeth Braaks, Betty Higdon, Jean De Young, Ruth Johnston, Rosemary Parisa, Helen Peterson. **Bottom row:** Dorothy Ann Uhl, Marjorie Higgins, Corrie McLain.

Blue Key

Blue Key is the select honor group of senior men chosen for character, scholarship, student activity, leadership, and service.

Their main project for the past few years has been to sponsor the homecoming queen contest.

Breaking a precedent this year, Blue Key had a banquet for members and their dates February fourth. In the spring they had their usual stag banquet.

Officers this year were: Joe Bonfield, president; Kenneth Nordstrom, vice-president; Bob Baber, secretary; Emmett Hannawald, treasurer.

BLUE KEY-sponsored candidates for Homecoming Queen.

Prix

Prix is the local junior women's honorary organization which selects girls for exceptional dependability, initiative, quality of character, and an acceptable scholastic standing.

Prix members are secretly initiated in the spring and announced at the annual Mortar Board Hallowe'en dinner the following fall.

The purpose of Prix is to promote fellowship, leadership, and character-growth in an attempt to give a more rounded educational life.

Officers this year were: Carrie McLain, president; Marjorie Higgins, vice-president; Jean De Young, secretary-treasurer; Elizabeth Brooks, marshal.

Pax

To promote interest and to create fellowship among members of the different fraternities is the object of Pax, an organization for junior men.

Membership is limited to two men from each fraternity. A junior organization to Scarab, Pax assists the junior class in its political endeavors on the campus.

George Shrack, president; Ronald Morton, vice-president; Sy Womer, secretary-treasurer; and Tom Henderson, sergeant-at-arms, were this year's officers.

Scarab

Since Greeks have united as a political bloc on this campus, Scarab, the senior men's political organization, assists the senior men's Panhellenic group in fall and spring elections.

Scarab is an honorary society initiating only senior men.

Leading the group as executives this year were Marshall Wilson, president; Sidney Platt, vice-president; Buford Philpy, secretary; and Harvey Hoover, treasurer.

POLITICS IS BREWIN' ot the Phi Delt house where Scorob Prexy Wilson gives the group the low down.

Pi Kappa Delta

Debaters from England's Oxford and Cambridge Universities were brought to State this year by Pi Kappa Delta, international forensic fraternity. The purpose of the society is to sponsor forensic endeavor in debate, extemporaneous speaking, and oratory.

The local Gamma chapter initiated Norman Webster of the public speaking department into the organization this year. James Gould, State's only member with a special distinction rating, was president.

French Club

A new organization on the campus is the French Club, organized last spring for the purpose of bringing into a closer union, students interested in the language. The group has one evening meeting and two luncheon gatherings each month. Conversations are conducted in French.

Charter president of the club was Marianna Kistler, who served first semester. She was succeeded as executive by Virginia Johnson.

Alpha Phi Omega

Alpha Phi Omega, national scouting fraternity, is an unusual organization in that it has as a prerequisite to membership, former membership in the Boy Scouts of America.

This society sponsors projects each year, with the organizing of a speakers' guide for use of campus organizations in program planning being the principal promotion problem this year.

Earl Certain was president; Jack Fuller, vice-president; Jim Lunsted, secretary; Bob Mueller, treasurer.

Radio Club

The Radio Club was organized on this campus a year ago last fall. Its purpose is to maintain and operate an official amateur radio station at the club headquarters, to gain a greater knowledge of radio communication, and to develop friendships.

Officers for the first semester were: J. E. Wolf, president; Daniel Longenecker, secretary-treasurer; C. C. Lucy, chief telegraph operator; R. L. Meisenheimer, chief telephone operator.

Second semester corresponding offices were held by: C. C. Lucy, Roger Ghormley, Rex Parcels, and J. E. Wolf.

German Club

"We just meet and sing," says Dr. Fritz Moore, sponsor of the German Club. A purely recreational organization, the German Club was organized only last year for those students interested in the language and for those of German birth.

Officers of the club this year were: Daniel Thompson, president; Lawrence Schubert, vice-president; Esther Cassity, secretary-treasurer.

Doctor Moore and Dr. L. H. Limper are the faculty sponsors for the group.

Cosmopolitan Club

Motto of the Cosmo Club is "Above all nations is humanity," with the promotion of international understanding through friendship among the nationalities represented on the campus as the principal objective.

Officers for the spring semester were: Wong Tit, president; Joseph Ko, vice-president; Hildegard Knopp, secretary; Severo Cervera, treasurer; Dorothy O'Loughlin, program chairman; Marie Forceman, corresponding secretary; Myrtle Zener, alumni secretary; Dr. C. H. Whitnah, Dr. Fritz Moore, and Miss Helen Hostetter, club sponsors.

Phi Epsilon Kappa

The old saying that "athletes are dumb" in the classroom has been definitely proved false at State. Membership in Phi Epsilon Kappa, national professional fraternity for men physical education students, is based on scholarship.

Established in 1930, the local chapter holds joint social functions with women physical education majors each semester.

Officers this year were Harlan Bull, president; Richard Banbury, vice-president; W. G. Speer, Jr., secretary; Max Kurman, treasurer.

Phi Lambda Upsilon

To rate Phi Lambda Upsilon, a student is not only required to be a chemistry major, but must show promise of professional attainment or prove himself a leader. Both faculty and students belong to the society.

A banquet is sponsored by the organization in the fall for freshman chemistry majors, and two students are honored for scholastic achievement.

Officers were John Sutherland, president; Dean Braden, vice-president; Bob Nottorf, secretary; George Kramer, treasurer.

PHI LAMBDA Upsilon picknickers may have been concentrating on an "unknown," but it looks like they're really waiting for the food wagon to arrive.

Quill Club

An all-school organization for writers of literature is the American College Quill Club. The local Ur Rune chapter meets twice each month at which time manuscripts, written by members, are read and criticized.

A student may gain membership in the club by submitting a manuscript which is read and judged by a committee. "The Mirror," a publication containing original prose and poetry prepared by the members, appeared this year in mimeographed form for the first time. It previously was printed.

Phi Alpha Mu

Women students in the Division of General Science with high scholastic records in English courses may become members of Phi Alpha Mu, an organization designed to promote fellowship and goodwill among girls in the field of general science.

Each year the organization honors the junior girl with highest scholarship. President of the group this year was Helen Wroten. For two consecutive semesters last year, the organization had the highest scholastic rating of all the clubs on the campus.

Prof. Stella Harriss is the faculty advisor.

Alpha Kappa Psi

Students will no longer enroll in the curriculum of commerce for that curriculum exists no more. In its place is "business administration." This change was brought about largely through the efforts of Alpha Kappa Psi, professional commerce fraternity installed at State in 1926. The local Alpha Omega chapter is one of 55 in the nation.

The group meets every other week and has an annual banquet. Stanley Miner was president this year. Robert Tindall was elected as head of the organization for the 1939-40 school term.

Commerce Association

Members of the Student Commerce Association are given an opportunity to hear well-known speakers at each of the monthly meetings. The purpose of the organization is to give students the advice of successful business men and to acquaint them with other members of the profession.

The organization sponsors an inspection trip to Kansas City each spring. Socially prominent is the annual commerce banquet.

Heading the group this year was Howard Crawford.

A GUEST SPEAKER oppears before the Student Commerce Associotian. Members watch the speoker with interest.

ROY FRITZ, former prexy of Popenoe Club, speaks informolly to the group.

Mu Phi Epsilon

An endeavor to stimulate musical excellence and to advance the music of America by maintaining high standards are the purposes of Mu Phi Epsilon, national honorary music society.

On April 16 the annual recital in which the entire club participates was presented.

This year's officers were Helen Wroten, president; Cynthia Askren, secretary; Clarice Painter, treasurer.

Popenoe

Named for Prof. Edgar A. Popenoe, former head of the department of entomology at Kansas State, the Popenoe Club has regular meetings at which members present original research of their own or of others in insect study.

Several social events and picnics have been used as a means of furthering the contact between professors and students of the group this year.

Present officers are Charles Curtis, president; Oliver Miller, vice-president; Joe Tuck, secretary-treasurer; Walter Emery, faculty advisor.

Theta Sigma Phi

Graduating women journalists are going to get better jobs, Theta Sigma Phi decided this year, so the professional journalism group set up an employment bureau. The main social event was Matrix Table. Officers were Thelma Holuba, president; Susanne Long, secretary; and Frances Gebhart, treasurer.

Sigma Delta Chi

To create harmony and an era of good feeling among Fourth Estaters is the purpose of Sigma Delta Chi, professional journalism fraternity. Under the leadership of President Joe Newman, the group brought outstanding speakers to the campus and, with Theta Sigma Phi, made plans for a humor magazine.

SPEAKING AT a Sigma Delta Chi stag banquet is Vernon Bundy of the U. S. department of state.

A VISITOR of Mu chapter of Theta Sigma Phi this year was Lucy Rogers Hawkins, editar of Matrix Magazine.

Enchiladas

Enchiladas, the social dancing honorary organization, is comprised of seven members from each national sorority on the campus.

Officers were Ann Wright, president; Ruthe Porter, vice-president; Dorothy Dean, secretary; Catherine Siem, treasurer.

Open House Committee

The task of making and carrying out the multitude of plans for Engineers' Open House is each year entrusted to a committee. Representatives from each department of the Division have a part in preparing the exposition which annually attracts thousands of persons to the campus. Open House activities include the popular St. Pat's Prom. Duane Jehlik was committee chairman this year.

Engineering Council

The governing board or "council of directors" of the Division of Engineering is the Engineering Council. This group is the administrative body of the Engineering Association to which every engineer belongs. Comprising the council are seniors elected from the Division at large and from each department. They distribute seminar fees and consider all proposals to be submitted to the student body. The group, which is made up of ten engineering students, acts as a student council for the division and as a "go-between" among the departments.

Sigma Tau

Outstanding students in the Division of Engineering are eligible for membership in Sigma Tau, only national honorary engineering fraternity on the campus. Sigma Tau annually sponsors St. Pat's prom, a social highlight.

Steel Ring

To become a member of Steel Ring, a student of engineering must possess qualities of leadership and scholarship. Steel Ring each year awards a trophy to the department presenting the best Open House exhibit.

A.I.E.E.

Electrical engineering students at State are brought together in mutual friendship by the local chapter of the American Institute of Electrical Engineers. The local club maintains close harmony with the national organization through which the student may make contacts with persons actively engaged in the field of electrical engineering.

Through work in the local organization and in the classroom, the student prepares himself to take his place among the engineers of the world.

When a student enrolls in the curriculum of civil engineering, he becomes a member of the Kansas State student chapter of the American Society of Civil Engineers. He receives credit for civil engineering assembly through work in the society. Attendance is required at the twice monthly meetings.

The Kansas State section of the national organization takes interest in the local chapters and sponsors about three meetings each year between professional engineers and students for the mutual benefit of both. Upon graduation, a student may apply for membership in the national society at a nominal rate.

Walter Hanson and Harold Brown were presidents of the organization this year. Program chairmen were Richard Lindgren and John Young.

A.S.A.E.

To develop and promote the interests of agricultural engineering is the purpose of the American Society of Agricultural Engineers. Each week a prominent speaker appears before the group at seminar. Students of agriculture, enrolled in the Division of Engineering, comprise the membership of the association.

A.I.Ch. E.

Students of chemical engineering are eligible for membership in the local chapter of the American Association of Chemical Engineers. Although the local organization is a junior chapter, members may be recommended for participation in the national society. Outstanding speakers address the group once each month.

A.S.M.E.

One of the largest and most active organizations in the Division of Engineering is the American Society of Mechanical Engineers. Members of the organization take part in activities similar to those they will encounter after entering the active field of engineering. Students may broaden their viewpoints of the profession through experiences gained by membership in the A.S.M.E.

A major activity of the group is to assist with the presentation of Engineers' Open House, but other events sponsored by the Division of Engineering receive the same active support of the society. President of the group this year was John Penington. Prof. Linn Helander is the sponsor.

Kappa Eta Kappa

Good fellowship and good scholarship among students of electrical engineering—these are the objectives of Kappa Eta Kappa, national engineering fraternity. The local Eta chapter is active in all campus activities and played an important role in the success of Engineers' Open House and other events sponsored by the engineers.

Tau Epsilon Kappa

A decade ago Prof. John Helm, Jr., an authority on American art and a member of State's architectural department, organized Tau Epsilon Kappa, a society for women students of art and architecture. The group convenes once each month to discuss the various fields of architecture and art for women and other subjects of interest.

Gargoyle Club

A goodwill association among students of architecture and architectural engineers is the Gargoyle Club. All architectural students are eligible for membership. Actual contact with the field is provided through various meetings. Socially, the group holds picnics and parties. Heading the club as president this year was Sidney Platt.

Glider Club

Air-minded students interested in aviation go in for motorless flying at State. They are joined together by the Glider Club, which all students and faculty members who are interested in "imitating the birds," may join. The club owns two gliders and several members have their own crafts. Each member flew at least once this year.

Block and Bridle

Sponsorship of the Little American Royal is the outstanding activity of the Block and Bridle Club. But the organization for animal husbandry majors also conducts a student livestock judging contest and sponsors the home economics' meats identification and judging event.

The group elected R. J. Kinzer, former head of the animal husbandry department, as outstanding livestock man this year.

Neal McVay served as club president both semesters this year.

Klod and Kernel

Banded together for fellowship and goodwill are students and the faculty of agronomy and closely related fields. They are united under the heading "Klod and Kernel Klub" which meets twice each month.

One of the club's activities is to sponsor the students' crop judging contest each spring. Social functions include a steak fry in the fall and an informal party later in the year.

Earl Cook was president of the club.

Horticulture Club

Chrysanthemums dot the coat lapels of Horticulture Club members indicating their interest in floriculture. Anyone interested in the promotion of horticulture is invited to join the circles of the Hort Club, whether he is a student or a faculty member.

Activities this year include the sponsorship of a ping-pong tournament and the inter-collegiate apple judging contest. The group also assisted with the annual Horticulture Show. On the social calendar were at least two picnics.

Sears Scholarship Club

Outstanding high school graduates who have distinguished themselves by high scholarship and agricultural accomplishments are candidates for scholarship awards from the Sears-Roebuck Agricultural Foundation.

The first group so honored formed the Sears Scholarship Club at State in the fall of 1937. Members of the group take part in various campus activities, hold regular meetings, and publish their own news-letter, the Sears Spur.

Approximately 25 students are now members of the scholarship organization.

Alpha Zeta

To promote the interest of agriculture is the purpose of Alpha Zeta, honorary agricultural fraternity chartered at State 30 years ago. Headed by President Kenyon Payne, the club this year sponsored two smokers, two banquets, and awarded a gold medal to the outstanding freshman agricultural student.

Another activity of the group is to publish an annual news letter informing the actives and alumni of the chapter's progress. A stag dinner is held each fall while Alpha Zetas and their dates usher in spring with a dinner-dance.

To be eligible for membership in the ag organization, a student must have completed at least three semesters of college work, be in the upper two-fifths of his class scholastically, and possess character, personality, and leadership qualities. New members are selected each semester. They must be approved by at least half the group with no negative votes cast against them. Ag students consider it a high honor to be voted into Alpha Zeta.

Milling Association

When a student enrolls in State's distinctive department of milling industry, he becomes a member of the Milling Association. The purpose of the organization is to create good fellowship and harmony among students of the department.

Twice each month, the group hears a speaker from some other agricultural department. A softball team was sponsored by the association this spring, and before school was dismissed, the group had a picnic.

Alpha Mu

Having the distinction of being the only chapter of a national organization is Alpha Mu, honorary milling fraternity at State. Membership is based on scholarship and leadership, with emphasis on interest in the active field of the industry.

Each semester the organization publishes a news-letter which goes to alumni and members. This year a show case displaying the evolution of milling was erected in East Waters Hall. The group assists during annual milling conventions at the college.

Ag Ec Club

To further a spirit of good fellowship among the members, the Agricultural Economics Club, one of the largest organizations of the Division of Agriculture, has a smoker each fall and a steak fry which is "second to none" each spring.

Membership in the club is open to students enrolled in the curriculum of agricultural administration or in the curriculum of agriculture with a major in economics. Faculty members in the agricultural section of the department of economics and sociology are also eligible to join the club.

Meetings of the club are conducted twice each month. Out-of-town speakers and members of the faculty are chosen to appear before the group.

Officers of the association this year were Leonard Schruben, president; Earl Miller, vice-president; John McCoy, recording secretary; and Evans Banbury, corresponding secretary. Harold Fox was treasurer first semester while Allen Clark filled that position second semester.

Dr. W. E. Grimes, head of the department of economics and sociology, is faculty sponsor of the organization.

Collegiate 4-H Club

A membership of approximately 400 students makes the Collegiate 4-H Club the largest social organization on the campus. The main purpose of the club is to develop leadership among its members.

The club attempts to attract 4-H members to State and "lends a guiding hand" to them during their stay. In order that 4-H members need not halt club activities upon entering college, the collegiate group was organized in 1927.

One of the many activities of the club is the publication of "Who's Whoot," yearbook of the organization's work over the state. The book is distributed to all members.

Four social functions a semester are arranged by the organization's program committee. Two of these are held on the campus and two are staged elsewhere. Chief among the social highlights are the dinner in the fall and a spring formal.

First semester officers were Charles Kern, president; Arthur Bell, vice-president; Ruth Avery, secretary-treasurer. Heading the group second semester were Arthur Bell, president; Kenneth Edward Johnson, vice-president; Betty Brown, secretary-treasurer.

Activities Are Many

Each Saturday noon members of the Collegiate 4-H Club go on the air, broadcasting a one-hour radio program for Kansas farmers over station KSAC.

To aid needy students meet expenses of tuition, the local organization maintains a loan fund of $1,500 for members. The money is handled through the alumni student loan fund in charge of Kenney L. Ford, alumni secretary.

Instrumental in bringing hundreds of boys and girls to the Kansas State campus each spring for the Rural Life Conference is the collegiate group. The club also assists at the annual 4-H Roundup each summer.

A feature at the annual spring formal of the club is the announcement of the two members chosen for their outstanding service to the organization during the year. Usually, the presidents of the club for both semesters are recognized.

It is not necessary for a student to have belonged to a local 4-H club to be eligible for membership in the college organization, but most collegiate members are ex-club workers.

M. H. Coe is faculty sponsor of the Kansas State group.

Who's Whoot

Early in April, the 1939 edition of Who's Whoot went to the presses . . . then to 4-H'ers over the state. This 4-H Club annual is published by the Collegiate 4-H Club under the direction of an elected staff. In charge of the book this year were Fred Talbot, editor; Gwen Romine, assistant; Alice Gulick, business manager; Bob Swartz, assistant business manager.

Dairy Club

Sponsoring the dairy cattle show at the Little American Royal is the main project of the Dairy Club, but the organization also is in charge of two judging contests for student dairymen and honors an outstanding high school student each year. Officers were Merle Parsons, president; Walter Leland, vice-president; Nowell Robb, secretary-treasurer.

Omicron Nu

Omicron Nu is a national home economics professional society composed of the upper 20 percent, scholastically, of second semester junior women and senior women.

The organization sponsors a large number of projects for the benefit of students at Kansas State, particularly for students in Home Economics.

This year Omicron Nu was active in the local drive to aid Chinese refugee students giving donations to the Far Eastern Emergency Relief Fund for that purpose. It is their usual custom also, to give a gift of money to some foreign student attending Kansas State College.

In addition, they maintained a borrowing library for the general use of students; sponsored tutoring for those home economics students who needed it; gave their annual homecoming tea for home economics alumnae.

A new project this year was the maintaining of an art collection from which any senior girl could check out object d'art for the beautification of her room during the school year.

Loving Cup Given Freshman

Each year Omicron Nu presents a loving cup and $10 to the freshman girl receiving the highest grade average in the Division of Home Economics.

IN THE CALVIN study the executive group meets informally.

Constance Patricia Thurston, a freshman in Home Economics in 1937-38, received the award this year for her freshman record.

Executives this year were Stella Beil, president; Arlene Waterson, vice-president; Helen Beth Coats, secretary; Ailine Hanson, treasurer; and Mary Frances Davis, local editor of Omicron Nu, national magazine. Miss Alpha Latzke is the faculty sponsor of the society.

The organization, one of 37 chapters in the United States, meets at least twice a month.

Omicron Nu members serve as guides during the Hospitality Days when high school students from all over the state visit the Division of Home Economics' exhibits.

Home Ec Club

Governed by the Home Economics Executive Committee, the Margaret Justin Home Economics Club is divided into numerous sub-division groups.

Executive officers are: Dorothy Olson, president; Elizabeth Allbee, vice-president; Margaret Ansdell, secretary-treasurer. Remaining members are chairmen of these committees and boards: lecture, tea, bulletin and lounge, dietetics, Hospitality Day, homemaking colloquia, art colloquia, nursing induction, art induction, publicity, hostess and friendship.

Miss Iva Mullen and Miss Margaret Raffington are faculty sponsors.

Elizabeth Allbee, vice-president of the executive group, acts as chairman of the Counsellors, one of the more important groups. Organized for the purpose of freshman counselling, this group of junior and senior girls, under the direction of Miss Raffington, carry on orientation work with freshman girls in Home Economics.

A new activity of the Home Ec Club this year was the sponsoring of a mimeographed divisional magazine, "Betty Lamp."

TWO BETTY LAMPS ore the center of decorotions at the onnual Christmos tea of the Home Economics Club. The first issues of "Betty Lomp," divisionol mogozine, were distributed ot the tea.

Junior A. V. M. A.

Only students of veterinary medicine who are approved by 90 per cent of the organization's members are eligible to join the Junior American Veterinary Medical Association at State.

The professional organization convenes twice each month and has as speakers well known persons interested in veterinary work.

Dean R. R. Dykstra has been faculty sponsor of the organization since the installation of the Kansas State chapter in 1906.

But the activities of the Junior A.V.M.A. are not restricted to the animal hospital and campus. Members throw off white coveralls and don their "best" for the "Javmarack" party in the fall and the annual dinner-dance in the spring . . . both strictly for vets and their dates.

At the spring banquet, the organization announces the winners of various prizes. These awards include the Harwood prize in physiology; the Salisbury prize in therapeutics; the Franklin prize in pathology; the Schmoker prize in efficiency; and the Bower prizes in pet animal medicine.

AN INITIATE of the Junior A.V.M.A. receives a "love-tap" from an active. The initiatory rites are some of the toughest, but the smiles on the faces of the actives show they get a big "boot" out of the affair.

A Friendly Clash

It was far from being an activity of Junior A.V.M.A., but the vet and ag students had "friendly" clashes preceeding Ag Barnwarmer this fall. By tradition, ag students wear overalls the week previous to their annual party. Students failing to heed the custom get "ducked" in a provided horse-tank. But misunderstanding occurred when vet students, dressed in white coveralls, were mistaken for ags and subjected to the tank—clothes and all. The result was a fistic inter-divisional battle which was short-lived. Even the participants admitted it was all in fun.

The vets stepped into the political limelight this year when Russell Leeper was elected to the student council and then chosen president of that body.

Heading the Junior A.V.M.A. the first semester were Guy Railsback, president; Frank Stodemire, vice-president; Victor Beat, secretary; Clare Hamilton, treasurer. Second semester officers were Norwood Casselberry, president; Donald Mossman, vice-president; Forrest Clark, secretary; and Russell Leeper, treasurer.

A GLIMPSE of the octivities which took ploce during the vet-og closh preceeding Ag Bornwormer lost foll. Someone is down—either on overolled "ag" or a coverolled "vet."

DOROTHY BLAESI speaks to members of the Browning Literary Society at a regular meeting.

Athenian Society

Thomas Neill, representing the Athenian Literary Society, won the inter-society oratorical contest this year. To foster better speech, oratory, and debate is the three-fold purpose of the organization, established at State in 1906. It also teaches appreciation of literature and music.

Besides weekly meetings, the society sponsors an annual banquet with the Browning Society and has several picnics.

Heading the organization this year was Morris Phillips.

Browning Society

To further the interests of literature and to provide speaking experience are the chief duties of the Browning Literary Society. At each of the weekly meetings, two members of the women's society read a paper which they have prepared.

Dr. A. A. Holtz was the speaker at the group's annual banquet. Several social functions are held each year in conjunction with the Athenian Society.

Golda Gish and Naomi Fent were presidents of the organization first and second semesters, respectively. Miss Helen Elcock, of the department of English, is the faculty sponsor.

TO KAPPA KAPPA Gamma goes the loving cup for their "Modern Mode in Melody" stunt, as Virginia Johnson (left) presents the trophy to Claire Rickenbacker, Kappa representative.

PHI DELTS (below) disguised as the world's prominent dictators, made the decision a difficult one for the judges.

Aggie Pop

By Marie A. Forceman

"IN the Modern Mode" was the streamlined theme of the twenty-third Aggie Pop, annual competitive stunt night, presented by Y.W.C.A.

Hill-billies, European dictators, toe dancers, a sweet shop, singing, Romeo and Juliet, and collegiate dates were dramatized by seven Panhellenic groups, under the direction of H. Miles Heberer.

The seven participating organizations were judged on number of participants, artistry, finish, originality, and cooperation. First place in the fraternity class went to Beta Theta Pi. The sorority awarded the loving cup was Kappa Kappa Gamma.

WASHBOARDS, jugs, and tin instruments played by the "Barefooted Beta Boys" showed how hill-billy bands can play a part in world politics today. Cliff Stone (left) acts as master of ceremonies for Beta Theta Pi.

"LOVE ME OR Leave Me" were the sentiments of the Alpha Tau Omegas in their act cancerning the philandering wife and avenging husband. Tad Benson (right) gets rid af his campetitian in the prize-winning short act.

MEMBERS af Independent Student Union aid Vernan Rectar as he sings a number appropriate ta the western setting af their act "Wagan Wheels."

Y-Orpheum

Y-Orpheum, formerly known as Ag Orpheum, made its nineteenth annual appearance this spring on March 3 and 4. This student presentation, sponsored by YMCA and directed this year by Norman Webster, has come into the radius of student reform to get its traditional name changed—henceforth to be known as Y-Orpheum.

This year's Orpheum featured acts by five social organizations, the girls' glee club, and Matt Betton and his band. Clovia and Alpha Tau Omega competed for the cup given for the best short act. Independent Student Union, Pi Beta Phi, and Sigma Phi Epsilon competed for the long-act trophy. ATO and Pi Phi won the trophies.

FOR ITS LONG act "Midnight in a Music Shop," Pi Beta Phi was awarded the large gald trophy. Margaret Wilsan (right) watches the apache dancers, Lenora Ash and Fred Small.

Y.M.—Y.W.

TO KANSAS STATE this fall came one of the most sought-for speakers in the world today, E. Stanley Jones. Doctor Jones, (left) internationally known Christian statesman, leans down to smile and shake hands following his lecture, "The Christian and Science."

SPECIALIST in the field of Christian marriage and youth problems, Grace Sloan Overton spoke to record audiences during the University Christian Mission. Loyal Payne, Dorothy Olson, Dean Mary P. Van Zile and Helen Beth Coats (left) smile at Mrs. Overton's dry humor.

A COMBINED Russian-Chinese-Mexican-Japanese atmosphere pervaded in Recreation Center last December when the Y.W.C.A. sponsored the Christmas Bazaar.

Goods for the bazaar were obtained directly from the foreign countries through exporting companies.

Sponsored

MORE THAN 500 women played get-acquainted games and danced in each of the 28 college sister groups at the annual YWCA college sister party early last fall. The party inaugurated extensive activities on the part of upperclasswomen in welcoming their freshman little sisters.

UNDER THE joint direction of YWCA and YMCA, Christmas assembly this year featured a presentation of Dickens' "Christmas Carol," and music by the college band and glee clubs. Members of Professor Edwin Sayre's glee clubs (right) filled the auditorium with Christmas spirit by singing the old familiar carols.

AMONG FOUR widely-known speakers headlining the twentieth annual Christian World Forum sponsored by the YM-YWCA organizations at Kansas State, was the Rev. Bradford S. Abernethy of Columbia, Mo. Conversing with Mr. Abernethy are (left to right) Kenneth Conwell, Neal Jenkins, Worth Linn, and Harriett Sharpe.

Y. W. C. A.

Socially and spiritually, Y. W. C. A. influenced the lives of 729 coeds this year. K-State's "Y. W.", with Ruth Haines as executive secretary and Helen Beth Coats as president, was responsible for several retreats, a weekly radio program, the Christmas bazaar, freshman commission, student and world forums, Aggie Pop, and college sister groups with Ruth Scholer and Betty Higdon, co-captains.

The other officers were: Ruth Scholer, vice-president; Jean Scott, secretary; Fern Bair, treasurer.

Y. M. C. A.

Y. M. C. A., the largest men's organization on the campus, supplies both religious and recreational activities. The interests of this group range from dime dances, general information service, all school mixer, employment bureau, and gospel teams, to the watermelon feed and football kick-off. Band Day is one of the big projects of "Y. M." They also sponsored programs between halves of basketball games this year.

Dr. A. A. Holtz is executive secretary and Kenneth Conwell served as president during 1938-39.

OFFICERS OF NEWMAN Club were: Victor Beat, president; Betsy Phelan, vice-president; Helen Chambers, secretary; Ray Bukaty, treasurer.

Newman Club

Newman Club affords all Catholic students at State the advantages of religious training and instruction that could be received from attending a Catholic college. More than 200 members took part in the Sunday morning breakfast meetings, picnics, receptions, and dances this year. A weekly study club had a regular attendance of about 55. This year the club, under the direction of the Reverend E. J. Weisenberg, St. Marys, had as its discussion subject, "The Church and Modern Problems."

Wise Club

Pancake feasts, picnics, Sunday night supper meetings with faculty or out-of-town speakers, all provide fun as well as Christian fellowship for members of Wise Club, Episcopal student organization.

Officers first semester were: Carter Anthony, president; Alice Hummel, vice-president; Conner Hopkins, secretary-treasurer. In office second semester were: Alice Hummel, Dorothy Axcell, and Robert Dubois. Sponsors of the club are Miss Emma Hyde and Miss Dorothy Barfoot.

Phi Chi Delta

Personalities of famed Christian leaders offered material for the semi-monthly study groups of Phi Chi Delta, Presbyterian organization for college women. Edith White headed the sorority this year with Edna Heaton as vice-president; Elaine Salisbury, secretary; Helen Merryfield, treasurer; Mildred Dodge, historian; Ethel Lienhardt, chaplain; Betty Lou Fisher, guide; Helen Hood, reporter; and Olga Knapp, program chairman.

Sponsor of Iota chapter is Mrs. W. U. Guerrant. Miss Jessie McDowell Machir is patroness.

Phi Alpha

Interested in promoting closer ties among Presbyterian college men is the aim of Phi Alpha. Once every month the organization meets at Westminister House for an informal dinner meeting, at which time a local or out-of-town business man speaks regarding vocations open to college graduates. The Reverend W. U. Guerrant and Prof. E. V. Floyd sponsor the group consisting of nearly 35 young men.

Officers this year were Harry Buchholtz, Murrell Whitenack, and Bertel Soderblom.

PHI ALPHA—Top row: John D. McClurkin, Lyle H. Knapp, Robert E. Loebeck, Warren W. St. Pierre, Donald G. Moss, George J. Fetters, Bertel E. Soderblom, Edward P. Smith, Hamel K. Gamma Delta

Establishing closer ties among college students of the Missouri Synod Lutheran Church, Gamma Delta, one of the charter chapters, was established at Kansas State in 1934. Sunday night supper meetings are held bi-monthly. The group consisting this year of 30 members, is sponsored by the Reverend H. H. Frohn.

Holding office this semester were: Wilbert Duitsman, president; Glenn Kruse, vice-president; Alvina Licht, treasurer; Rhoda Putzig, recording secretary; John Frohn, corresponding secretary.

Lutheran Student Association

A newcomer among State's religious organizations is the Lutheran Student Association, installed November 1, 1938. Although L.S.A. is still in its infancy, bi-monthly meetings and a Sunday night supper meeting each month have made it a strong and active organization of 50 members. Miss Inez Ekdahl is advisor to the group.

Officers: C. W. Blackburn, president; Harold Grote, vice-president; Lois Hanson, secretary; Oliver Miller, treasurer; and Marie Forceman, reporter.

Theta Epsilon

The Baptist girls' group, Theta Epsilon, celebrated the tenth anniversary of the installation of the local Delta chapter this year. The girls, with their sponsors, Mrs. A. A. Holtz, Mrs. C. F. Lewis, and Miss Stella Harriss, meet twice a month.

This year's officers were: La Verne Schroeder, president; Lucille Mollhagen, Dorothy McKeen, and Corinne Corke, vice-presidents; Helen Tipton, recording secretary; Ruth Baldwin, corresponding secretary; Deborah Sharp, treasurer; Luella Siek, financial secretary; Clarice Gosney, historian.

B. Y. P. U.

Baptist Young People's Union consisted this year of 50 active members. Parties, picnics, and hikes provide social companionship for the college young men and women composing the organization sponsored by Dr. and Mrs. A. A. Holtz. Religious ideals are interpreted each Sunday in the women's Bible class, Philothea, of which Deborah Sharp is president and in the Baraca class of men, with Allen Smoll as president.

Officers: Eugene Damer, president; W. O. Breeden, vice-president; Sarah Ann Pence, secretary.

Kappa Beta

Celebrating its twenty-fifth anniversary this year, Kappa Beta, national sorority for Christian women, was hostess to the national convention in April. Sponsoring the group are its organizers, the Reverend and Mrs. J. David Arnold. The organization, consisting of nearly 40 members, meets twice each month.

Heading the group this year was Florine Langenegger, president.

Christian Endeavor

Christian Endeavor is the largest of the four student organizations of the Christian church. At 5:30 o'clock Sunday evenings the 150 active members have a discussion and supper meeting at which problems pertinent to young people are brought out. Mrs. J. David Arnold is advisor to the group.

LeRoy Culbertson was president of the organization this year.

Phi Tau Theta

To create a more intimate spiritual feeling among Methodist young men is the aim of Phi Tau Theta. Formerly known as the Methodist Young Men's Club, it became a chapter in the national organization in May, 1937. The meetings twice a month are both educational and religious. The group, being particularly interested in athletics, has a team which participates in college intramurals.

Officers this year were: Norman Young, president; Martin Hanke, vice-president; Jim Nixon, secretary; Carl Anderson, treasurer.

Kappa Phi

"Every Methodist woman in the university world of today is a leader in the church of tomorrow," reads the aim of Kappa Phi, national organization of Methodist college women. Kansas State's Iota chapter, the largest in America, has had the theme "Waterways" as the basis of discussion meetings this year.

Officers for the year were: Arlene Waterson, president; Martha Emery, vice-president; Jocelyn Parsons, recording secretary; Floy Toothaker, corresponding secretary; Margaret Owen, treasurer; Ruth Keys, chaplain; Lois Gwin, historian; Edna

OFFICERS OF Wesley Foundotion ore: Bill Hanstead, president; Ruth Cachran, vice-president; Vivian Andersan, secretary; Earl Malzen, treasurer.

Wesley Foundation

The largest Methodist student organization on the hill is Wesley Foundation. "Saturday Niter" fun fests, an a cappella choir, orchestra, and the athletic club are a few projects of the Foundation.

This year a new discussion period called the "Fireside Chat" was held every Sunday evening at Wesley Hall. Charles Horner directed the orchestra, and Buford Roper had charge of the a cappella choir. The Foundation, of which 1,700 Methodist preference students are members, is sponsored by the Reverend and Mrs. B. A. Rogers.

Good Fellowship Society

Monthly social parties, Sunday night vesper studies, and weekly discussion groups formed the program of the Congregational Good Fellowship Society.

Officers were: Merle Knepper, Ruth Burnet, Mary Guy, John Foster, Rose Harman, Margaret Leger, Bert Gardner, and Velma McGaugh. Ruth Burnet was president second semester with Tom Redding, Orville Burtis, Charles Carter, Doryce Chapin, Marvin McGuire, Cornelia Burtis, and Bob Wichser comprising the board.

Cooperative Living at Van Zile

APPROXIMATELY 130 girls live, work, play, and study in the large limestone dormitory at the extreme northeast corner of the campus. Named after the present dean of women, Mrs. Mary P. Van Zile, and built in 1927, the girls' residence hall incorporates the latest in convenience and comfort. Mrs. Nina M. Rhoades is social director.

Providing facilities for girls to work to pay part of their expenses, the cooperative system is extremely popular—so much so that a long waiting list is kept in the dean's office. The coeds do all the cooking, cleaning, serving, and other duties during their 30 hours of work a month. Seniors in institutional management supervise the work.

OPEN HOUSE at the dorm is a "get-acquainted" time for the fall newcomers.

NEARLY 130 girls eat together in Van Zile's huge dining hall three times each day.

WARM, FALL DAYS brought aut many "nan-args" ta find fellawship at the I.S.U. hause. Launges with radias, baaks, and magazines pravide places for restful relaxation at the house.

AT THEIR CHRISTMAS tea members entertained faculty, tawns-peaple, and prominent students whose interest has aided the grawth af I.S.U. fram a group af 60 to an organizatian af 400.

Independent Student Union

KANSAS State's youngest and largest entirely social organization is the Independent Student Union, founded February 3, 1937, to provide a social home for non-Greek students.

Entirely self-supporting and self-directing, the I.S.U. has nearly 400 members and maintains a house at 1334 Fremont. Officers were Gordon Molesworth, president; Gene Craven, vice-president; Ethel Haller, Secretary; and Frank Paulson, treasurer.

Senior Men's Panhellenic

SENIOR fraternity members took to the harness with a burst of vigor this year instituting new rushing reforms, sponsoring the Homecoming decorations' contest and Inter-fraternity sing, broadcasting the Panhel winter dance for the first time, and instituting informal smokers where representatives and fraternity advisors discussed Greek problems.

Two freshmen from each fraternity make up Freshman Panhellenic, little brother to the senior organization.

First semester officers: Joe Newman, president; Bill Miller, vice-president; Bob Kauffman, secretary-treasurer. Second semester the officers were: Gay Tuis, Albert Henry, and Bob Kauffman.

Women's Panhellenic

REVISING rushing rules has kept Women's Panhellenic busy for several years, and it still continues. The yearly program includes, besides the management of rush week, cooperation with Senior Men's Panhellenic to make a success of the annual inter-fraternity sing, assistance wtih the extra-curricular activities survey, and solution of sorority problems.

A delegation was sent this year to the convention of Panhellenic councils from the colleges and universities of the region at Missouri University in early April. Dean Mary P. Van Zile, Betty Boehm, president for 1939-1940, and Jennie Marie Madsen were Kansas State's representatives at the convention.

Officers this year: Ann Wright, president; Betty Boehm, vice-president; Betty Higdon, secretary-treasurer.

ALPHA DELTA PI

YOU COULDN'T TELL it from the real stuff—that cotton snow ceiling in the Wareham Ballroom at the A D Pi Christmas formal.

FIRST SEMESTER FINALS are forgotten for an hour when the girls at 518 Sunset take to the fireplace corner for a bit of campus chatter.

ALPHA ETA CHAPTER

IN the early spring dusk of evening if you drive along Sunset, you'll hear the soft "I Love the Pin" being harmonized from the Alpha Delta Pi south terrace. It's an old tradition, that lovely, singing-on-the-porch custom. Just such a tradition are the A D Pi annual Washington birthday breakfasts, those luscious Sunday night suppers, and Christmas and Thanksgiving adopting a poor family.

Winning intramural honors has almost become a custom too. This year the girls at 518 Sunset took first in intramural dancing, second in volley ball and saw that Prexy Maxene Richardson was president of W.A.A. Popularity of Maxines is traditional too—Maxine Danielson placed second in the Royal Purple beauty contest.

Alpha Delta Pi, founded at Macon, Georgia, in 1851, established the Alpha Eta chapter at Kansas State on September 30, 1915 . . . . the thirty-first of their 57 chapters. Alpha Eta caught the national eye this year when Mrs. John V. Hepler, K.S.C. graduate and wife of Assistant Professor Hepler of the Division of Extension, was appointed province president. All Theta province journeyed to Manhattan for a convention May 13 and 14.

At the end of rush week 12 new pledges wore the gold bar bearing the letters B Y A and surmounted by the lion head. Officers this year: Maxene Richardson, president; Margaret Cook, vice-president; Charlotte Jones, secretary; and Ruby Randall, treasurer. Mrs. Ransom Stephens is housemother.

ALPHA XI DELTA

A COZY NOOK IN the living room provides o good place for Prexy Boird to tell the pledges a thing or three.

"THIS IS THE LIFE," soy the Alpho Xi Deitos os they relox before the fireplace in their new home on West Laramie.

ALPHA KAPPA CHAPTER

"WHEN are you going to move into your new house?" was the official greeting every Alpha Xi received this fall. Architects, stonecutters, painters, and decorators rushed the lovely white, Georgian Colonial house to completion for occupancy by Christmas . . . the newest thing in sorority houses on Kansas State's campus.

The Alpha Xi Deltas had their minds on things besides the new home however. They came through class elections scoring one with Elizabeth Burchinal as sophomore treasurer. Another Elizabeth—Brooks by name—rose to shine in almost every activity a junior girl could and chairmanned Home Economics Hospitality Week in the late spring.

Alpha Xi Delta, founded April 17, 1893, at Galesburg, Ill., established Alpha Kappa chapter in Manhattan on June 1, 1922, one of 56 chapters. Every two years the national organization gives a fellowship of $1,000, through the American Association of University Women, to some woman outside the membership who desires to pursue advanced studies in medicine or the social sciences.

On the college faculty, Miss Dorothy Barfoot, Miss Alice Kimball, and Miss Marjorie McCall are members of Alpha Xi Delta. Officers this year: Georgene Baird, president; Edith M. CHI OMEGA

"DARLING DRESS!" the Chi Omegas exclaim as a sister in the band comes down dressed for dinner—ta wait for the gang.

"YUM YUM!" POPSICKLES and apples, sweaters and shorts, bonfire and stars . . . the Chi Omega annual fall picnic.

KAPPA ALPHA CHAPTER

HOMECOMING Day at Kansas State wouldn't seem natural any more without a Chi Omega riding around the track in a sleek black automobile. This year it was Joan Nethaway, first attendant to the queen. Last year Jeanne Underwood, and the year before Dorothy Ann Uhl wore the crown awarded by Blue Key.

Wearers of the X and Horseshoe almost had a monopoly on crowns this year. The Ags chose Ethlyn Marks for their halo of roses; Don Ameche chose Marjorie Jacobs as queen of beauty for ye olde booke; and the military department found two honorary cadet majors, at the house on the corner of Eighteenth and Laramie.

On September 5, 1915, Chi Omega established its thirty-seventh chapter, Kappa Alpha, at Kansas State. That was the year the national organization was celebrating the twentieth anniversary of its founding at the University of Arkansas in 1895.

The most worthwhile contribution of Kappa Alpha to campus life has been the annual $25 award to the outstanding student in sociology. The chapter's advisor has made her contribution as well. . . . Dr. Mary T. Harman received national recognition as author of a zoology textbook and for her other scientific contributions in the Who Who's for American Women.

CLOVIA

BEFORE THE OPEN fireplace of their new home at 303 North Sixteenth are four Clovias, relaxing and reading after a day on the hill.

ALMOST ANY EVENING after dinner you can find just such a group as this gathered around the piano in the Clovia living room.

ALPHA CHAPTER

CLOVIA is a social sorority, but it is more than that. It is a cooperative organization for a group of girls, mostly 4-H Club members, who do all their own cooking, cleaning, room decorating, and planning.

An active interest is taken by the group in Collegiate 4-H work on the campus in such capacities as officers in the organization and as staff members on the 4-H publication, "Who's Whoot." Eena Carlisle and Ruth Avery were members of the Meats Judging team this year, and Ruth was chairman of the religious instruction course which Y.W. offered as training for senior women.

Under the leadership of M. H. Coe, state 4-H Club leader, Clovia was organized on September 4, 1931, to bring together 4-H Club girls so that they could get better acquainted and live more economically. Membership is no longer restricted to 4-H members, and the organization is working on an expansion program to place Clovia chapters in other Mid-West schools.

Faculty members of Clovia include M. H. Coe, Miss Gertrude Allen, Miss Mary Elsie Border, and Miss Mabel Smith.

DELTA DELTA DELTA

"HOW DO YOU DO," Mory Isobel Smith greets two guests ot Ponhellenic open house. Prexy Ober, left, ond Mother Pehling, you con't see her, olso received.

IS IT THE FOOTBALL teom ploying swing music, or Betton's boys ploying football? Neither. It's the bond in "K" sweoters ploying for the Tri Delt foll sport porty.

THETA IOTA CHAPTER

IF some Saturday afternoon you see a line of shiny, sleek cars and broken-down, rebuilt models parked on the curve at 1834 Laramie, you'll know that the Delta Delta Deltas are tea dancing again in their long, rambling, only all-limestone Greek home on the hill.

If you happened to miss Homecoming this year, you probably heard Blue Key announce via radio from the gridiron that Dorothy Hacker was queen for a day. If you put on your best bib and tucker and took in the Military Ball, you saw two honorary cadet adjutants in the procession, Betty Higdon and Margaret Iverson. If you were at St. Pat's Prom, you applauded Margaret Bunker as St. Patricia.

In short, if you've been around, you know that the Delta Delta Delta dames get around too.

The Kansas State chapter of Delta Delta Delta, founded June 5, 1915, was an outgrowth of a local sorority, Eta Beta Pi, and was made national by the organization which was founded at Boston University on Thanksgiving Eve, 1888. Theta Iota is one of 87 chapters.

Mrs. DeWitt Wallace, founder and editor of the *Readers' Digest,* and Mrs. Henry A. Wallace, wife of the Secretary of Agriculture, are numbered among those who wear the gold crescent and three jeweled stars.

Officers of Theta Iota chapter of Delta Delta Delta this year: La Donna Ober, president; Ruthe Porter, vice-president; Dorothy Mize, secretary; and Mary Isabel Smith, treasurer. Mrs. Henry R. Pehling is housemother, and Mrs. J. W. Skinner is chapter advisor.

KAPPA DELTA

FIRESIDE CHATTING IS just as populor with the Koppa Deltas as it is with F.D.R., especially during the lull that comes between five o'clock and the dinner gong.

PETER PETER PUMPKIN EATER. . . . The K D's had it all over the nursery rhyme man. They put a whole orchestra in a pumpkin shell for their fall formal.

SIGMA GAMMA CHAPTER

KAPPA Delta copped honors in the Home Economics Division this year when Stella Beil, president of Omicron Nu, member of Phi Kappa Phi, and freshman counsellor, was chosen outstanding Home Ec senior woman. Scholarship seems to be the K D's forte of late. City Panhellenic awarded the scholarship cup to the chapter for the outstanding grades among sororities in 1938.

The year was successful politically as well for the girls who live in the white Colonial house at 1716 Fairchild. Mary Anne Pafford, member of the Royal Purple staff, was elected by the junior class as secretary for 1939.

Sigma Gamma of Kappa Delta was chartered on December 4, 1920. It is one of the 69 chapters of the sorority which was founded on October 24, 1897, at Virginia State Normal, Farmville, Va. One of the founders of the local chapter was the nationally known psychologist and writer, Dr. Orpha Maust Lough.

Miss Kathleen Knittle, right hand woman to Dean Mary P. Van Zile, is a member of the local chapter, as are Mrs. Laura Baxter and Miss Florence Stebbins, Kansas State faculty members.

Officers this year: Mathilda Rempel, president; Jane Roderick, vice-president; Wanda McKeeman, secretary; and Mary Anne Pafford, treasurer. Mrs. Lola Montgomery is housemother for the chapter.

KAPPA KAPPA GAMMA

A LITTLE APPLE POLISHING in a formal way can always be achieved by teaing. This is how the Kappas entertain the faculty and townspeople of a Sunday.

AMID THE DARK BLUE and light blue trimmings and the strains of Matt Betton's archestratians, the KKG's did swing and sway at their Winter formal.

GAMMA ALPHA CHAPTER

SEATING a Kappa Kappa Gamma in the president's chair for many a campus organization was the lively pastime this year for the girls in the shuttered red brick mansion at 517 North Delaware. Their roster of presidents includes: Helen Beth Coats, president of Y.W.C.A.; Frances Gebhart, president of Mortar Board; and Carrie McLain, president of Prix.

Exotic Jane Kininmonth in sophisticated black, crooning "My Reverie" with her sisters in KKG forming a choral background in white, expressed the "Modern Mode" in music to the delight of the audience and to the satisfaction of the judges of Aggie Pop. The silver loving cup for the best sorority act went to the wearers of the Kappa key.

Gamma Alpha of Kappa Kappa Gamma was chartered in 1917, one of the 73 chapters of the national organization which was founded in March, 1870, at Monmouth College, Ill. The founders were only two months behind, or they would have been the creators of the first Greek named fra- for women.

The Kappas started taking the limelight early at Kansas State this year when they put the ribbons of blue "of the sky and the sea" on 24 pledges at the end of rush week, ten more than the runner up.

Officers this year: Mary Jane Foulston, president; Margery Morris, vice-president; Betty Bonnell, secretary; and Elizabeth Allbee, treasurer. Mrs. Lillian Mavity is housemother for the group, and Miss Florence James and Miss Dorothy Pettis are faculty members of Kappa Kappa Gamma. Mrs. E. D. Sayre is the chapter's advisor.

PHI OMEGA PI

THERE'S JUST TIME TO read the comics ond leof through o mogazine before dashing off to on eight o'clock closs.

RUTH BURNET TEASES the ivories while her sisters lend their voices to the procticing of Phi Omego Pi songs.

KANSAS STATE COLLEGE CHAPTER

WHEN Phi Omega Pi first came to Kansas State's campus, membership was limited to members of the Eastern Star. Four years later this restriction was dropped, but a Masonic relationship was retained until 1929 when all such restrictions were dispensed with. Phi Omega Pi was admitted to full membership in the National Panhellenic Congress in October, 1933.

Outstanding this year among members of the local chapter of Phi Omega Pi were Catherine Siem, president of the sorority, treasurer of Enchiladas, and member of the Purple Pepsters, Frog Club, Orchesis, and W. A. A.; and Verna May Ward, former president of the organization, and treasurer of the sophomore class during the year 1937-1938.

Kansas State College chapter of Phi Omega Pi was made national May 31, 1923. It was the outgrowth of a local club known as the Eastern Star club. The local organization is now one of the 54 chapters of the sorority which was founded at the University of Nebraska on March 5, 1910.

Mrs. Wm. M. Jardine, wife of the former president of Kansas State is a member of Phi Omega Pi. Lora Hillyard and Anna Marie Sturmer, members of State's faculty, wear the irregular pentagon holding a five-pointed star set with a sapphire, the badge of the sorority.

PI BETA PHI

CAMERA SHY SOCIETY Editor Marty Black, amid the Pi Phi Christmas farmal star decaratians, misses Bunt Speer's warning and ducks taa late.

SIPPING SUNDAY TEA with the 97 fresh-fram-rush week pledges ta all the sararities is fun ance a year, think the Pi Beta Phis.

KANSAS BETA CHAPTER

SOCIETY note: And the Pi Phis entertained . . . the football team at dinner, pledges from all sororities at tea, their favorite all-time or for-the-moment dates at a Jam Session, Manhattan's needy children at a Santa Claus party.

Meanwhile they provided the campus with smarties like Kistler, who made the highest freshman grades and plays leading roles in theatre productions, and Mary Fran Davis who makes all A's and is tops in everything—all-around girls like Y W President Jean De Young and Honorary Colonel Virginia Baxter, and artists like Margaret Wilson, bride in "Trial by Jury" and "the voice" in "Midnight in a Music Shop," winning Y Orpheum stunt.

In 1915, year full of sorority foundings at Kansas State, on June 3, Pi Beta Phi, which began as the I C Sororis at Monmouth College, Ill., in 1867, established the Kansas Beta Chapter, one of 80.

For the past two years Kansas Beta's chapter advisor, Mrs. E. L. Holton, has been director of the Pi Phi Settlement school which was established at Gatlinburg, Tenn., in 1912.

Officers first semester: Susanne Long, president; Virginia Baxter, vice-president; Betty Lou Fisher, secretary both semesters; and Mary Frances Davis, treasurer both semesters. ZETA TAU ALPHA

HANGING THE SHIELD and coat of arms in exactly the right spot over the fireplace in the new house tokes the attention of three ZTA's.

TIME AND PLACE FOR a little chic chatter and campus talk is found before dinner and in a cozy corner of the living room at the Zeta house.

BETA UPSILON CHAPTER

MOVING year for the Greeks meant some changes for the Zetas also. For the first part of the year, while national was negotiating for a new abode, the ZTA's took residence in the red brick house at 1446 Laramie and did their dining out. But before second semester the new West Leavenworth, hilltop home had been purchased and furnished, and the Zeta Tau Alpha chapter moved in.

This moving-about, unsettled atmosphere didn't cramp the Zeta's style, however, for they were right in the swim of class elections, and Betty Boehm, chapter president, was chosen vice-president of the sophomore class.

Kansas State's newest national sorority, Beta Upsilon chapter of Zeta Tau Alpha was formed on May 4, 1931, one of 61 active chapters of the national organization which was founded at Virginia State Normal School, Farmville, Va., in 1898. Beta Upsilon of Zeta Tau Alpha was the outgrowth of the local organization Alpha Theta Chi.

Chapter Advisor Alpha Latzke and Professor of Home Economics Education, Who's Who among American Women Lucile Rust are faculty members who wear the shield of Zeta Tau Alpha.

ACACIA

THIS AIN'T NO BARBER'S callich . . . it's just a candid cameraman's idea af twa Acacia Beau Brummels duding up far a Friday night varsity.

IT WAS CAMPUS GOSSIP that a New Yarker, stopping aff far a snack, fainted when the Indians fram the Acacia party raided Scheu's at intermissian.

KANSAS STATE COLLEGE CHAPTER

WHEN the Greeks made the big splash on class election day, Acacia came through with flying colors. The seniors chose smiling Earl Clark as president of the class of 1939 and protector of the class-colors crook. Fraternity cooperation is another noteworthy contribution of the organization. Each year Acacia and Phi Kappa jointly celebrate their friendship at dinner. Next year will be Acacia's turn to "set 'em up."

Acacia's Dr. J. T. Willard this year saw his Kansas State College history on its way to the printer.

On May 7, 1939, the Acacia Mothers' club, Electa, celebrated the first anniversary of its founding and held its second annual meeting at the chapter house.

Kansas State College chapter of Acacia was founded December 6, 1913, one of 28 active chapters. Acacia, established on May 12, 1904, had as a pre-requisite membership in the Masonic order until 1933.

Few fraternities on State's campus boast as many faculty members as can this brotherhood. Chapter Advisor Howard T. Hill, R. J. Barnett, W. R. Brackett, Dr. L. D. Bushnell, L. H. Drayer, V. D. Foltz, Kenney L. Ford, Dr. J. H. Parker, Dean R. A. Seaton, Donald Suggs, Dr. J. T. Willard, and Dr. C. V. Williams wear the right angle triangle of Acacia.

ALPHA ZETA CHAPTER

IF there's a judging team in the Ag Division, there's at least one Alpha Gamma Rho on it. Bill Alsop and Jess Cooper were members this year of the livestock team which journeyed to the Chicago International, tied for first, and brought home the prized bronze bull trophy. AGR's made up the whole meat judging team and three of the poultry team at the same International. Bill Alsop placed fifth in the United States in the livestock show there.

Agriculture isn't the AGR's sole interest, however. They play football too. Shirley Davis, tackle on State's team, made the Kansas City Star's All Big Six team and got official mention on the All American.

The Alpha Zeta Chapter of Alpha Gamma Rho was created at Kansas State February 12, 1927, the thirtieth on the roll of 33. The national organization, founded at Ohio State University in 1908, was an honorary fraternity for men in agriculture until 1917 when it was officially established as a social fraternity for agricultural students. M. H. Coe, state 4-H club leader, Division of Extension, and member of the local chapter, holds the office of second national vice-president. Other faculty members include B. R. Patterson, chapter advisor, Dr. H. E. Myers, Frank Parsons, June Roberts, L. M. Schruben, and George Wellington.

ALPHA KAPPA LAMBDA

IT'S A SERIOUS MATTER, judging by their expressians, all this cramming for final examinatians far, far inta the night.

JUST AS SERIOUS, but a lat mare fun, is a game af ping pang in the recreatian roam at the Alpha Kappa Lambda hause.

IOTA CHAPTER

ALPHA Kappa Lambda came into the spotlight early in the year on class election day when James Peddicord was chosen as president of the junior class. The chapter's wit, Don Thackrey, did his bit the rest of the year with his huckster's cry of, "Equip yourself with a Quip." Don also was one of the "chuckle contributors" to this year's annual.

On the more serious side was the chapter's winning of a trophy given by the national fraternity of Alpha Kappa Lambda for the highest standing in maintenance of fraternity ideals. The Kansas State chapter of AKL has received three such awards in the past eight years, thus entitling the boys to permanent possession of the highly coveted trophy.

Iota chapter of Alpha Kappa Lambda was installed at Kansas State College on May 24, 1930. Iota is one of the nine active chapters of the national fraternity which was founded at the University of California on April 22, 1914. Participation by active members in Christian activities and high scholarship are emphasized as a definite national policy of Alpha Kappa Lambda.

Faculty members of the non-secret order are J. P. Chapman, Dr. J. A. Hodges, Dr. A. A. Holtz, C. O. Price, B. A. Rogers, C. H. Scholer, L. F. Smith, and H. M. Stewart.

KANSAS DELTA THETA CHAPTER

IN THE rootin', tootin', shootin'-est Y-Orpheum yet to be presented on the Kansas State auditorium stage, Alpha Tau Omega placed first as giving the best of the short stunt entries, and Y.W. presented the fraternity with another cup of silver to add to the trophy room.

When the ATO hall of fame list is made up for posterity, the names of Elmer Nieman and Donald Munzer, first string football men, will not be omitted from the list that will include such names as Big Hank Cronkite of some years back. No doubt Freddie Klemp, in a smiling picture as editor of the Kansas State Collegian, will take his place beside the football heroes in the Alpha Tau Omega memory book.

Delta Theta chapter of Alpha Tau Omega was established in Manhattan on October 22, 1920. It is one of the 94 active chapters of the national fraternity which was founded September 11, 1865, at Richmond, Va. The fraternity has not confined its membership strictly to undergraduates and has admitted faculty members when they were otherwise qualified. On State's faculty Dr. John Whitlock and Professor Gabe Sellers wear the cross of ATO.

National president of Alpha Tau Omega is Judge of the District Court Willard M. Benton of Kansas City, Kans.

BETA KAPPA

A COZY CORNER IN A study room of the Beta Kappa house provides a swell spot for catching up an extra-curricular reading.

MANY A TRIP AROUND the country side was made by the Beta Kappa fire truck, but, 'tis rumared, nat ta any fires.

ALPHA CHI CHAPTER

WHEN the juniors hied their studious ways to the booths in Rec Center early in the year and came out with S.G.A. tags which read, "I Have Voted," they cast many a ballot for Beta Kappa's Bob Joyce . . . enough at least to select him as vice-president of the class. Politically speaking the Beta Kappas have done right by themselves for the past two years. At the Student Council election last spring Bill Story, sports editor of the Collegian, was chosen a member of the Board of Publications.

And when the fraternities collected together their muscle and brawn for intramurals, they ran up against Beta Kappa competition in volleyball, competition stiff enough to win the fraternity bracket.

On March 4 last year Beta Kappa installed a chapter at Kansas State to replace the Phi Lambda Theta chapter which had been on the campus for 15 years. Beta Kappa was founded at Hamline University, St. Paul, Minnesota, in 1901, and now has 37 active chapters.

Professor A. J. Mack and Dr. D. C. Warren are faculty members of the fraternity. The Beta Kappa badge, diamond in shape and surrounded by 24 pearls, is pictured this year for the first time in Royal Purple.

BETA THETA PI

OUT OF THE WINTER night into the worm ond colorful Worehom bollroom go the Betos ond their dotes for the Beto Pig donce.

SIX-THIRTY, SAYS THE clock in the trophy room. Just time for one more record before going in to dinner ot 500 Sunset.

GAMMA EPSILON CHAPTER

BE a scholar and a gentleman and a singer to qualify for Beta Theta Pi membership these days. Kansas State College has furnished Oxford University with two Rhodes scholars . . . both Betas. Paul Pfuetze was the first, and now Horton Laude is studying there. Beta singing and swinging in Hillbilly fashion won the fraternity trophy at Aggie Pop, and Beta serenading of an evening won many a heart this year. Big moment in the social career of a State coed is the annual party where she kisses the Pig and receives a Beta Loving Cup.

Intramurals are not to be ignored by a Beta either. Dick Gray ping ponged to championship this year, and the Beta team swam to another victory.

One of the Miami Triad, Beta Theta Pi was founded at Miami University, Oxford, Ohio, in 1839, one hundred years ago, on August 9. Gamma Epsilon chapter of Beta Theta Pi was established at Kansas State October 14, 1914. There are now 89 active chapters of the fraternity.

Former President of Kansas State William M. Jardine, and Senator William E. Borah are members who also wear the diamond on a black enameled, eight-sided shield. Dr. H. H. King, Dr. Myron Husband, Dr. C. W. McCampbell, and C. K. Otis are Kansas State's faculty Beta Theta Pis.

DELTA SIGMA PHI

FRONT AND CENTER—a sailor swings the girl from his favorite port, Hawaii, at the Delta Sigma Phi Sailor's Ball.

LEANING ON THE SHIP'S RAIL to listen to Matt Betton's pianist are the sea-faring Delta Sigs and their cosmopolitan dates.

ALPHA UPSILON CHAPTER

THERE are costume parties and costume parties, but a Delta Sig Sailor's Ball is something different in dances: The Wareham Ballroom a huge ship deck, Matt and his boys fenced in with a rope rail, girls from every port and their favorite sailors . . . color . . . gaiety . . . fun . . . a four-bell dance.

Yes, dancing and politics—that's where they shine, the boys at 1707 Laramie. They made a fine splash in class elections and seated Dean Laramey in the sophomore treasurer's chair. They keep the coeds happy by inviting them to another of their favorite Sunday night suppers at the house . . . buffet suppers with Mother Morgenson hostessing and one of the brothers planning the entertainment.

Kansas State's Alpha Upsilon chapter was established on January 30, 1925. It is one of 44 chapters of the national organization which was founded in New York City in 1899. Among Delta Sigma Phi's prominent members is the Hon. James J. Davis, Pennsylvania senator, who every year presents a cup to the chapter securing the most life members of the endowment fund program. E. A. Cleavinger, assistant professor of farm crops in the Division of Extension, is faculty advisor to the chapter, and C. E. Pearce is another faculty member. On the left lapel of a Delta Sig pledge's coat is worn a white enameled circle displaying a green pyramid. DELTA TAU DELTA

PREXY LARSON TAKES A couple of swats from the poddle of Freshman Kenny Eastman at the annual Poddle Party in the Delto shelter.

VISITING ALUM Ray Ellis demonstrotes the 1939 kibitizing position as he keeps an eye on the bridge ploying in the Delt trophy room.

GAMMA CHI CHAPTER

DELTA Tau Delta's "sacred shelter" made a fitting background for the winning Homecoming decorations this year. The State Wildcat did a fine job of roasting the "Rock Chalk" Jayhawk as Delts pictured it, even though the guess as to the outcome of the football game, where the Delt's Dike O'Neil presented the Homecoming Queen, was a little off.

Again the D Tau D's scored when they sent Dick Hotchkiss to the Armour Tech relays in Chicago. Hotchkiss now shares the 70-yard high hurdle record with a Northwestern track man. Scoring again in another field was Joe Newman, president of Panhellenic, Sigma Delta Chi, member of Blue Key and columnist for a city daily.

May 11, 1919, saw the installation of Gamma Chi chapter of Delta Tau Delta in Manhattan, one of the 74 chapters of the fraternity which was born in 1858 at Bethany College, Va.

On March 3 and 4 this year the local chapter was host to a regional conference of ten chapters, and banquetted them right royally at the Wareham. Gamma Chi has the distinction of having as a member State's President Francis D. Farrell, and as chapter advisor Dean of Agriculture L. E. Call. Frank P. Root, K.S.C. basketball coach, also wears the shield of Delta Tau Delta.

Officers this year: William Larson, president; Robert Mears, vice-president; Vincent Ellis, secretary; and John D. McNeal, treasurer. Mrs. W. W. Davis is housemother at the southern colonial mansion of the Delts.

FARMHOUSE

IT ALL GOES TO PROVE that a study table is quite a versatile piece of furniture after all, especially if used thusly.

THE EVENING PAPER, a glass of water, and a magazine serve to keep the mind off food while the FH boys wait for dinner.

KANSAS CHAPTER

FARMHOUSE has conscientiously maintained the aim of the national organization to take front rank position in social fraternity scholarship. For the past 16 semesters FarmHouse has lead State's social fraternities in scholarship. Individual honor is also sought and gained. At the annual Farm and Home banquet in the spring of 1939 Herman Reitz was chozen the outstanding student in the Division of Agriculture. Reitz was also named winner of the Danforth scholarship, is a member of Phi Kappa Phi, Alpha Zeta, and the apple judging team.

Membership in the fraternity is limited to students taking subjects which can be applied toward a degree in agriculture or related sciences.

Kansas chapter of FarmHouse was established June 2, 1921, the fourth of eight chapters in the national fraternity founded at the University of Missouri in 1905.

Faculty members: F. W. Bell, H. H. Brown, L. L. Compton, C. D. Davis, G. A. Dean, S. W. Decker, C. L. Gish, J. H. Johnson, J. W. Linn, M. Loewenstein, J. W. Mather, Dr. E. C. Miller, J. O. Miller, M. KAPPA SIGMA

AFTERMATH OF A FOOTBALL game . . . the Kappa Sigmas sit around and hash over the plays before they dress for dinner.

DON'T LET IT FOOL YOU, there's nothing but grape juice in those bottles at the Kappa Sig's "Red Dog Inn."

GAMMA CHI CHAPTER

THIS was the year the Kappa Sigmas moved their residence within throwing distance of the campus . . . at the end of Lovers' Lane. Perhaps their propinquity explains why the Kappa Sigs were in the spotlight much of the time this year, with Jim Stockman being elected to vice-presidency of the Student Council for 1939-1940.

Examples of how the fraternity shines in athletics: Four out of five years the football captain for the Wildcats has been a Kappa Sig. Staley Pitts received an All-American card of merit. Bob Briggs fluttered many a coed heart with many a thrilling play. And, speaking of coeds' hearts, at the Spinsters' Skip on Valentine's Day, K. S. C. girls enthusiastically voted Staley Pitts 1939 King of Hearts.

Gamma Chi chapter of Kappa Sigma was formed at Kansas State on June 19, 1919. It is one of the 108 chapters on the roll of the national fraternity which was founded at the University of Virginia in 1869. The organization is represented in every state except Nevada, Delaware and Connecticut, and there is one Canadian chapter.

Among the faculty members of Kappa Sigma are Football Coach Wesley Fry, Fred A. Peery, and W. F. Pickett. Lowell Thomas, International News commentator seen often on the movie screen, is another wearer of the crescent and five-pointed star.

Chapter officers for the year: Kenneth Enright, president; George Young, vice-president; Fred Eyestone, secretary; Jack Carothers, treasurer. Mrs. Verne Sibley is housemother.

PHI DELTA THETA

STATE'S WILDCAT READY TO trounce the University Jayhawks from "Lindsey's Poultry Farm" in the old Phi Delt Homecoming spirit.

SOMBRE SUNDAY AFTERNOONS are cheered up a bit by Phi Delt music and Phi Delt's stories in a cozy corner at 928 Leavenworth.

KANSAS GAMMA CHAPTER

WHEN bewildered froshies arrive next year to pick out the most desirable Greek home in which to park their luggage for a four-year vacation, the decision will be made even more difficult by Phi Delta Theta's new addition to the Sunset skyline. The new modernistic Phi Delt house to be constructed during the summer months will house 42 men and will occupy the site midway between the two Greek houses now facing west on Sunset drive.

An account of Greek activities of the year would be quite inadequate if mention were not made of the Phi Delta Theta April Fool's Day party at the Wareham. Decorations for the dance included all the holiday ideas from pumpkins to Santa Claus, all for the sake of fun and foolishness.

Kansas Gamma chapter of Phi Delta Theta was inaugurated at Manhattan on February 25, 1921. The national fraternity was founded at Miami University, Oxford, Ohio, on December 26, 1848, and now has 106 active chapters.

Significant was the item on State's social calendar this year which concerned the Phi Delta Theta-Beta Theta Pi Miami Biad, a dance celebrating the founding of two of the Miami Triad which were founded at Miami U.

Members of the faculty who wear the Phi Delt sword and shield are R. J. Beers, Dr. C. W. Colver, M. A. Durland, and H. M. Scott. Chapter officers were: Joe E. Robertson, president; Theron Harmon, vice-president; William Wilson, secretary; and Max C. Opperman, treasurer. Mrs. Grant W. Mathias is housemother.

PHI KAPPA

IT LOOKS LIKE STUDYING, but it's more likely to be statistics about Collegiate Republicans in Kansas that absorb Chairman Art Farrell.

"AND HERE'S TO A LASTING friendship between Phi Kappa and Acacia," is the toast at the annual Dutch dinner, Phi Kappa house.

IOTA CHAPTER

IF the campus needs a politician, it's safe to predict one can be found at the Phi Kappa house. First, there's Art Farrell with his engaging smile, and then there's Victor Beat. Artie has been chairman of the Collegiate Young Republicans of Kansas for the past three years, and you should see him shine on Kansas Day. Beat was among those present when class election winners were announced. He has held the purse for the junior class for 1938 and 1939 and he was president of Newman Club, carrying on the three-year tradition that a Phi Kappa should head the club.

Another example of Phi Kappa *savoir faire* is the annual get-together with the Acacias.

Iota chapter of Phi Kappa was established at Manhattan on April 9, 1921, one of 24 active chapters. Phi Kappa is a national fraternity for Catholic men which came into being at Brown University in September, 1889. Phi Kappas wear a recognition pin which is a miniature facade of a Greek temple with six Doric columns.

Faculty wearers of the badge of Phi Kappa are Dr. W. L. Faith, Dr. Harold Howe, J. P. Callahan, and Raymond Doll. Former Governor of New York Alfred Smith is numbered among the nationally known who are members of the fraternity.

PHI KAPPA TAU

GET THAT SPOT, PLEDGE! It's great fun ta be an active and get your neophytes ta be valets far a week.

A SOFT LIFE, THIS GOING ta college. Maybe these Phi Kappa Taus are studying, thaugh. Same da.

ALPHA EPSILON CHAPTER

A shooting gallery on the front lawn of the Phi Kappa Tau house attracted much attention at Homecoming and received many comments from grads and undergrads alike this fall. State's Wildcat marksman never missed his aim as the jayhawks from K.U. flew past him. Judges of the contest awarded Phi Kappa Tau third place.

Nominee for Phi Tau's outstanding active this year is Man-about-the-campus Charles Snider.

An innovation in teaching the pledges the art of being Emily Post's idea of a perfect host was the "learn by doing it" method. This year each member took his turn at serving dinner at the Phi Tau house, and he learned not to spill the turkey in Mrs. Groody's lap after the first few trials.

Alpha Epsilon chapter of Phi Kappa Tau was installed on the campus May 20, 1925. It is one of the 43 chapters of the national fraternity which was founded at Miami University, Oxford, Ohio, on March 17, 1906.

Faculty members include: Chapter Advisor Roy C. Langford, M. W. Furr, H. Miles Heberer, Dr. R. C. Hill, George Montgomery, Dr. J. C. Peterson, Dr. Roger C. Smith, W. Troutman, and A. E. White.

The badge of the fraternity is an irregular-shaped octagon, the center of which is a black enameled oval bearing a white star and the gold letters of the organization.

PHI SIGMA KAPPA

RADIO CORNER IN THE white colonial house at 1630 Humboldt is the favorite resting spot for class-weary Phi Sigs.

PLEDGE TOMMY TRENKLE, pipe between the teeth, gets a bit of instruction about national Phi Sigma Kappa doings.

IOTA DEUTERON CHAPTER

FIRST event of note on the Phi Sig Calendar for 1938-1939 was the choosing of Pledge Jack Hodshire as president of Freshman Men's Panhellenic, the organization in which pledges learn early that inter-fraternity cooperation pays.

Next date to be noted was around about Christmas time when the Phi Sigma Kappa house was host to a number of Manhattan's poor children. It was a Christmas tree party with toys and candy and all the season's atmosphere that the boys could provide.

Along with regular school activities the members of Phi Sigma Kappa find time to debate, play in the college band and orchestra, join clubs, and keep in the general social swim.

Iota Deuteron chapter of Phi Sigma Kappa, the outgrowth of a local fraternity known as Phi Delta Tau, became national on March 24, 1923. The national fraternity was founded at Massachusetts State College in 1873 and now has 49 active chapters. Its objectives are the promotion of friendship, the development of character, and the stimulation of scholarship.

Faculty members of Phi Sigma Kappa include Chapter Advisor Captain Karl Frank, Major T. R. Holmes, Maurice C. Moggie, and Dr. R. K. Nabours.

Officers for the year: William P. Trenkle, president; Fred W. Hansen, vice-president; James D. Thackrey, secretary; and Robert S. Pierce, Jr., treasurer. Mrs. W. T. Foster is housemother.

PI KAPPA ALPHA

PI K A JAM SESSIONS ARE fine deals, especially when Allen Heskett invites some of Matt's boys over for an afternoon.

HOMECOMING MEANS THE Cornjigger to Pi Kappa Alpha actives and grads. Cornstalks and pumpkins decorated the Wareham Grill.

ALPHA OMEGA CHAPTER

IT wouldn't be quite cricket to call the Pi K A's militarists, but it wouldn't be fair either to keep their military recognition off the record. First in rank is Cadet Colonel Harlan Bull, and marching close behind are Captain Richard Seitz and Captain Patrick Morgan. Also on the record should be State's outstanding middle distance runner Paul Brown, Manhattan boy, who broke K. S. C. records at the Drake relays . . . his time 53.5 in the 440.

Socially the Pi Kappa Alpha brothers keep in trim with Sunday night "Go Rounds" to recorded music or with Prexy Al Heskett's piano swing time.

"Twas down in old Virginny where Pi K A began" at the University on March 1, 1868. One of 78 active chapters, Alpha Omega chapter was established at Kansas State on June 9, 1913.

Harry C. Baird, E. V. Floyd, Dr. W. E. Grimes, LaMotte Grover, John Hepler, R. I. Throckmorton, and A. L. Olson are Pi K A faculty members. Lynn O. Waldorf, coach of the 1934 Big Six champions and now football coach at Northwestern, also wears the diamond shield of Pi Kappa Alpha.

Officers: Allen Heskett, president; Harlan Larson, vice-president; Patrick Morgan, secretary; and Donald G. Reames, treasurer. Mrs. Lee Ora Benton is housemother.

SIGMA ALPHA EPSILON

HI-DE-HO AND A COUPLE of bums must have crashed this party. No, it's just the Sig Alphs going law braw for their annual Bawery porty.

IN THE MODERN MODE the house was built, and in the modern made the home was shawn at the apen hause given far interested friends af SAE.

KANSAS BETA CHAPTER

"THE perfect hosts in the perfect house" was the comment heard after that memorable Sunday afternoon when guests were treated as kings at the Sigma Alpha Epsilon modern-styled house in Manhattan's newest addition. If you don't think it impresses guests to park their cars for them, just try it.

The boys from way out west of the baseball diamond went in for leadership "whole hog" this year. Six presidents for campus honorary and professional organizations were chosen from the Sig Alph roll. Here are the presidents: George Shrack of Pax, Meade Harris of Alpha Mu, Kenyon Payne of Scabbard and Blade and Alpha Zeta, Joe Bonfield of Blue Key, and Earl Certain of Alpha Phi Omega.

One of the 111 active chapters of Sigma Alpha Epsilon, Kansas Beta was founded at Kansas State College on January 24, 1913. The national fraternity was organized at Tuscalusa, Ala., on March 9, 1856.

Sig Alphs at State were all a-grin last November when Payne Ratner, wearer of the diamond-shaped badge of the fraternity, was elected governor of Kansas. Much ado was made over his inauguration, and an invitation was extended to the Governor and Mrs. Ratner to attend the SAE Christmas party.

Officers of Sigma Alpha Epsilon: Joe Bonfield, president; Albert Henry, vice-president; John Brock, secretary; Larry Jarvis, treasurer. Mrs. Gertrude Beeler was housemother for the first part of the year. She was replaced by Mrs. Margaret Shannon.

SIGMA NU

MAN ON THE TOP DECK risks going overboord to get in on a debote squod story told by Howord Crowford, seoted toilor foshion.

MOST ANY EVENING ot leost one foursome con be collected in some cozy corner of the new Sigmo Nu house which looks down on Sunset Drive.

BETA KAPPA CHAPTER

ITS coppery roof glittering in the vari-colored sunset, Sigma Nu's newly constructed Georgian Colonial home tops the westernmost hill of the city. Behind its red brick walls dwell such campus personalities as Student Council President Richard Wherry, his watch chain weighted down with gold keys; such athletes as Kenny Nordstrom, All Big Six material; and such not to be overlooked individuals as fighting columnist "Ferdinand" Cooper.

Highlights in the Sigma Nu year: Moving into the new house . . . White Rose formal dinner and dance . . . winning the fraternity bracket in basketball . . . just going to college . . . football games . . . jellying.

On May 24, 1913, Beta Kappa chapter of Sigma Nu was installed at Kansas State. It was an outgrowth of a fraternity known as Kappa Delta Pi, and now is one of the 96 chapters of Sigma Nu which was founded at Virginia Military Institute, "the West Point of the South," in 1868.

Faculty men who wear the white star of Sigma Nu are Chapter Advisor A. P. Davidson, H. H. Haymaker, C. E. Aubel, J. E. Pallesen, and L. R. Quinlan.

Officers of the local chapter of Sigma Nu this year were: Kenneth Nordstrom, president; Billy N. Stone, vice-president; James F. Cooper, secretary; and John A. Sheetz, treasurer. Mrs. Elizabeth Sheetz is housemother.

KANSAS BETA CHAPTER

WHEN an accounting is taken of the activities on the campus, there's sure to be found a member of Sigma Phi Epsilon in about everything that's doing. In student government there's George Aicher. In other organizations there are these Sig Ep presidents: Delbert McCune, Dynamis; Neal McVay, Block and Bridle; Keith Johnson, Scarab; and Bob Tindall in the spring of 1939 replaced his fraternity brother Stan Miner as president of Alpha Kappa Psi.

Sigma Phi Epsilon's Ted Shawn was brought to the campus this year by S. G. A., and all the local chapter was out to greet him. Another feather in the Sig Ep cap was the Sigma Phi Epsilon Governor of Kansas Huxman who was retired in November.

Sigma Phi Epsilon was founded at Richmond, Va., November 1, 1901, and now has 71 active chapters. The Kansas Beta chapter was established in Manhattan on February 23, 1918, an outgrowth of a local fraternity known as Epsilon Epsilon Epsilon.

Faculty members who are wearers of the heart-shaped badge which bears a skull and crossbones and the Greek letters of the fraternity are: Faculty Advisor H. W. Cave, Robert W. Conover, H. W. Davis, Hurley Fellows, C. O. Grandfield, H. H. Laude, R. P. Link, D. L. Mackintosh, F. A. Smutz, and A. B. Sperry.

TAU KAPPA EPSILON

SWISHING TAFFETA, UP HAIR das, and stiff shirt fronts pause in anticipatian of the next number at the Tau Kappa Epsilan fall party.

IT'S BEDTIME BUT staries keep the TKE's up a little late and make getting up far eight o'clacks a bit af a difficulty.

ALPHA LAMBDA CHAPTER

WHEN the champion livestock judgers brought home the bronze bull trophy from the Chicago International, two Tau Kappa Epsilon members were present to be congratulated and lauded. Gay Tuis and John Perrier, both TKE's, were two of the six on the winning team. Tuis has been outstanding in other college activities as president of Senior Men's Panhellenic, treasurer of the Ag Association, and member of Block and Bridle. President John Perrier was another TKE who held the office of Panhellenic president and contributed his services to many a campus activity.

The Tau Kappa Epsilon annual Christmas good cheer party, their social service contribution to the community, was gay and cheerful in the newhome at 1605 Fairchild.

Alpha Lambda of Tau Kappa Epsilon became one of the national fraternity's 40 active chapters on January 31, 1931. Tau Kappa Epsilon was founded at Illinois Wesleyan University and was known as "The Knights of Classic Lore" until the adoption of the Greek name in 1902.

THETA XI

LET OLD MAN WINTER howl outside, the Theta Xis keep safe and warm before the fireplace, araund the card table at 1614 Fairchild.

THE TOUGHS OF THE CAMPUS for the evening are the costumed guests leaning an the bar at the annual "Tuffy Strut."

ALPHA IOTA CHAPTER

FROM the time of its founding until 1931 Theta Xi was a social fraternity for engineers. The chapter at Kansas State still draws much of its membership from the Division of Engineering. Many alumni of this chapter have gone to all parts of the globe as engineers for electrical companies, as teachers of engineering, as the builders of tomorrow.

When the T X's swing out at their chapter house they call it a Tuffy Strut and have a grand evening of being "tuff." When the T X's hire a good housemother, they hold tight. Mrs. Rose Cassidy set a record this year with 16 years to her credit as chaperon to the organization.

Theta Xi, which was at one time confined to technical schools, was founded in 1864 at the Rensselaer Polytechnic Institute. Alpha Iota, one of the 34 chapters, was installed at Kansas State on November 7, 1931.

Members of the faculty who wear the gold, pearl-studded pin of Theta Xi are H. N. Barham, G. F. Branigan, and J. H. Robert who is also chapter advisor. Senator Alva Adams, John J. Raskob, and General Butler Ames are some of the nationally known figures who are members of the fraternity. Officers for 1938-1939 were: Dean Bradley, president; Marshall Thomas, secretary and vice-president first semester; Delbert Creighton, secretary and vice-president second semester; James Pierce, treasurer.

Poetic Patter

Here in poetic (?) form, the noted writers, James Fenimore (Hawkeye) COOPER and Donald Makepeace (Vanity Fair) THACKREY, portray their impressions of the activities of the year.

School begins and bells do ring,
Two might' poets of happenings sing. . . .

September 9—

In rush week, the Kappas sure did hustle,
Got 24 girls and ten tons of muscle.

September 10—

A column was started by some little punk,
"Maybe I'm Wrong But—" we think it stunk.

September 16—

Fry predicts we won't win a game,
As a fortune teller, he ought to win fame.

September 19—

COOPER AND THACKREY write poem,
"BLUE MANITOU"
Morning, morning, morning
Early
Blue Manitou
Night, night
Late
Blue Manitou
Hash and Goo
Foo

September 20—

A new house opened for I. S. U.
A playhouse for Molesworth and his crew.

September 30—

Collegian announces all-school mixer:
Whiskey and coke.

WHAT WILL THE FUTURE BRING?

EVERY young man or woman of today wonders what tomorrow will mean for him or her. Whether you measure your success in dollars and cents, or in contentment and respect of those in the community in which you live, there is just one answer . . . . and that answer is THRIFT.

TO practice this golden virtue is the only assurance that you will **reap the reward to which your education entitles you.**

IN appreciation of the wonderful work that the Kansas State College and her students are doing for our State, the Associated Banks of Manhattan take pleasure in extending this message on "Better Citizenship" to you through the 1939 ROYAL PURPLE.

First National Bank - Union National Bank

CEMENTING
FRIENDSHIPS

Thru service, a public utility affects the life directly or indirectly of every citizen living in the community it serves. As it functions, its eyes must be always to the front . . . searching for new improved methods . . . building for the needs of coming generations. Efficient, thoughtful service is a builder of friendships. The Kansas Power and Light Company, each day, strives to cement these friendships by keeping its operations in tune with the desires of a sturdy, progressive people. The power and gas needs of the area served are in the hands of an efficient, competent, and understanding engineering corps.

To generate a jingle,
With a journalistic tingle, praising "Kedzie,"

Should fool around with;
Just to find a rime for Kedzie
Puts my headzie down-in-bedzie;
And Pegasus is a nasty nag to mount,
Then run aground with.

To the unitiated
Kedzie's just a shack—out-dated,
Just another limestone landmark

And your rustling, bustling yammer,
There's a spirit—or darn near it—
That I hope will always be.
Keep your yawp and chitter chatter,
Keep your drive and scrap and splatter,
Keep those type-keys all a-clatter,
And no ill can come to ye.

Kedzie Hall, dog-gone it all,
Neither handsome, dark, nor tall,
With your clamor and your glamor,
And your zip, you get the call;
Squat and squalid Kedzie Hall
You've got magic on the ball—
Definitely you've a certain something
That the rest ain't got at all.

In 1837 JOHN DEERE hammered into the first steel plow ever built, a high quality of workmanship, and thus started his career as a manufacturer with a determination to always use the best of materials and the highest quality of workmanship available. He then and there established the John Deere rule of giving good service to the farmers of the world, which time has proved to be one of the organization's most valuable principles. These principles have never been abandoned and are employed in 1939 in the John Deere organization as effectively as they were over one hundred years ago.

WHAT IS THE FUTURE OF ELECTRICITY?

The marvels of electricity a half century ago were little known. Perhaps in just a few years future generations will be saying that about 1939.

But these new developments will only come with the welding of long range planning, research, large monetary expenditures and skilled man power into one closely knit unit. The wise expenditure of labor, time and money has enabled this company to meet the demands of this growing community for electric energy and the building of an adequate reservoir for future growth. This is shown by the present capital investment of approximately ninety-seven million dollars and the employment of more than two thousand skilled employees.

Research is constantly going on to increase the efficiency and to extend the helpfulness of electricity in all phases of life. And because of this desire and readiness of investor owned electric service companies to delve into the unknown, electricity is helping increase the span of life, reduce human drudgery and make living more worth while.

EXPERIENCE COUNTS . . . .
In the long run

Every printing job has a personality. It represents more than so much paper, ink and presswork . . . each piece tells its own indisputable story. If produced by skilled hands, each sheet will do what is expected of it . . . in contrast, the slip-shod piece falters when the iron test comes. Since good printing costs no more, yet produces so generously, purchase printing carefully.

For more than 40 years the Capper Printing Company has placed quality foremost. On this basis we have grown. Our plant has not only the needed equipment, but also a force of skilled craftsmen . . . individuals whose pride in their work is your guarantee of printing excellence . . . as an example we give you the 1939 ROYAL PURPLE.

Outstanding examples of college yearbooks from the press of the Capper Printing Company are—

the 1937 *Royal Purple,* a "Pacemaker"
the 1938 Washburn *Kaw,* another "Pacemaker"
the *Jayhawker* of Kansas University for the years of 1937-38 and 1938-39

February 14—

Our watch charm guard, Staley Pitty,
Was King of Hearts, and very pretty.

February 24—

The Betas held their annual jig,
A small, bored, crowd, and the Beta pig.

February 25—

The cellar gang is in our plan,
When we play basketball, we "also ran."

March 1—

Now, dear readers, we must stop here,
It has been a darned exciting year.
We stop before it's nearly time,
But we have to meet that old dead line.

BETTER THAN EVER

The 1936 ROYAL PURPLE was adjudged one of the very finest college yearbooks in the country—and that means the world. Each volume since has added to that reputation and established it more firmly.

To the tradition set by George Hart and George Eicholtz, and carried on by Jack McClung and Cliff Henderson in 1937 and by Luman Miller and Don Duckwall in 1938, little "Dode" Foster and big Joe Bonfield have added fresh laurels.

As the Royal Purple's second feminine editor, Dode has made a tradition of her own; but that was only incidental to a top-notch, Aa-A1 job of editing, done with keen judgment, driving energy, and flashing spirit.

No one could have handled the business end better than genial Joe. Calmly alert, pleasantly forceful, he has that faculty for getting things done, and well done, which is the universal mark of the successful man.

Congratulations, Dode and Joe. And best wishes to your successors, Al Makins and Joe Robertson. May it be true in 1940, as it is today, that the ROYAL PURPLE is better than ever.

Carry on, Kansas State!
